DESCRIPTION: Original (pre-Head/AMF) Red Wing Hunter. Great looking and performing re-curve. Bow has no cracks; limbs are straight. Overlays and tips are in great condition. Factory installed quiver bushings. No drilled holes; No chips, dings or cracks. No stress lines or crazing. A few minor scratches and nicks here and there. Decals are in good condition. The only real flaw is that the lower limb has been "shaved" and is not quite as wide as the upper limb (see pics). This appears to have been done in conjunction with a repair of the core limb laminate (done by a previous owner—see pics on last page). Bow is priced accordingly. I put the bow to a stress test (held at full draw for 15 hours) to make sure the limbs could still handle the stress without cracking or delamination. When you string it, make sure the lower limb is in-line. However, the bow shoots very well.

Comes with a new rug rest, side plate and string.
