SMCAS General Meeting and Presentation on Friday September 1, 2023

Frank Seminaro - SMCAS Astrophotographer

PixInsight post-processing basics - Messier 13 The Great Hercules Cluster

Friday, September 1, 2023 , [College of San Mateo, Building 36](#)

SMCAS Pizza Social at 7:00 p.m. in the ISC Room, room 110

Presentation at 8:00 p.m. in the nearby lecture room 109

Free and open to the public, free parking - recommend lots S (staff lot) or Q (student lot).

Frank will pick up where he left off in his last astrophotography presentation on December. 2, 2022. He will explain key fundamentals of post processing and walk through his approach to

processing star clusters in PixInsight. He will cover the entire process from stacking to saving the final JPEG image. Globular and Open clusters make up over 50% of Messier's 110 objects. This presentation will provide you the capability to process all of them.

Frank Seminaro is an avid astrophotographer. He is a current Board member and past president of the San Mateo County Astronomical Society.
