

SQ21 – Quiz
The Twenty-One Skills of Spiritual Intelligence
 ©Deep Change, Cindy Wigglesworth

“Spirituality, as I define it, is *the innate human need to be connected to something larger than ourselves, something we consider to be divine or of exceptional nobility*. This means we seek to connect to something larger than our immature ego, our little needs. The innate desire for that connection transcends any particular faith or tradition. It does not require a belief in a divinity by any description, nor does it preclude a belief in God or Spirit or the divine.”
