

Strategies for Replicating Training Programs

Secretaries Innovation Group

July 10th, 2024

Brent Orrell

Federal support for replication & scaling

- Model federal replication policies on nurse home visiting program
- Fund only evidence-based programs
- Tap experienced organizations as TA providers for expansion sites
- Monitor for fidelity and evaluate

Practice validation and quality assurance

- New “theory of change” research. SBT works but how does it work, for whom, and why?
- Create detailed manuals and validated fidelity measures for program implementation.

Integrate with Community College Systems

- Partner with community colleges to utilize their large infrastructure and student base
- Combine community college technical training with evidence-based practices and TA
