

Birthplace
123 main street
Any town , PA 19123

January 20, 2009

Dear Midwives, Doulas and Childbirth educators,

We are Barbara D_____ and Bobbie P_____, the certified nurse midwives at Birthplace in Any Town , Pennsylvania. We wanted to let you know about a well kept secret in our area. For more than 8 years we have been able to reduce our c-section rate due to mal-presentations. This has not been by accident.

You see, there is a husband and wife team of doctors in Newtown, Bucks County that have developed an incredible, safe and highly effective, hands on technique that has enabled ALMOST EVERY breech or transverse presentation that we have referred to them to turn to a vertex position with NO RISK to mother or baby. Believe us when we tell you there have been A LOT of women we have sent to them over the years. Each of these babies moves to their natural and safe vertex position. And to think all of this is accomplished with NO RISK to mother or baby. This has not been an isolated event! We have sent countless families to Drs Karen and Larry. What they do really WORKS!

Drs. Karen and Lawrence Bagnell have helped a huge amount of women avoid a c-section. What a great gift! Wouldn't you agree?

These doctors are known both locally and world wide as pregnancy experts because they have so much experience with the many special needs of pregnant women. They even teach other doctors from around the world, their specialized techniques. Dr. Karen Bagnell has even cared for patients in our very own Birth Center. They have 2 children, both born P naturally. There son was a home water birth that can be seen on The Learning Channel's "A Baby's Story". You'll even see one of us on that same show!

So, if you have patients who experience pregnancy related conditions such as sciatica, carpal tunnel, low back pain, indigestion, headaches, pubic pone pain, round ligament pain or even a transverse or breech presentation, please consider chiropractic first.

Please contact Drs. Karen & Larry Bagnell directly at (215)123-4567 or visit their website www.dragnell.com . You may also e-mail them at [dragnell@ pregnancychiropractic.com](mailto:dragnell@pregnancychiropractic.com) with any questions or comments.

Warmest Regards,

Barbara D, C.N.M
Bobbie P, C.N.M
