Adventures in Science

Robotics ~ Programming ~ Science ~ Art

The Tomlinson Art & Science Center is proud to offer classes in Robotics, Programming, Science and Art. Classes will be on Thursdays after school from 3:30 to 4:30. Starting May 3rd, students can ride the **Bumblebee** bus to the Tomlinson Art & Science Center on Main Street, Calico Rock. We will also provide a snack and juice. Students will need to be picked up from the Art Center no later than 5pm. There is no cost to students for this program. We will start with building robots and learning to program robots like Dash and mBot. Next school year, we hope to teach how to create apps!! Our goal is to encourage, and support students interested in technology and art. Even ART is a science!

If your student didn't come home with from school with a permission slip, they are available at the Tomlinson Art and Science Center.
