

Lanesville Rodeo Details:

Lanesville has a small grocery/gas (no diesel fuel) station and a 21 and over restaurant. Corydon, IN is 15 minutes west and has a Walmart, diesel fuel, lots of restaurants and the hotel accommodations we always recommend (there are a few to choose from). Also, Edwardsville is 10 minutes east and has a truck stop, McDonalds and a grocery store. If anyone has questions, please feel free to have them contact me directly.

Camping includes: NO permanent stalls but temporary can be set up as long as they don't set them up where they take up camping spots. There are approximately 40 electric/ water sites that are first come first serve (facility charges \$30..00 a site)....the rest is primitive. We ask all to clean up there sites, trash, large piles of hay and manure. It does not have to be perfect because we will drag the entire area when the rodeo is complete. We will have a large dumpster on-site for these items to be placed. We ask that Thursday night be the first people start to bring trailers into the grounds.

There are a couple of water faucets at the entrance of the grounds where you can fill water buckets.

There are no onsite shower houses.

Youth softball/baseball group will have concessions set up through out the weekend. Lucas Oil will have a booth set up with product and it would be awesome for them to be supported
