DESCRIPTION: This is a very RARE high-end short hunting bow. This is one of the first models from the famed Pearson Golden Sovereign line. The riser is in exceptional condition for a 60 year old. This bow passed my stress test (held at full draw for 12 hours to make sure the old glues still held and no stress lines emerged). It has sweeping recurves to increase speed and not stack. Brown face limbs and black back limbs. The riser is made from laminates of rare tropical hardwoods. Bow has no delamination; no cracks; limbs are straight. Overlays and tips are in very good condition. No drilled holes; No chips, dings or cracks. No crazing or stress cracks; A few minor scratches and nicks here and there. The only blemish on the riser is on the lower part of the riser (see last pic). Decals are very faint and in poor condition but intact. Overall, this is a really nice bow in excellent condition for its age. This bow was in the same price range as the Bear Kodiak, Browning Explorer, & Black Widow HB (Hunting Bow).
