Welcome & NM Tech Intro: Jenna Crabb & Michael Voegerl

- Goal of the organization is to provide value added services and information to the membership

EMSI General Info & Updates: Charles Lehman & Jenna Crabb

- College Level Reports
 - Where are alumni going, what skills are they listing on their resumes
- Individual Level Reports
 - Infographic by college on what college alumni are doing
 - Infographic by program on what program alumni are doing
 - Data can be used to update, What can I do with this major? sheets
- Employer Reports
 - What positions and majors are alumni working in?
 - Where do they work?
 - What are their job titles?
- Export raw data to Excel and save it for later use
- Skills listed on the report can be used to tell current students what they are learning and where others like them have gone with their degrees.
- Statewide data
 - Data to back up whether or not there is a brain drain
 - Data shared with Higher Education and Council of University Presidents
 - Economic impact of higher education
 - Data shows that most stay rather than leave with their degrees
 - Alumni and new grad networking could be generated from the data. Informational interviewing is also an option.
 - Companies that have hired grads from your program
 - Other avenues for using my major
- Ends September 25, 2018

DRAFT – no yet approved – approval at December 2018 meeting

LUNCH

STEM Careers in USDA Forest Service: Berlinda Baca

- Presentation aimed at HS students to promote careers in STEM in Federal Government
- Presentation was developed out of the OPM Leadership Development Program
- What is STEM
- Mission Critical occupations needed to fulfill missions or have large # of openings
 - Degree must meet OPM course requirements
 - Working on adding Universities that offer the majors that meet OPM requirements to the presentation
 - People who want to work in Cyber Security do not necessarily need a degree in computer science
 - Forestry Tech is the largest part of the Forest Service labor force – major doesn't matter – related degree required for advancement
 - Summer Internships through
 - Pathways
 - HS Student focused Summer Internships
 - 3rd party internships
- Day in the life snap shot of students working in these positions
- Videos of people in the various careers are also available
- Presentation will be available online once compliances are met
- Handout of qualifications including education by position distributed
