

**MISSION STATEMENT:**

We (WINGS) will establish a faith based educational system centered in the needs of our children and families growth of our community. We will be the leaders of a new paradigm in education that will cultivate, nourish, and develop human potential. We will foster an environment to awaken the mind to critical thinking and the conception of innovative programs. These programs will be comprehensive and work to ensure children and their family members have an unparalleled educational foundation capable of sustaining any form of higher education of professional development. We are change agents in the business of training and developing future change agents.
