

To our valued clients and their families,

Like all of you, we are continuously monitoring developments in the ongoing situation regarding COVID-19. We are listening to your questions and concerns, and want to take this opportunity to ask for your cooperation in reducing disease spread.

Current protocols:

- If your child is not feeling well (fever, coughing, runny nose, etc), please keep them home.
- If your child has been exposed to COVID-19, please have them tested and monitor for symptoms. Therapy may resume in-person 7 days after exposure as long as no symptoms and negative test 3-5 days after exposure. If testing is not completed, therapy may resume after 10 days if no symptoms/no re-exposure.
- If your child is required to quarantine from school, they must wait until the school quarantine is complete before returning to therapy. Virtual/on-line session may be an option.
- Our lobbies are open; please conduct all drop offs/pick ups in the building.
- Please have your child wash their hands before their therapy session.
- Please limit how many family members/siblings accompany your child to their therapy session.
