

You are Invited!

Celebrate the Integration of Two Amazing Practices!

January 28, 2017 1:00 – 4:00 PM

Dr. Shelese Pratt N.D.

Offering holistic solutions to the toughest medical conditions. Using state of the art analytical laboratory testing, diet and nutrition, homeopathy, and botanical supplements, Dr. Shelese Pratt heals the root cause of disease. The Clinic specializes in MTHFR and pediatric neurology, and is a master practitioner of Brain Integration Technique (BIT).

Barbara Horwitch , Andrew Tarr, Gilbran Chong, Casey Rogers & Katie Morrell

Using the scientifically supported Anat Baniel Method (ABM), This practice uses a gentle therapeutic neuromovement that harnesses the capacity of the human brain to form new connections at any age. ABM lessons can often produce organic and remarkable outcomes for children and adults with ADD, Autism, CP, Down syndrome, strokes and more.

Come to Our Open House

- Find out how these two practices work together to heal and help your family members reach their potential
- Discover Dr. Pratt, ND's, arsenal for fighting colds and the flu. Naturally!
- Get a free neuromovement lesson, lead by ABM practitioners
