Once upon a time, libraries were a place for just books. Today, with the proliferation of everything from magazines to microfiche, library planners need to accommodate a variety of media. Flexibility has become the key as needs change from year to year. To those looking for a better, more cost-effective long-term solution to library storage needs, we present System 3000 shelving – the perfect marriage of modular functionality and aesthetic appeal.

System 3000's unique storage and accessory components let you customize your display to suit your demands, and offer simple modifications down the road as your needs grow and change.

- System 3000 is engineered, manufactured and executed in the United States with the expertise and quality of craftsmanship known to be the standard at MJ Industries.
- Our shelving makes ADA compliance possible with freestanding shelving. The absence of a protruding bottom shelf and the smaller footprint maximize aisle width.

- The System 3000 design allows for the ability to install shelving with an open base, which reduces clutter, producing a more spacious look within increasingly crowded library spaces.
- If the designer's vision so dictates, the bold geometric shapes of end elevations can be left exposed, without accessory end panels, resulting in substantial savings to the library.

- Our state-of-the-art powder coating painting system provides twice the paint thickness at no additional cost.
- High capacity shelves capitalize on space restraints.

Before you invest, see for yourself how System 3000 shelving stacks up. Call MJ Industries today at 1-800-24SHELF (1-800-247-4353) or (978) 352-6190.

Welded Frame – 1000

MJ Industries™
TOP SHELF SOLUTIONS FOR TODAY'S LIBRARIES.

The MJ Advantages

- True unit construction. Each unit is completely independent of the next.
- Welded frame eliminates the need for unsightly sway braces.
Allows clear filing from one side to the other for oversized volumes.
- Lower installation cost.
- One piece base shelf and base brackets.
- Canopy top accepts wire book supports.
- Accessories and components can be easily mixed and matched on any section.
- All fasteners are concealed within the design.
- Our state-of-the-art powder coat paint system gives us the most durable paint finish in the industry.
We offer fifteen standard colors. Special colors can be matched to please even the most discriminating eye.
- On time delivery. Most deliveries can be made in six to eight weeks after receipt of an order.
When we make a commitment we keep it.
- Quality that is second to none.
- We can manufacture most special items to include special heights, widths, and specialty products in minimal lead times and at a reasonable cost.
- MJ Industries has been associated with the metal fabricating industry for over forty years with over twenty years of library experience.
- We have a nationwide sales organization which is fully trained to assist you with your library planning.
Contact MJ Industries, at 978-352-6190, for the name of your local representative.

Shelf Selection

TYPE OF VOLUMES	NO. OF VOLS. PER LINEAR FOOT OF SHELF	RECOMMENDED DEPTH OF SHELF
Circulation (Non-Fiction)	8	9-10 in.
Fiction	8	8-9 in.
General Literature	7	9-10 in.
Economics	8	9-10 in.
Reference	6	9-10-12 in.
History	7	9-10 in.

Law	5	10 in.
Medical	5	9-10-12 in.
Bound Periodicals	5	10-12 in.
Art (Folios)	7	10-12 in.
Juvenile (Elementary)	10	9-10 in.
Juvenile (Pre-School)	12	10-12 in.
Public Documents	5	9-10 in.

Nominal vs. Actual Dimensions

For Cantilever-type Bookstack, the adjustable shelves and base shelf depths are given in "nominal" dimensions, which indicates the depth from the front edge of the shelf to the centerline of the 2" depth frame.

For adjustable shelves, the actual depth is 1" less than the "nominal" depth.

For base shelves, the actual depth of the shelf, as well as the overall depth of the bookstack unit, will measure 1-3/8" greater than the "nominal" depth for single-faced units, and 7/16" greater than the "nominal" depth for double-faced units.

All heights indicated for Bookstack Units are actual heights.

66" high unit shown above.

NOTE: All single faced units must be anchored to the wall. Units come standard 36" wide. 30" and 24" wide units are also available at the same price. When ordering 30" wide change catalog number to begin with MJ30 instead of MJ36. Special widths and heights are also available. Contact factory for pricing.

All figures shown are shelf load capacities in pounds for evenly distributed loads and include a safety factor of 1.65. Recommend Heavy Duty or Extra Heavy Duty for shelving requirements larger than 36"x 24". Note: (1) : Class 3 capacities are based upon the use of Extra Heavy Duty Shelves with (A) Side Shelf Supports and (B) Center Support for additional capacity. Must use nuts and bolts for shelves, not clips.
