COME AND SEE IT OR BRING YOUR HORSE AND TRY IT!

Cowboy mounted shooting is one of the nation's fastest growing equestrian sports. Each contestant in this fast action event is equipped with two .45 caliber single action revolvers, each loaded with five rounds of special blank ammunition. Courses of fire are set in a variety of patterns. The first five balloons are set in a random pattern and the last five balloons are traditionally set in a straight line known as a rundown. After the shooter has fired the fifth shot they holster the empty revolver and draw the second revolver. He/she then engages the last five balloons on the course. Scoring is based on the elapsed time plus a five second penalty for each missed balloon or knocked over barrel.
