SENSE

SENSE

- ✦ A multipurpose chair, the SENSE is made of a nylon composite and possesses unique characteristics that provide exceptional freedom of movement to the user. The SENSE meets the new ANSI/BIFMA x 5.11 standard and can support up to 400lbs. As is the case with all ADI products, the chair has a lifetime warranty.

- ✦ The SENSE is available in a sled and 4 leg version, as well as one possessing a mechanism on a 5 prong base with casters. Bar height and counter height stools are also offered. Choice of black or white plastic shell, and all the metal finishes from the standard ADI program.

✚ The back movement lets the user shift from an upright position to a relaxed one by simply displacing his or her weight on the chair. The movement rests the back and reduces the pressure on the ischia bones. The lumbar support will automatically adjust to the pressure exerted on the backrest by the user.

✚ The SENSE is available on a beam for row seating within the regular ADI program. Specify the legs, the finish color and choose among a selection of arms to get your final product.

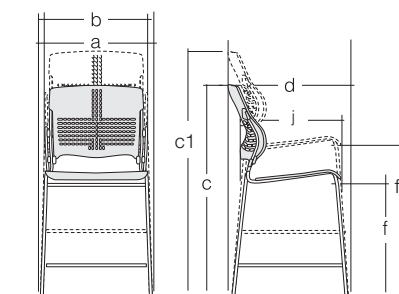

✚ The SENSE chair stacks 20 high on a dedicated dolly, safe and easy to move around.
