**TOWN BOARD REPORT**

There was some discussion around whether this was a hobby or a business. After some minor language changes, the letter was approved by the Commission to be sent.
- An Implements of Husbandry letter will be sent with a map to all growers, farmers, business, etc. that it would apply to. Plan Commission may get involved after the businesses meet. The hope is to map some common routes with the help of the businesses. It will be necessary to give an alternate route if a permitting process is undertaken.
- Sharon mentioned the Town may be interested in Mr. Becker creating a new Town of Grant sign. He stated that he would be happy to work with the town and at a very good price. He is very experienced with producing this type of sign.

**BRODY APPLICATION TO EXTEND EXISTING CUP**

- A review of the current CUP that expires on June 9, 2014, was undertaken.
- Jim Wendels summarized the citizen input from the last meeting with regard to this CUP application.
- There was lengthy discussion with regard to engine braking, equipment needed to complete the project and length of project.
- When the idea of dewatering the pond to continue excavation came up, there was a question whether there would be a permit needed for this action. Lori Ruess will research that and subsequently submit her findings to be included with the conditions of the CUP if granted.
- Dean Altmann stated that he was willing to do anything the Commission requested in order to complete the work. Or, if the Commission decided not to extend the CUP, he would be happy to abide by that decision as well.

- A recommendation would be made to the Town Board with specific conditions including no engine braking, a time extension of another two years, and if applicable, dewatering permits being required.
