William's Story

William's dad looks amazed; his son "doesn't like sports or to go outside", but there he is jumping in the pool with the other slippery kids at the pool. "My wife can't swim either, but she always wanted William to learn. When we were able to get a scholarship for swim lessons, she signed him right up."

YMCA Swim Lessons provide water safety classes and encourages their parents to participate so that the whole family can stay safe around the water. Through programs such as these your YMCA takes part in the development and education of water safety and skills for the youth of Michigan.
