

Trinity Homeschool Academy (T.E.A.C.H) POLICY AND PROCEDURES

STEP ONE: Check out all of our schedules - click on Class Details & Cost to read more about the class, supply/curriculum needs and cost

STEP TWO: Plan your child's schedule - understanding that any student who is dropped off **MUST BE REGISTERED IN A CLASS ALL HOURS WITH THE EXCEPTION OF ONE HOUR FOR LUNCH/BREAK.**

STEP THREE: Registration opens on 1/30/2023 for all existing TEACH families and 2/1 for all new families

FES - GARNDINER SCHOLARSHIP

TEACH is not a direct provider for FES. All FES (or other scholarships) are 100% maintained by the family. All payments to TEACH must be paid according to the TEACH payment plan. The family is responsible for any submission to the scholarship for reimbursement.

IT IS BEST TO REGISTER YOUR FES STUDENT SEPARATELY THAN YOUR OTHER CHILDREN SO THAT THEY HAVE THEIR OWN INVOICE. TEACH is not able to separate out students from families once registered.

ALL GARDINER SCHOLARSHIP STUDENT'S PAYMENTS ARE NONREFUNDABLE

The parent(s) is in ultimate control of their children's education. In no form is T.E.A.C.H. held accountable for the progress or lack of progress of a student's academics. As the parent, you fully understand that you are responsible for transcripts, grades and any dynamic of their learning environment. The instructors at T.E.A.C.H. are contracted with the sole responsibility to facilitate learning.

T.E.A.C.H. PAYMENTS

Pay 10% at time of registration

Any payment that is declined and NOT paid up-to-date by the 14th of the month will incur a \$30 late fee each time.

T.E.A.C.H. COMMUNICATION

Weekly Email - an email will be sent every Sunday at 12PM to all email addresses used at registration. This weekly communication will have all necessary information for students and families.

Text Messages - A text will be sent to all cell numbers used at registration for class cancellations, school cancellations or information that needs to get to families during the week

Website - Our website www.trinityhomeschoolacademy.com has all T.E.A.C.H. information and is updated on a weekly basis

Facebook - Trinity Education Academy of Christian Homeschoolers facebook page is updated throughout the week with information and pictures from around campus/classes

Facebook - Trinity Social Scene is a private facebook page for T.E.A.C.H. families - this is where you can post about any fun, social activities so others may join

INSTRUCTOR COMMUNICATION

All instructor communication is listed under the Student Center on Www.trinityhomeschoolacademy.com

It is the student's responsibility to sign up for instructor class communication. The parent is ultimately in charge of student assignments and managing student work. Instructors are not responsible for contacting parents when a student is not turning in assignments as the parent should be keeping track of their own child.

Instructor contact information available by clicking the class title on the schedule.

DROP OFF

Students who have completed 1st grade, or are turning 7 years old, are allowed to be dropped off IF THEY ARE ABLE TO FOLLOW ALL RULES, BEHAVIOR POLICIES AND MANAGE THEIR PERSONAL SCHEDULE BY THEMSELVES. Students who are dropped off are allowed a one hour break in their schedule while on campus. Students who are not able to manage themselves will require an adult on campus at all times. Students with disabilities require a parent on campus at all times.

ENTRY and EXIT @ EACH BUILDING

Building 1 (first building in parking lot)

Students and Instructors should enter and exit the door that says "Education Building"

DO NOT GO IN AND OUT OF THE CHURCH OFFICE DOORS EITHER FROM THE EXTERIOR OF THE BUILDING OR THE INTERIOR/HALLWAY AREA.

Building 2 (second building in parking lot)

Students in French, Cake Decorating, Mini Desserts or Knit Wits will enter the kitchen only - this door is located on the left side of the building. NO ONE IN THESE CLASSES MAY ENTER THE WORSHIP CENTER FROM THE KITCHEN.

Building 3 (3rd building in parking lot)

All persons entering TEACH will enter through the gym doors (LAST set of doors). ALL other doors to that building will be locked.

THE GYM & PLAYGROUND

All students and families on campus who are not in a class should be in the gym or playground area. NO ONE should be sitting in the hallways of ANY building unless given permission by a teacher or Administrator.

ONLY HIGH SCHOOL students and adults are allowed in the balcony of the gym.

The food vendor and picnic tables will be located by the playground. ALL food should be eaten outside or in the gym. NO FOOD allowed in hallways or other buildings (EVEN OUTSIDE ON SIDEWALKS/BENCHES)

There is a microwave for use in the gym. WE DO NOT PROVIDE FORKS, KNIVES, SPOONS, CUPS, ETC - PARENTS MUST PACK ACCORDING TO WHAT THEIR STUDENT WILL NEED!

OFF LIMITS:

Kitchen off of the gym

The stage in the gym

DO NOT BRING TOYS FROM HOME - IF YOU DO BRING TOYS FROM HOME OTHER STUDENTS WILL PLAY WITH THEM AND TEACH IS NOT RESPONSIBLE FOR ANY DAMAGE OR LOST ITEMS.

STUDENT & FAMILY SPECIFIC MISSIONS & FUNDRAISERS

Due to the number of students we have, we are not able to promote fundraisers or missions that the students are involved in outside of T.E.A. C.H. Thank you for understanding.

ADMINISTRATION, INSTRUCTORS AND PARENTS ON CAMPUS

Any admin, instructor or parent on campus is asked to maintain the rules and policies and to keep a watchful eye on our students. Parents on campus are asked to speak up if they see a student who is not following the rules. All students should respect the authority of administrators, teachers and parents.

PARKING LOT & DRIVING ON CAMPUS

All are asked to drive slowly through the parking lot and be on heightened alert for people walking through the parking lot.

THE FOLLOWING STATEMENTS AND POLICIES ARE AGREED UPON AT REGISTRATION

Trinity Belief Statement

Trinity Homeschool Academy (T.E.A.C.H) is committed to teaching a biblical worldview. It is our hope to develop Christ-centered children, youth, and adults who will impact the world through the Gospel of Jesus Christ. Though all are welcome, it is expected that everyone (including instructors, students, and families) will respect our Christian beliefs. We will not tolerate attempts to indoctrinate others on beliefs that do not adhere to Biblical teachings.

Although we believe in the practice of the Golden Rule, treating others as we would wish to be treated, we encourage believers to love others as Jesus loves us. (John 13: 34-36) We believe that this principle can effectively guide our social and business relationships, helping us to cultivate the mind of Christ and a heart for others (Matthew 7:12, Romans 12:1-2).

We believe that followers of God have been called to exercise self-control and holiness in their personal lives, generosity and kindness in their relations with others, and grace in all matters of life (Romans 12:9-21, Galatians 5:22-23).

We believe that all persons irrespective of their station or circumstances in life have been made in the image of God and must be treated with dignity, justice, and respect. We denounce as sin racism, sexism, and other expressions that unjustly discriminate against any person (Genesis 1-2, Deuteronomy 16:19-20, Luke 11:42, 19:9, Colossians 3:11).

We believe that life is a holy gift of God whose beginnings and endings are set by God, and that it is the particular duty of believers to protect those who may be powerless to protect themselves, including the unborn, those with disabilities or serious illness, and the aged (Genesis 2:7, Leviticus 19:32, Jeremiah 1:5, Luke 1:41-44).

The sacredness of all life compels us to resist the practice of abortion. We do not accept abortion as a means of birth control or gender selection, and we call upon all Christians as disciples of the Lord of Life to prayerfully consider how we can support those women facing unintended pregnancies without adequate care, counsel, or resources (Exodus 22:23-23, Psalm 139:13-16, James 1:27).

We believe that human sexuality is a gift of God that is to be affirmed as it is exercised within the legal and spiritual covenant of a loving and monogamous marriage between one man born a man and one woman born a woman (Exodus 20:14, Matthew 19:3-9, Ephesians 5:22-33).

We are saddened by all sinful expressions of sexual behavior, including pornography and promiscuity, that do not recognize the sacred worth of each individual or that seek to exploit, abuse, objectify, or degrade others, or that represent less than God's intentional design for His children. While affirming a scriptural view of sexuality and gender, we welcome all to experience the redemptive grace of Jesus and are committed to being a safe place of refuge, hospitality, and healing for any who may have experienced brokenness in their sexual lives (Genesis 1:27, Genesis 2:24, 1 Corinthians 6:9-20).

We believe that children, whether through birth or adoption, are a sacred gift to us from God, and we accept our responsibility to both protect and nurture the youngest among us, particularly against such abuses as enforced child labor, involuntary conscription, human trafficking, and other such practices in the world (Deuteronomy 4:9-10, Psalm 127:3-5, 1 Timothy 5:4,8,16).

We believe in the final triumph of righteousness when the kingdoms of this world shall become the kingdom of Christ, and we accept our calling to work towards that end as Christ's light and the salt of the earth (Matthew 5:13-16, Revelation 11:15-17, Revelation 21-22).

I have read and understand this is the belief statement of T.E.A.C.H. and agree that I, and my family, will respect the beliefs while on campus: (Please note that we understand each family may choose their own way of communicating these beliefs with their children as we have students from 4 - 18)

Acting for Film & TV	Lights, camera, action! Students will learn how to act for film and television. They will practice cold reads, analyzing scripts, memorizing lines, character development, and the joy of acting in front of a camera! This is a great opportunity for students who have taken improv or theatre classes and enjoyed it to try another form of acting! No curriculum needed.	N/A	\$385.00	Sandefur, Thia	thiateach@gmail.com	7274180242
Advanced Art Appreciation	Welcome to Advanced Art Appreciation with Mrs. Wilson. We will work with more difficult styles and materials during this advanced exploration of art history. Because this class is an hour and a half long, we will be able to create more interesting and intricate projects by some of history's most famous artists! Each 4-6 weeks, we will study an artist or style and the time period. We will finish the segment by going hands-on as we work to create pieces inspired by our journey. To receive high school credit, there will be grades incorporating homework, projects, and tests.	N/A	\$615.00	WILSON, MICHELE	hatutoring@icloud.com	813-482-8099
Advanced Biology, Health & Nutrition, Physics	Course Description: Exploring Creation with Advanced Biology Apologia Explore the wonders of the human body! Exploring Creation with Advanced Biology: The Human Body, 2nd Edition, is a college-prep course that provides an advanced study of the human body's 11 organ systems. This 2nd Edition has updated discussions and photographs, as well as new content. If a student completes the entire course, including documenting in a lab notebook all of the labs, experiments, and dissections, it can be counted as an honors course. Exploring Creation with Advanced Biology: The Human Body, 2nd Edition, covers both the anatomy and physiology of each of the human body's organ systems for those students who have successfully completed high school biology and chemistry. Please note that the reproductive system is covered in detail, including accurate yet respectful illustrations and descriptions. This is a homeschool high school human body course and this high-quality hardcover student text contains all student material, study questions, laboratory exercises, and module study guides with color photos and illustrations.	Exploring Creation with Advanced Biology: Materials needed in class each week: o Thin 3-ring binder OR folder and notebook paper o Basic art materials should be brought each week (glue stick, scissors, colored pencils, pencils, erasers, highlighters, Post-It notes) o Student text: 2nd Edition, Apologia, Advanced Biology Advantage Set Author: Marilyn Shannon, Rachael Yunis https://www.apologia.com/product/apologia-advantage-set-advanced-biology-2nd-edition/ o Anatomy Coloring Book (Kaplan Test Prep) 8th Edition Author(s): Stephanie McCann, Eric Wise ISBN-13: 978-1506276403 https://www.amazon.com/Realistic-Illustrations-Perforated-Flashcards-Innervation/dp/1506276407/ref=er_1_1?crid=2GABEZHVPEXN1&keywords=ISBN-13%3A978-1506276403&qid=1669725170&prefix=isbn-13+978-1506276403%2Caps%2C68&sr=8-1	\$640.00	Nastelli, Andrea	amnastelli@zoho.com	7033002014
Advanced Survival Skills	This course includes basic survival skills for an austere environment as well as a focus on survival and resilience in urban environments. Students will build their competencies in outdoor survival techniques, map reading, emergency preparedness, first-aid training, and an introduction to bushcraft. This class will lean heavily to "Florida-based" environments, though other climates and locations will be addressed in readings, case studies, and blogs. We will use a combination of textbook, video blogs, real-world case studies, and practical applications/demonstrations to ensure these competencies are achieved by the student. Expectations and Goals By the conclusion of the year, students should demonstrate competence in: <ul style="list-style-type: none">Entry-level bushcraft competencies such as fire starting, water purification techniques, shelter construction, foraging, wildlife threat mitigation, and signalingMap reading and land-navigation competenciesRendering first-aid in austere environmentsBuilding emergency preparedness kits: car, IFAK, personal bagsTeam building and crisis scenario response Basic marksmanship training (range date is an optional participation and optional cost) <ul style="list-style-type: none">Homestead resiliency, water retention, planting and harvestingHurricane and natural disaster preparedness planning for your home	All curriculum provided by instructor as part of cost of class.	\$1,200.00	Pupello, Brad	greaterlampa@amazingathletes.com	7038515831
Algebra I	Welcome to Algebra I with Mrs. Wilson. We will be using Mr. D's Algebra I Curriculum. Students will have a log in to Mr. D's website with the purchase of their curriculum. Classes are taught live, with video lessons and homework help available for at-home use via the website. All of the grading is completed by the student and entered into Mr. D's grade book. Parents will have access via their student's log-in to view their student's progress.	REQUIRED CURRICULUM FEE: Purchase curriculum for \$97 using coupon code TRINITY100 at https://mrddmath.edu20.org/visitor_class_catalog/category/309270 . Analytical Grammar	Analytical Grammar provides a systematic approach to language mastery. Since each unit includes study notes, practice exercises and diagrams, Co-op time together will focus on teaching lesson objectives and practice with feedback from instructor and peers. Basic parts of speech, patterns, phrases, and clauses are covered in the fall. Spring units will address more difficult grammar concepts such as advanced clauses, punctuation rules, subject/verb and pronoun/antecedent agreement, and punctuation of dialogue, to name a few. We will move at a swift pace since this curriculum is targeted for completion in three years but we will complete it in only one! Through weekly practice, students learn how the individual grammar elements work together cohesively. Each unit provides students opportunities to analyze visual diagrams and weekly review, which improves memory and creates a richer understanding of grammatical concepts. Students will be provided feedback via instructor, weekly assignments, tests, and peer interaction. Parent needs to be willing to grade weekly tests and submit if grades are desired for this class. For lesson plans, you will follow along the weekly plan provided in Mellow Yellow online platform. Specific instructions are in the Teacher Manual for each week. Tests must be graded at home by parent and submitted to Mellow Yellow for grade book to be maintained. (We will not spend more than two class meetings per year administering a test. The remainder will be completed and scored at home.) This benefits your child greatly by sitting with you, the parent, and having mistakes corrected immediately. Misunderstandings and clarifications are addressed to benefit your child moving forward. I promise, once that test is submitted to me, he/she will not look at it again and the opportunity for ensuring maximum retention has passed. ART	1.The students will learn to use acrylic and watercolor to paint landscapes, people and animal portraits. 2. Use steal knife pen to etch on negative color and B/W board. 3. Use colored pencil and graphic pencil to draw realistic human, animal portraits 4. Origami 3D art.5 Use air dry clay to do sculptures and 3D art.6. Use marker, charcoal, colored pencil pastels and plastic color paper to create people and cartoon characters. 7. Use pen and ink to do ink wash art and line art 8. colorful face painting. No grades given. No homework.	NO supplies needed - all provided by instructor	\$465.00	CHEN, PING	pingcatbaby1@gmail.com	813-220-1194
Art Appreciation	Welcome to Art Appreciation with Mrs. Wilson. This year, your students will study some of the world's most talented artists and art styles throughout history! Each 4-6 weeks, we will study an artist or style and the time period. We will finish the segment by going hands-on as we work to create amazing art pieces inspired by our journey! To receive high school credit, there will be grades incorporating homework, projects, and tests.	N/A	\$565.00	WILSON, MICHELE	hatutoring@icloud.com	813-482-8099
ASL I	Students will learn signs that will allow them to participate in basic signing conversations. In addition to learning signs, students will learn the history of Deaf culture and etiquette when conversing with a Deaf person. There will be a Deaf guest who will share his/her experience and sign with the students. This class gives you 1 of 2 of the second language credits needed to graduate high school. The second language you take must be the same for both credits. Eighth graders are allowed to count this course for their high school requirements as well. ASL is the 3rd most used language in the US other than English, and its popularity at colleges continues to rise. Most students find ASL easier to learn because they do not struggle with the accent/auditory.	In addition to the class fee, students are required to register for the online curriculum which includes video lessons of what was covered in class and homework. Purchase on mrdmath.com - discount code will be provided to registered students to reduce the fee of online curriculum. You can't learn a second language in a one hour/week class- signing needs to be practiced at home! Homework takes an hour per week. Students should also bring to class a small three ring binder with paper and pencils for in class activities.	\$385.00	Sandefur, Thia	thiateach@gmail.com	7274180242
ASL II	This is a one-year American Sign Language Course that introduces students to the culture and history of American Sign Language while actively developing students' ability to comprehend and express themselves in American Sign Language. Students will be evaluated for grammar use and structure, comprehension, communication strategies, and cultural awareness. Students will learn signs that will allow them to participate in signing conversations and ASL storytelling. In addition to learning signs, students will learn the history of Deaf culture and etiquette when conversing with a Deaf person. Pre requisite: ASL I	In addition to the class fee, students are required to register for the online curriculum which includes video lessons of what was covered in class and homework. Purchase on mrdmath.com - discount code will be provided to registered students to reduce the fee of online curriculum. You can't learn a second language in a one hour/week class- signing needs to be practiced at home! Homework takes an hour per week. Students should also bring to class a small three ring binder with paper and pencils for in class activities.	\$385.00	Sandefur, Thia	thiateach@gmail.com	7274180242

Band Year 1	For students 12 years old and up who desire to begin learning a musical instrument. (11 years old by recommendation only from a 1st year teacher). In first year band, students may play one of the following instruments: flute, clarinet, alto saxophone, trumpet, trombone, snare drum or keyboard/piano. There will be a parent/student band orientation meeting sometime in the Spring or Summer 2023 for the Fall 2023 semester. At this meeting, there will be a representative present from a local music store with instruments available to see and touch and even play. This will be a chance to see and potentially try out an instrument that would be a good fit for the student. I recommend the student make the instrument of choice for the first year. You will find that students are often drawn to one instrument over another because it is comfortable to hold or they can make a sound right away, or sometimes the environment at home lends itself to a particular instrument being played often there. It's usually a collective decision between the parent, the student, and the teacher which brings the most success! Feel free to contact me as you are considering diving into the world of band.	Essential Elements for Band - Book 1 (from Hal Leonard.com or your local music store) (For your instrument only. Parent will purchase the book separately anytime after the band orientation meeting and before the first day of class)	\$950.00	Ray, John	raytrumpet@proton.me	813-693-7827
Biblical Foundations for 5th/6th graders	This class will equip 5th and 6th graders with the basic skills they need to evaluate the truthfulness of the ideas that are found in the Bible. This class sets the stage for critical thinking in every area of life. As children begin to learn the basic skills in careful thinking Biblically, they quickly begin to recognize faulty ideas in the world around them.	Access to the internet to engage with videos and activities	\$515.00	Sotolongo, Tito (Pastor)	pastorito@tdtampa.org	813-531-5821
Biblical Worldview for High Schoolers	Students will tackle some of life's biggest questions as we look into God's Word to better know God more deeply, understand who we truly are, why we are still here, and what God has asked us to do. The ultimate goal of this course is to experience a personal and spiritual transformation by gazing into the beauty of the truth of God as we seek to apply these truths to our lives. Students are only required to submit all homework online.	There are no textbooks that need to be purchased for this course.	\$515.00	Sotolongo, Tito (Pastor)	pastorito@tdtampa.org	813-531-5821
Biblical Worldview for Middle Schoolers	Students will tackle some of life's biggest questions as we look into God's Word to better know God more deeply, understand who we truly are, why we are still here, and what God has asked us to do. The ultimate goal of this course is to experience a personal and spiritual transformation by gazing into the beauty of the truth of God as we seek to apply it to our lives. Conversations will be catered to the life of a middle schooler. Students are only required to submit all homework online.	There are no textbooks that need to be purchased for this course.	\$515.00	Sotolongo, Tito (Pastor)	pastorito@tdtampa.org	813-531-5821
Biology	Comprehensive course. Class time is focused on hands-on laboratory experiments & concept discussions. Emphasis on microscope work and dissections. Students will learn to write Lab Reports and will need to spend approximately 45 minutes per day completing homework assigned by the instructor, which will be graded every 2 weeks. Test 40%, Lab Reports 30%, and other notebook assignments 30%.	Apologia's Exploring Creation with Biology-SECOND 2nd edition (textbook) AND Solutions and Tests for Exploring Creation with Biology ISBN#978-1-932012-54-5 AND ISBN#978-1-932012-55-2. Also need: 3 ringed binder with 16 dividers.	\$625.00	Laccabue, Michele	michelelaccabue@gmail.com	8136637125
Build Your Brand	Build a following and a brand. Add creativity to your business. You are the content creator, you are an influencer. Do you have a product to sell, or a statement to make, or do you know a humanitarian problem that needs action? Don't know what brand to promote? Don't worry. Students will start with an aptitude test and a business ideas quiz to create a spark. Is it food, recycling, research, artwork, animals or how-to videos? Whatever it is, this is the place to promote your idea with colorful graphics, digital art, thoughtful copy and website technology tools! First, students will get inspired by looking at existing brands and influencers and how they exist in the marketplace and their approach to design, marketing and information management. Next, students will define their own brand and start creating digital content. Weekly projects will go beyond the traditional business card. Explore logos created with artificial intelligence. Use QR codes to promote website links. Learn the way color communicates ideas. Fashion a style guide. Discover the impact our audience has on design decisions. Express ideas using images and information graphics. Edit copy generated by artificial intelligence to create content for blogs and social media. Finally, students determine the publishing needs of their brand. What customization is needed in terms of layout and design? Do you only need to display information, or do you want to sell a product? We will cover different website tools and platforms and the customization features that cost extra and then choose the right one for each student's project. Students can work individually or in groups. Students can use ANY software and ANY phone app to create the building blocks for their brand. There are many free graphic and website editing tools students may already be using. Adobe apps and software is what you will see me using in class. Adobe now offers free apps like Adobe Camera, Photoshop Express and Adobe Express to make graphics and websites. If you invest in the Adobe Creative Cloud for students you can publish your brand using Adobe Dreamweaver. I will also cover other website editors and publishing tools including Wordpress, Canva, Smugmug, Shopify, Printify, Ebay and Etsy. Use the software that is best for your ability and project. Publishing support provided. Brand publishing results will vary by student. Not required: Adobe Photography plan (20GB) \$9.99/month or Student Creative Cloud All Apps starting at \$19.99/mo https://www.adobe.com/creativecloud/plans.html	NO	\$515.00	Carey, Liz	lizcarey@gmail.com	727-455-4515
Cake Decorating 1	Is your student interested in learning how to decorate cakes and desserts? People are willing to pay quite a bit for personalized cakes and cupcakes. Surprisingly, most themed cakes can be made using just a few basic skills and techniques (shh, don't tell anyone!). I have been professionally decorating cakes for almost 20 years and I'd love to share my recipes, tips and tricks with your student. In this class we will be learning the basic fundamentals of cake decorating and practicing techniques using buttercream, royal icing, melting wafers, fondant and gumpaste. The class fee includes ALL needed tools and supplies each week. There will be no extra expenses with the exception of students baking a small cake for one lesson each semester. Every week students will be bringing home their creations for all to enjoy. Please inform instructor of any food allergies. Example Course Topics: Setting Yourself Up For Decorating Success Shaping, Crumb Coat, Stacking a Cake Buttercream - coloring, icing techniques, piping, borders, flowers Fondant - coloring , covering a cake, using molds & cutters, embossing, stenciling Gumpaste – flowers, molding figures Along with Edible Images, Sculpting, Edible Paints, and New, Trending Cake Techniques	An apron is recommended	\$505.00	Reinhart, April	madamereinhart@gmail.com	813-765-6177
Cake Decorating 2	Is your student interested in learning how to decorate cakes and desserts? I have been professionally decorating cakes for almost 20 years and I'd love to share my recipes, tips and tricks with your student. Cake Decorating 2 teaches cake decorating fundamentals and a completely different skill set from the Cake Decorating 1 course. This class has no prerequisite and can be taken independently from Decorating 1. Students will be working with different types of edible papers, edible fabric, chocolate, fondant and gumpaste. All of these ingredients are easy to find and surprisingly affordable. The class fee includes ALL needed tools and supplies each week. There will be no extra expenses. Every week students will be bringing home their creations for all to enjoy. Please inform instructor of any food allergies. Example Course Topics: Make Your Own - Fondant, Sprinkles, Colored Sugar, Edible Chalk Edible Paper - flowers, Imitating Weathered Wood, Fall Leaves Chocolate Orbs for Cocoa Bombs Cakesicles Edible Lace Sculpting Painted Cookies Gumpaste Figures	An apron is recommended.	\$505.00	Reinhart, April	madamereinhart@gmail.com	813-765-6177
Cake Decorating 3	Cake Decorating 3 Is your student interested in learning how to decorate cakes and desserts? I have been professionally decorating cakes for almost 20 years and I'd love to share my recipes, tips and tricks with your student. Cake Decorating 3 will focus on current trends in all types of decorating. For this class we will be working with some of the same materials as Cake Decorating 1 and 2 but in new, innovative ways. This class has no prerequisite and can be taken independently from Decorating 1 and 2. Students will be working with different types of edible papers, edible fabrics, chocolates, fondant and gumpaste along with using new tools and exploring candy making. The class fee includes ALL needed tools and supplies each week. There will be no extra expenses. Every week students will be bringing home their creations for all to enjoy. Please inform instructor of any food allergies. Example Course Topics: Royal Icing Cookie Flooding Working with an Air Brush Edible Paper Techniques Modeling Chocolate Making a Chocolate Box Candy Making Adding Fresh Flowers To A Cake Sculpting New Ideas for Cupcake Toppers Gumpaste Flowers	An apron is recommended.	\$505.00	Reinhart, April	madamereinhart@gmail.com	813-765-6177
Cheerleading	Students will learn cheerleading techniques such as arm motions, facials, cheer chants, cheers, jumps and some dance routines. There will be stretching and warm up before each class and some basic stunting will be taught and practiced. Students should come dressed as if going to gym or PE class.	Tennis shoes are required. No other supplies are needed for this class.	\$450.00	Sotolongo, Alisha	alishasotolongo@gmail.com	352-206-1592

Chemistry	Comprehensive course. Class time is focused on hands-on laboratory experiments & concept discussions. Topics to include: unit/measurement conversions, stoichiometry, thermodynamics, kinetics, acids/bases, & gas laws. Students will learn to write Lab Reports and will need to spend approximately 45 minutes per day completing homework assigned by the instructor which will be graded every 2 weeks. Test 40%, Lab Reports 30%, and other notebook assignments 30%. Prereq: completion of Algebra 1	Discovering Design with Chemistry by Dr.Jay Wile (textbook) AND Answer Key & Tests for Discovering Design with Chemistry ISBN: 9780696276461 and 9780696276478. This is NOT Apologia. Also: 3 ringed binder with 16 dividers and scientific calculator (Ti-30 is sufficient)	\$625.00	Laccabue, Michele	michelelaccabue@gmail.com	8136637125
Chess 1	Chess 1 is both an introduction to the game and extension of the basics of Chess. This is the most popular game in the world, and is a great way to make friends. Coach Krista Alton is passionate about students and brings Chess to the local, State, and National (USCF) level through Alton Academy 4 Chess. Our Trinity Chess team has won 40+ 1st Place trophies in local tournaments, more than any other local school. This class is for students ages 5-12 who have never played chess or only know the basics. Chess is a brain strengthener. It will help students with focusing, problem solving, social skills, pattern recognition, creative thinking, fair play, and more. Each class will have instructional teaching and Chess playing with friends. Each student or family should purchase a US Chess regulation Chess set (board, pieces, and matching carry bag) for \$30. http://www.Alton4Chess.com	N/A	\$390.00	Alton, Krista	kristaaltont@yahoo.com	8137279007
Chess 2	Chess 2 is an intermediate to advanced Chess class, and is for students ages 7-18 (this is a guide) who know the basics of chess and who want to continue developing their skills. Students should want to compete in local tournaments and be part of the Trinity Chess Team (top winning school in Tampa Bay for the past 6 years). Tournament participation is NOT a requirement, but is highly recommended. Coach Krista is passionate about students and brings and encouragement to see the many benefits of chess help students to succeed! She brings chess to the local, state and National (USCF) level. Chess education helps students with focusing, problem solving, social skills, pattern recognition, creative thinking, fair play and more. Each class will have instructional teaching and Chess playing with friends. Private lessons are also available. Each student must purchase a Chess notation book for \$5.00 from the instructor. Each student or family should purchase a US Chess regulation Chess set (board, pieces, and matching carry bag) for \$30. Please check out more information at www.alton4chess.com	N/A	\$400.00	Alton, Krista	kristaaltont@yahoo.com	8137279007
Chinese	• Greetings • Classroom language • Personal introduction • Numbers and Dates • Countries and languages • Occupations and work places • Modes of transport • Colors and clothing • Daily routines • School subjects and facilities • Parts of the body and illness • Everyday articles • Stationary • Articles in the house • Animals • House and rooms Why Use Chinese Made Easy for Kids? • Learning Chinese materials presented in a fun, interesting way • The course features: Task-based learning coupled with a focus on form and function • A wide variety of texts and practice materials Up-to-date topics relevant to young students • Careful pacing for gradual progress in language skills • Clearly focused aims for each unit • Regular consolidation and reinforcement of Learning Chinese activities • Practical tasks and activities to practice use of Chinese • Highly attractive and colorful page designs	The book is written for use by US students culturally. It's designed for students learning Chinese as a second language, but also works for American born Chinese. It's very popular with both public schools, and private schools. The Textbook comes with a CD and is a great value on the pricing. \$ 35 per set (text book and work book)	\$445.00	CHEN, PING	pingcatbaby1@gmail.com	813-220-1194
Choir 5-8	We are starting a choir! Whether you've been singing for years or are wanting to try it out for the first time, we welcome you to join us. We will explore all aspects of music such as melody, harmony, rhythm, and notation, within the context of a choral-based curriculum. There will be plenty of movement and percussion instrument playing as well to keep everyone engaged and having fun.	N/A- all music and supplies will be provided by instructor	\$525.00	Temperley, Sarah	sa4grace@gmail.com	5155058964
Coding 4 Kids	Alton Students will begin by learning "Touch Typing" using the Typing Instructor(P) edition. Starting with the basic hand positions & posture, each class includes fun learning exercises, and skills are reinforced through classroom typing games. Additional topics: - how computers work and are fun to learn, - fundamentals of programming, - flow charts - numbering systems - basic algorithms We will introduce students to the syntax of computer languages through JavaScript, and begin some of the basics of coding. Requirements: Students will need their own Notebook PC (Windows or MAC) - for each class.	N/A	\$450.00	Alton, Arthur	arthur@safecs.com	8137278007
Computer Animation	Students will learn the basics of Computer Animation including: frames, bitmaps, vector & raster graphics, camera layers, gif animation, and basics of mp4 movies. Animation has a rich history and today's software tools make it easy to explore and have fun. This Beginner friendly class, features 2D frame animations, stop motion, blender 3D, and more. Expand your creativity and learn C.A.D. tools. Class Requirements: Own & have access to a PC or MAC Notebook Computer, Simple Computer Skills: typing, mouse... Bring your notebook to each class...	N/A	\$450.00	Alton, Arthur	arthur@safecs.com	18137278007
COMPUTER PROGRAMMING: Game Development - Intro to JavaScript	Does your student want to learn about game development? This class is an Introduction to Computer Programming with Game Development using JavaScript, HTML5, and Dev. Framework. We will learn to design and develop your own games to run on both desktops and mobile devices. Students will begin by learning the fundamentals of JavaScript followed by Sprites and how to build your game world. Learn through examples. Beginner friendly class. Requirements: Own & have access to a PC or MAC Notebook Computer (We will install: free Web Server - for Development Only) Simple Computer Skills: typing, mouse...	N/A	\$450.00	Alton, Arthur	arthur@safecs.com	18137278007
Cooking (Chef It Up)	We are a hands-on cooking class where we use creativity to make fun delicious menu items. From fresh pasta to cupcake decorating kids will have a blast all while learning! We will teach kids basic cooking skills and techniques such as chopping, mixing, measuring, muddling, rolling through the preparation & assembly of fun foods and drinks all while entertaining and having a blast! We will also be teaching kids food safety, knife safety and allergy awareness. These are all life skills that they are learning and will increase their love for cooking! We take pride in knowing that our classes are fun, safe, educational, creative, and inclusive!	N/A	\$595.00	Peal, Chris	tampabay@cheftupkids.com	8137606274
Core 1 [1]	<p>Course Overview:</p> <p>Language Arts</p> <p>Learning Language Arts Through Literature covers grammar, diagramming, vocabulary, reading skills, spelling skills, penmanship, short story, poetry, and research writing units plus higher order thinking skills. The authors are Diane Welch and Susan Simpson. A student notebook and a teacher's manual are included in the package. Passages from: Black Beauty, Borrowers, Devil in Print, Around the World in Eighty Days, Eight Cousins, Psalm 1, and Story of the Treasure Seekers. Three books we will read are included in the package: Star of Light, The Mysterious Benedict Society, and Much Ado About Nothing. The curriculum is easy to follow with 36 lessons in all. Each lesson consists of 5 days of assignments.</p> <p>History</p> <p>Uncle Sam and You Part 1 by Notgrass covers American history and government. How do elections work? What does the President do all day? Who decides where stop signs go? What is Labor Day? This course is designed for students in grades 6 through 8. The curriculum guides your family on an engaging tour of American history and government. Your student will learn about elected leaders and everyday citizens who have important roles to fill in making our country work. Students will record weekly current events and participate in at least one community service project of their choice. We will follow the weekly schedule posted on my Mellow Yellow website.</p> <p>Science</p> <p>Exploring Creation with General Science, 2nd edition by Dr. Jay L. Wile explores topics such as the scientific method, designing experiments, simple machines, geology, archaeology, biology, anatomy, and other disciplines, providing a wide range of scientific exposure. Hands-on experiments are included throughout, giving students practical experience as they discover the principles behind the science! Looking at the world from a creationist position, topics are all presented with an eye towards God's role in everyday life. We will conduct experiments in class.</p> <p>Math</p> <p>MrDmath.com Pre-algebra online course explores integers, real numbers, linear equations, number theory, decimals, ratios, proportions, percents, inequalities, relations and functions, polynomials, square roots, statistics, and probability. Students will be assigned homework via the mrdmath website to complete each week and must bring the course work notebook (printed or purchased from Corey for \$25) to class each week. They will keep track of their progress and record their grades in the online gradebook. In class, students will have the opportunity to review the week's assignments, ask questions, seek extra help, work in small groups, and play math games.</p> <p>Grades: Your grades for language arts, history, and science will be based on the following and will be recorded on my Mellow Yellow website for your reference: A=90-100, B=80-89, C=79-70, D=60-69 Class participation/Attendance 25% Homework 35% (will be checked in class) Tests/Quizzes 40% (most tests will be taken at home either online (mrdmath) or traditional paper & pen.</p> <p>Evaluations:</p> <p>As a Florida Certified Teacher, I will give homeschool evaluations at the end of the school year for you to submit to your county.</p> <p>Parents: You are in charge!</p> <p>All assignments are subject to parental discretion. If you deem it necessary to alter, enrich, or omit assignments, it is your prerogative as a homeschooling parent to adjust curriculum to meet your child's needs.</p> <p>Make-up work: Missed assignments can be made up. It is your responsibility to complete missed assignments and turn them in.</p> <p>Class Discussions/Behavior: Discussions of current events and other topics relevant to the course will occur regularly. There will be natural differences of opinion and varying levels of understanding during discussions. Students must be respectful of one another, allow speakers to talk uninterrupted, and give speakers their undivided attention. Cell phones will be collected at the beginning of class and placed in assigned pockets on a door pocket chart. If a student is being disrespectful to me or another student or is not following class rules: First Offense = warning, Second Offense = asked to leave the room and sit with Mrs. McKeown, Third Offense = parents notified and asked to sit in the next class with student.</p> <p>Field Trips:</p> <p>Occasional class field trips may be planned throughout the school year. You will have the opportunity to attend Teen Pact in Central Florida for one day during the 2nd semester (More information on this to come). An end of the year class trip will be planned. [2]</p>	<p>Language Arts: Learning Language Arts Through Literature Complete Package Green by Common Sense Press</p> <p>History: Uncle Sam and You Part 1 student textbook, The Citizen's Handbook, Blue Student workbook, and Answer Key by Notgrass. Core 2 [3]	<p>Course Overview: Language Arts Learning Language Arts Through Literature Complete Package Gray by Common Sense Press covers grammar, diagramming, vocabulary, reading skills, spelling skills, penmanship, short story, poetry, and research writing units plus higher order thinking skills. The authors are Diane Welch and Susan Simpson. A student notebook and a teacher's manual are included in the package. Passages from: Man Called Peter, Luke 10:30-33, "The Gift of the Magi," Little Princess, Twice Fried, Tale of Two Cities, "The Star-Spangled Banner," Matthew 5:43-45, Jane of Lantern Hill, Moby dick, "Immortal, Invisible, God Only Wise," Black Arrow, Pollyanna, Children of the New Forest, "The Rainy Day," Proverbs 6:6-11, White Fang, Prisoner of Zenda, Samuel 16:12-13, No Little People, "How Firm a Foundation," "Beautiful Things."</p> <p>Four books we will read are included in the package: God's Smuggler, A Lantern in Her Hand, Eric Liddle, and Daddy Long Legs. The curriculum is easy to follow with 36 lessons in all. Each lesson consists of 5 days of assignments. We will follow the weekly schedule posted on my Mellow Yellow website.</p> <p>History (1/2 high school credit) Uncle Sam and You Part 2 by Notgrass is the second text completing the study of American history and government. How do elections work? What does the President do all day? Who decides where stop signs go? What is Labor Day?</p> <p>This course is designed for students in grades 5 through 8. The curriculum guides your family on an engaging tour of American government. Your student will learn about elected leaders and everyday citizens who have important roles to fill in making our country work. Students will record weekly current events and participate in at least one community service project of their choice. We will follow the weekly schedule posted on my Mellow Yellow website.</p> <p>Science (1 high school credit) Exploring Creation with Physical Science 2nd edition by Jay Wile/Apologia counts for explores the study of the key concepts and theories explaining/modeling specific aspects of the behavior of creation. The text covers the basic principles of earth science, physics, chemistry, and astronomy. Hands-on experiments are included throughout, giving students practical experience as they discover the principles behind the science! Looking at the world from a creationist position, topics are all presented with an eye towards God's role in everyday life. See Corey about borrowing the textbook and answer key from our library. We will follow the weekly schedule posted on my Mellow Yellow website.</p> <p>Math (1 high school credit) Mrdmath Algebra I online course provides the foundation students require for future success in high school mathematics, critical thinking, and problem solving. The primary goal in Algebra I is to help students transfer their concrete mathematical knowledge to more abstract algebraic generalizations. Topics include recognizing and developing patterns using tables, graphs, and equations. In addition, students will explore operations on algebraic expressions and apply mathematic properties to algebraic equations. Students will solve problems using equations, graphs, and tables to investigate linear relationships. Students will be assigned homework via the mrdmath.com website to complete each week and must bring the Algebra I coursework notebook to class each week (You may print the coursework or purchase a notebook from Corey for \$25). They will keep track of their progress and record their grades in the online gradebook. In class, students will have the opportunity to review the week's assignments, ask questions, seek extra help, work in small groups, and play math games.</p> <p>Grades: Your grades for language arts, history, and science will be based on the following and will be recorded on my Mellow Yellow Education website for your reference: A=90-100, B=80-89, C=79-70, D=60-69 Class participation/Attendance 25% Homework 35% (will be checked in class) Tests/Quizzes 40% (most tests will be taken at home either online (mrdmath) or traditional paper & pen.</p> <p>Evaluations: As a Florida Certified Teacher, I will give homeschool evaluations at the end of the school year for you to submit to your county.</p> <p>Parents: You are in charge! All assignments are subject to parental discretion. If you deem it necessary to alter, enrich, or omit assignments, it is your prerogative as a homeschooling parent to adjust curriculum to meet your child's needs.</p> <p>Make-up work: Missed assignments can be made up. It is your responsibility to complete missed assignments and turn them in.</p> <p>Class Discussions/Behavior: Discussions of current events and other topics relevant to the course will occur regularly. There will be natural differences of opinion and varying levels of understanding during discussions. Students must be respectful of one another, allow speakers to talk uninterrupted, and give speakers their undivided attention. Cell phones will be collected at the beginning of class and placed in assigned pockets on a door pocket chart. If a student is being disrespectful to me or another student or is not following class rules: First Offense = warning, Second Offense = asked to leave the room and sit with Mrs. McKeown, Third Offense = parents notified and asked to sit in the next class with student.</p> <p>Field Trips: Occasional class field trips may be planned throughout the school year. You will have the opportunity to attend Teen Pact in Central Florida during the 2nd semester (More information on this to come). An end of the year class trip will be planned.</p> <p>[4]</p>	<p>Course Texts: Language Arts: Learning Language Arts Through Literature Complete Package Gray by Common Sense Press</p> <p>History: Uncle Sam and You Part II, The Citizen's Handbook, Blue Student Workbook, and Answer Key by Notgrass</p> <p>Science: Exploring Creation with Physical Science, 2nd Edition student textbook, and Solutions & Tests book by Jay Wile/Apologia. DO NOT NEED TO PURCHASE - TEACH WILL CHECK OUT TEXTS NEEDED FOR USE THROUGHOUT THE YEAR</p> <p>Math: www.mrdmath.com online subscription to Algebra I with Wendy Danciger. Click the link to register Apply co-op code "Trinity 100" at checkout. ALL STUDENTS WILL RECEIVE A PRINTED COPY OF THE MATH CURRICULUM AS PART OF THE TUITION FEE Reading: Basher Five-Two: The True Story of F-16 Fighter Pilot Captain Scott O'Grady by Scott O'Grady, The Pilgrim's Progress (Updated Modern English version) by John Bunyan, Lost on a Mountain in Maine by Donn Fendler, The Wright Brothers: How They Invented the Airplane by Russell Freedman. (These books can be found at amazon.com)</p> <p>Required Materials: Please come to class prepared with the following: All textbooks, reading books, and workbooks 2" 3 ring binder with 5 dividers labeled – "Language Arts", "History", "Current Events", "Science", "Science Labs" Algebra I workbook (Purchase from Corey for \$25) Notebook paper Graph paper Pens/Pencils Highlighters BYOD- "bring your own device" such as a Laptop/iPad **If you have a smartphone, you may bring it to class to use when we play Kahoot or to research topics. When we are not playing games or researching, phones will be placed in an assigned pocket in a door pocket chart.</p>	\$2,250.00	DANCIGER, WENDY	danciger700@gmail.com	813-789-4979
Core 3	<p>Welcome to Core Level 3 with Mrs. Wilson. We will be using Apologia Biology (with labs), Notgrass World History, World Literature, and Mr. D Geometry. There is a tremendous amount of information, so please read all the way through:</p> <p>All classes, except math, will be graded via Mellow Yellow (see below for math grading info). All fees and lab supply costs are included with the price of the Core Level 3 package. (EXCEPT SEE MATH FOR MORE INFORMATION)</p>	<p>PLEASE NOTE - there are several items:</p> <p>REQUIRED SCIENCE CURRICULUM: (1) Apologia Advantage Set Biology 3rd Edition https://www.apologia.com/product/apologia-advantage-set-biology-3rd-edition/</p> <p>REQUIRED HISTORY CURRICULUM: (2) https://history.notgrass.com/exploring-world-history-curriculum-package/</p> <p>https://notgrasshistory.com/collections/exploring-world-history/products/exploring-world-history-student-review-pack</p> <p>REQUIRED WORLD LITERATURE CURRICULUM: (7) This is the order we will be reading in (CLICK EACH BOOK FOR A PURCHASE OPTION): * Cat of Bubastes: shorturl.at/yfJUX * The Art of War: shorturl.at/mkXk4 * Julius Caesar (We will be watching portions of a video of the play, as well as performing a scene.): shorturl.at/jBP49 * A Tale of Two Cities: shorturl.at/bxEt9 * The Hiding Place (We will be watching this as our one class film a year.): shorturl.at/qBLSV * Animal Farm: shorturl.at/lmuT3 * Mere Christianity (We won't be reviewing this in class; however, we will touch on this during a note-taking lesson.): shorturl.at/mkTW6</p> <p>REQUIRED GEOMETRY CURRICULUM: (1) Purchase curriculum for \$97 using coupon code TRINITY100 at https://mrdmath.edu/20.org/visitor_class_catalog/category/309270. Please be sure to select the CORE TUESDAY GEOMETRY class with Mrs. Wilson. When registering, be sure to select LIVE CLASS, and please select NCAA track if your student is (or might become) an athlete. ALL STUDENTS WILL RECEIVE A PRINTED COPY OF THE MATH CURRICULUM AS PART OF THE TUITION FEE REQUIRED GEOMETRY SUPPLY ITEM: (1) A TI30X IIS Calculator (good for Algebra I and Geometry only) OR TI-84 Plus Graphing Calculator (good for Geometry and Algebra II) is Required.</p>	\$2,200.00	WILSON, MICHELE	hatutoring@icloud.com	813-482-8099

Core A	In Core A, we will utilize My Father's World and Horizons Math for our core courses in Language Arts, History, Science, and Math. Bible is woven throughout ELA and History, and sometimes Science as well.	<p>Texts and materials to purchase: (Bring to class each week)</p> <p>Pencil case with pencils, colored pencils, markers, erasers, highlighters, pens, scissors, glue stick, glue bottle, Binder with tab dividers for each subject, Spark half page rule primary journal, grades K-2: http://www.walmart.com/ip/Spark-Half-Page-Ruled-Primary-Journal-Grades-K-2-100-Pages-0964/146272594; My Father's World Learning God's Story Student Sheets: https://www.mfwbooks.com/item/92109/; My Father's World Learning God's Story Student Workbook: https://www.mfwbooks.com/item/92111/; My Father's World Bible Notebook for Learning God's Story: https://www.mfwbooks.com/item/92107/; My Father's World Bible Reader for Learning God's Story: https://www.mfwbooks.com/item/92105/; MATH - HORIZONS 1st Grade</p>	\$2,200.00	Rosario, Maiori	mairosario@gmail.com	813-770-9384
Core B	In Core B, we will utilize My Father's World, and Saxon for our core courses in Language Arts, History, Science, and Math. Bible is woven throughout ELA and History, and sometimes Science as well.	<p>Texts and materials to purchase: (Bring to class each week)</p> <p>Pencil case with pencils, colored pencils, markers, erasers, highlighters, pens, scissors, glue stick, glue bottle, Binder with tab dividers for each subject; Spark half page rule primary journal, grades K-2: http://www.walmart.com/ip/Spark-Half-Page-Ruled-Primary-Journal-Grades-K-2-100-Pages-0964/146272594; Texts to purchase: Language Lessons for Today, Grade 2: https://www.mfwbooks.com/item/30016/; Language Lessons for Today: Student sheets for Adventures in US History: https://www.mfwbooks.com/item/92201/; My Father's World Spelling by Sound and Structure: https://www.mfwbooks.com/item/30012/; Spelling-by-Sound-and-Structure: My Father's World Map of US Sticker book: https://www.mfwbooks.com/item/92201/; MATH: HORIZONS MATH 2ND GRADE: Readers: (can be purchased or borrowed from library) - On the Banks of Plum Creek and Farmer Boy, both by Laura Ingall's Wilder; The Courage of Sarah Noble by Alice Dalgliesh; Sarah Whitcomb's Story and Mountain Born, both by Elizabeth Yates. In Grandma's Attic by Arleta Richardson</p>	\$2,200.00	Kyper, Liana	lianakyper@gmail.com	352-875-6655
Core C	<p>We will have a blast this year working our way through the core subjects: English, math, science and history with a concentration on US history and government. Lesson plans will be given for 5 days. On core days, we will utilize games, labs, songs, and collaborative projects while using our texts as foundational learning opportunities. The Book Basket is a Charlotte Mason approach to learning our science and history while strengthening our ELA skills through reading, listening, summarizing, narration, and note taking. Titles are provided for multiple resources across the curriculum and form a backbone for discussion and foundational learning. You may dive as deep or wide as shallow as you would like each week in our Bible, science, and history. Oftentimes science is intermingled, and ELA is always utilized. Saxon 3 is a strong comprehensive approach to math, with review built into each lesson throughout the year. Lesson plans are provided in Mellow Yellow Education platform.</p> <p>Weekly Bible verse memory will be planned. Core Days will include Biblical Integration across subject areas. Core will provide the foundation for learning and we will get messy, be loud, and enjoy our friends in the process.</p> <p>Most weeks we will follow the curriculum during class meetings. Math and ELA will be completed as specified in texts while also using games and group activities, but science and history most often will utilize labs, videos, tech, etc. to accomplish our learning goals.</p> <p>Please make sure your child is prepared each day for class. I plan to teach the entire time I am able. If one child doesn't have texts or activity pages, that requires time spent making copies during class time and we do not always have access to printing or copying during school hours. There are many projects and optional activities to complete (or skip, depending on your preference!), so please let me know if your family needs pacing adjustment.</p> <p>Mellow Yellow Education is our online platform for communication, lesson plans, etc. Although there are no formal "grades" for this level, occasionally there could be an assignment to submit that will receive a number/letter grade/written feedback.</p> <p>My goal is to provide your precious child with the tools with which to grow and develop academically, spiritually, emotionally, and socially while you are away (and to have fun, too!). If you or your child has a need, let me know. I may be able to help. I'm so happy to partner with you in your child's education this year!</p>	<p>Backpacks should always include class binder (1-1 1/2") with notebook paper and labeled tabs: ELA, Math, Science, History, Bible, Paper. Books: Bible, Science text and activity book, Math workbook: fall semester will use the first workbook; spring semester will need 2nd workbook. Fact cards can remain at home but please send in the fact sheets included in the workbook. Pencil pouches are useful for keeping pencils, erasers, pens, colored pencils or crayons or markers, scissors, glue sticks, and post-it notes. I have rulers and clocks in the classroom.</p> <p>Texts:</p> <p>Learning Language Arts through Literature, 3rd Edition: Yellow Book Grade 3 Homeschool Kit (includes Student Workbook, Teacher Edition and novels: The White Stallion, by Elizabeth Shub; Madeline, by Ludwig Bemelmans; Meet George Washington, by Joan Heilbronner; The Courage of Sarah Noble, by Alice Dalgliesh)</p> <p>Saxon 3 Math Home Study Kit</p> <p>BJU (Bob Jones University Press) Science 3, 5th Edition Homeschool Kit (includes all workbooks, activity books, teacher edition)</p> <p>History: Provided by teacher</p>	\$2,225.00	Rydell, Candace	on2college@gmail.com	8139920047
Core D	<p>Core D at Trinity will have a blast this year working our way through the core subjects: English, math, science and history with a concentration on world geography and culture. We will celebrate our learning with a country fair offering a fun and comprehensive multimedia presentation. Lesson plans will be given for 5 days. On core days, we will utilize games, labs, group activities, songs, and collaborative projects while using our textbooks as foundational learning opportunities. The Book Basket is a Charlotte Mason approach to learning our science, geography, history, and culture while strengthening our ELA skills through reading, listening, summarizing, narration, and note taking. Titles are provided for multiple resources across the curriculum and form a backbone for discussion and foundational learning. You may dive as deep or wide as shallow as you would like each week in our Bible, culture, geography, and history. Oftentimes science is intermingled, and ELA always has key skills utilized. Saxon 5/4 is a strong comprehensive approach to math, with review built into each lesson throughout the year. Lesson plans are provided in Mellow Yellow Education platform.</p> <p>Daily Bible reading and weekly verse memory will be provided. Core Days will include Biblical Integration across subject areas. Feel free to enhance and challenge your learners in each area of study. The beauty of homeschooling is that your family can grow as the Lord leads and you see fit. Core will provide the foundation for learning and often we will get messy and be loud and enjoy our friends in the process.</p> <p>Most weeks we will follow along the curriculum during class meetings. Math and ELA will be completed as specified in texts while also using games and group activities, but science and history most often will utilize labs, videos, etc. to accomplish our learning goals.</p> <p>Mellow Yellow Education is our online platform for communication, lesson plans, grading, etc. Although there are no formal "grades" for this level, occasionally there could be an assignment to submit that will receive a number or letter grade or written feedback.</p> <p>My goal this year is to provide your precious child with the tools and skills with which to grow and develop academically, spiritually, emotionally, and socially while you are away (and to have fun, too!). I have been teaching in a variety of classrooms for 30+ years, so if you or your child has a need, let me know. I may be able to help. I'm so happy to partner with you in your child's education this year!</p>	<p>Backpacks should always include 2 class binders (1-1 1/2") with notebook paper and labeled tabs: ELA, Math, Science, Bible, Paper and one for History (with labeled sub-sections: World, North America, South America, Africa, Europe, Antarctica, Asia, Australia), Paper. Science text and activity book, Student sheets, classroom atlas, math workbook for fall semester will use the first workbook; spring semester will need 2nd workbook. Fact cards can remain at home but please send in the fact sheets included in the workbook.</p> <p>Pencil pouches are useful for keeping pencils, erasers, pens, colored pencils or crayons or markers, scissors, glue sticks, and post-it notes. Class Title	Class Description	Curriculum/Supply Needs	TEACH TUITION	Instructor Name	Instructor EMAIL	Instructor TELEPHONE
Core E	Science: Unit studies will include an Introduction to the Scientific Method; Learning the Building Blocks to the Structure of Life; Human Body Systems; and Interactions between Humans and Earth. Weekly class meetings will introduce new concepts and some weeks will include hands-on labs and activities to engage students in active learning. Homework will include activities to ensure comprehension.	Instructor will provide ALL necessary supplies, including ALL curriculum, binders/notebooks. Students will need access to a computer (at home) to submit assignments. The supply/curriculum fee (\$350+) is INCLUDED in the class fee.	\$2,550.00	Sandefur, Kelli	kellisandefurteach@gmail.com	727-481-7990
	Math: Concepts will be introduced and reviewed during weekly class time. Homework and quizzes will ensure concepts are understood and mastered, as well as providing on-going reinforcement for the entire year. Concepts will include a review of place value (digit/word form) and long multiplication and division; and an introduction/study of fractions, decimals, beginning geometry and algebra.					
	History/Geography: We will study US Geography (learning all the states, capitals, locations and fun facts) and US History through major events and the Presidents. Hands-On activities and oral reports will give students the opportunity to learn how to prepare and deliver speeches, as well as overcome a fear of doing so - a valuable life lesson!					
	Language Arts: The reading curriculum includes novels that grab the attention of students and encourages them to 'think beyond the text' to apply the lessons learned to their own life. Students will learn to answer text-dependent questions that build in complexity each week, as more skills are introduced. The language curriculum will keep grammar and word study standards fresh throughout the year. In addition, novel reading assignments will correspond with lessons from the history/geography curriculum, making the reading meaningful and reinforcing an understanding from both studies.					
Core F	Cursive Handwriting: Students will learn to write and read cursive letters/words/passages.	ALL curriculum and supplies (\$250) will be provided by instructor and included in class fee EXCEPT the purchase of Preparing for PreAlgebra Curriculum on MrD Math (\$99). Students will need access to a computer (at home) to submit homework assignments.	\$2,475.00	Sandefur, Kelli	kellisandefurteach@gmail.com	727-481-7990
	Math: Prepare for Pre-Algebra with Mr. D Math! Grade-level studies which include Operations with Whole Numbers and Decimals (A 5th Grade Review Unit); Fraction Operations and Integer Concepts; Ratios, Rates, Percent and Proportions; Expressions; Equations and Inequalities; Geometry; and Data Displays. Concepts will be introduced and reviewed during weekly class time. Homework and quizzes will ensure concepts are understood and mastered.					
	Language Arts: Grammar, writing and novel studies to spark interest and growth. Writing units will include Narrative, Argument, Informative and Expository Writing, as well as Writing on Demand. Novels will cover a variety of genres, challenging students to leave their comfort zone and dig deeper into the story. Grammar and vocabulary will be reinforced and help strengthen students' writing.					
	History/Geography: We will study Major Wars in coordination with world geography, traveling across the globe and learning about all of the wonderful landscapes. Hands-on activities and oral reports will give students the opportunity to learn how to prepare and deliver speeches, as well as overcome the fear of doing so!					
CORE: KINDER-CORE	Science: Unit study will include a review of the Scientific Method; Atoms/Elements/Compounds; States and Properties of Matter; Types of Energy; Weather; Rock and Water Cycles and so much more! Weekly class time will introduce new concepts and some weeks include hands-on experiments to bring each lesson 'alive'; homework will include reading, vocabulary and quizzes to reinforce lessons.	Materials to bring to class each week: Book bag, pencil case with pencils, colored pencils, markers, erasers, highlighters, pens, scissors, glue stick, glue bottle, Binder with tab dividers for each subject. Texts to purchase: Learning Language Arts Through Literature 3rd edition (BLUE KIT) & Horizons Math (orange book) 1 and 2 with Teachers edition. All curriculum available at the Homeschool Hive!	\$1,700.00	Sotolongo, Alisha	alishasotolongo@gmail.com	352-206-1592
	Cursive Handwriting: Students who have not learned cursive writing will be given an introductory curriculum. Those who have learned will be given a reinforcement curriculum.					
	Typing 101: Today's students have learned to how to function on a keyboard in a 'hunt and peck' manner. We will learn proper technique!					
	Core Program Kinder Core: 9 - 12PM on Thursdays In this class students will learn the basics of reading, writing and math with Spanish, science and social studies and history woven throughout the week. We will utilize Learning Language Arts Through Literature 3rd edition for our reading and writing curriculum. For math will be using Horizons Math book 1 and 2.					
Creating Through Countries & Cultures (World Geography 3/4)	In this exciting new class, we will visit well-known, as well as not-so well-known, travel destinations throughout the WORLD. Geography lessons in disguise! While learning about each location, we will enjoy activities to make each destination memorable! For example, we will learn about the Eiffel Tower and enjoy macarons in Paris, while learning about this exciting city in France! The WORLD will come alive through our travels! All supplies (including country focused snacks) provided.	3 ring binder	\$450.00	Sandefur, Kelli	kellisandefurteach@gmail.com	7274827990
Creating Through Countries & Cultures (World Geography 5/6)	In this exciting new class, we will visit well-known, as well as not-so well-known, travel destinations throughout the WORLD. Geography lessons in disguise! While learning about each location, we will enjoy activities to make each destination memorable! For example, we will make our own Learning Towers of Pisa, while we enjoy some Italian treats, as we study Italy! The WORLD will come alive through our travels! All supplies (including country themed snacks) provided.	3 ring binder	\$450.00	Sandefur, Kelli	kellisandefurteach@gmail.com	7274817990
Creating Through Countries & Cultures (World Geography PK - 2)	In this exciting new class, we will visit well-known, as well as not-so well-known, travel destinations throughout the WORLD. Geography lessons in disguise! While learning about each location, we will enjoy activities to make each destination memorable! For example, we will learn about the Eiffel Tower and enjoy macarons in Paris, while learning about this exciting city in France! The WORLD will come alive through our travels! All supplies (including country focused snacks) provided.	N/A	\$450.00	Sandefur, Kelli	kellisandefurteach@gmail.com	7274817990
Dance	In this class we will do creative movement, ballet, lyrical and jazz technique. The class will consist of warmup, stretches, and a variety of combinations fast and slow. They will learn a dance to perform at the end of the school year. The 3-5 year class will include dance and movement games.	No curriculum is needed. They just need to wear comfortable clothes for movement.	\$505.00	Berrojo, Jennifer	jenniferberrojo@hotmail.com	813-245-2582
Early Ed. Math	This class will be using the KinderMath curriculum by Tara West. This year we will be using Units 4-7 (comparing numbers, measurement, numbers 10-19, 2D and 3D shapes). KinderMath encourages guidance from the teacher while the students TEACH and LEARN math through hands-on and engaging math activities with partners. Each class begins with a review of a number sense skill, collaborative number sense activity, whole group skill focus lesson, collaborative skill practice and an independent practice worksheet to show mastery of the skill taught. All supplies and curriculum will be provided by the teacher. Your child will only need to come to class ready to learn with a smile! There will be no grades or homework for this course. To learn more about this curriculum go to... https://www.teacherspayteachers.com/Product/KinderMath-Kindergarten-Math-Curriculum-Units-BUNDLED-2172648	N/A	\$545.00	Borders, Anne	stborders@msn.com	813-690-7930
Early Ed. Reading	This class will be using The KinderLiteracy curriculum by Tara West. Classes will complete Units 4, 5 and 6 this year. KinderLiteracy units are based on the close read model. We will focus on one text each week and look at it closely. Lessons include whole group reading, comprehension skill, story element skill, phonemic awareness, vocabulary, skill checks, follow up practice worksheet or craft. All supplies and curriculum will be provided by the teacher. Your child will only need to come to class ready to learn with a smile! There will be no grades or homework for this course. To learn more about this curriculum go to... https://www.teacherspayteachers.com/Product/KinderLiteracy-Kindergarten-Close-Read-Curriculum-BUNDLE-1934783 [6]	N/A	\$545.00	Borders, Anne	stborders@msn.com	813-690-7930
Econ/Govt	Welcome to US Government and Economics with Mrs. Wilson. This year, we will be using Notgrass' US Government and Economics curriculum. The first semester we will focus on Government, and the second semester, we will focus on Economics. According to the Notgrass History website: "Exploring Government by Ray Notgrass is a one-semester course for high school. Explore the government of the United States from its beginning to the present with special emphasis on the Biblical pattern for government and on the U.S. Constitution. Learn about the operations of federal, state, and local government, and about issues facing our nation today. Become better equipped to understand, pray for, and be involved in our country's government. Exploring Economics is a one-semester course that provides one half-year of credit for high school. Students learn Biblical teachings about economics from the Old and New Testaments and a history of the U.S. economy. The curriculum emphasizes the contrast between command economies and free markets. Exploring Economics helps students understand both microeconomics and macroeconomics. The course explains economic terms from supply and demand to GDP and the Consumer Price Index, giving students tools to understand what they hear in the news and to make wise economic decisions."	https://notgrasshistory.com/collections/exploring-government/products/exploring-government-curriculum-package https://notgrasshistory.com/collections/exploring-government/products/exploring-government-student-review-pack ** (required ONLY if you want your student to have an extra credit option)** https://notgrasshistory.com/collections/exploring-economics/products/exploring-economics-curriculum-package https://notgrasshistory.com/collections/exploring-economics/products/exploring-economics-student-review-pack ** (required ONLY if you want your student to have an extra credit option)**	\$565.00	WILSON, MICHELE	hatutoring@icloud.com	813-482-8099
Economics with BizTown	Instructor: KELLI SANDEFUR Today's Students Are Tomorrow's Business Leaders! This class will lead students through the study of business principles, career exploration, banking procedures, business decisions and economic terms. Students will be introduced to the exciting and challenging free enterprise system; they will learn to maintain a bank account; learn the importance of ethical business practices; understand individual and team goals and practice making sound business decisions. Throughout the program, students also begin to recognize that career and job choices are related to personal interest, skills, knowledge and education.	Class fee INCLUDES all necessary curriculum and the FEE administered by JA BizTown for the simulation. Students will need a 1" 3-ring-binder to store curriculum.	\$495.00	Sandefur, Kelli	kellisandefurteach@gmail.com	7274817990
Financial Peace for High School	Foundations in Personal Finance is the premier curriculum for teaching high schoolers about money—and it has already empowered more than 4 million students! The curriculum reinforces 21st century learning skills through activities requiring students to analyze, integrate and apply new information to real-life problems and activities. The material is presented in an interactive format, requiring students to take an active role while watching lessons. Our goal is to equip students with the skills and knowledge needed to make sound financial decisions for life!	COST INCLUDES CURRICULUM NO PURCHASE NECESSARY	\$640.00	Sotolongo, Tito (Pastor)	pastortito@tdtampa.org	813-531-5821
French 1a	French 1a is designed to meet the needs of students with no previous experience in French. Combined with the follow up French 1b, these two courses are the academic equivalent of a High School French 1 course. This class introduces the fundamentals of French grammar, pronunciation and vocabulary, and will teach students to express themselves both orally and in writing. This course also introduces students to French culture and the francophone world. Grades will be assigned based on homework, unit exams, quizzes, creative activities and class participation. Course Topics include: Basic Greetings, Numbers, Family Members, Colors, Food and Drink, Telling Time, Days of the Week, Months of the Year, Seasons, Weather Expressions, Body Parts, Conjugating Verbs, Negatives, and Forming Questions.	McDougal Littell Discovering French Nouveau Bleu 1 (2007 ed., ISBN-13: 978-0618656516) and McDougal Littell Discovering French Nouveau Bleu 1 Workbook (Paperback, ISBN-13: 978-0618661787). Recommended: A 2" three ring binder for class hand outs	\$485.00	Reinhart, April	madamereinhardt@gmail.com	813-765-6177

French 1b	French 1b is a continuation of the French 1a course. Students will build on the fundamentals of French grammar, pronunciation and the vocabulary learned the previous year along with expanding their skill in expressing themselves both orally and in writing. During class time we will continue to explore French culture and the Francophone world. Course topics include: Clothing, Sports, Fruits and Vegetables, Direct Object Pronouns, Negatives, Commands, Comparisons, Demonstrative and Interrogative Adjectives, Conjugating Regular and Irregular Verbs, Past Tense and expressing the Future. Grades will be assigned based on homework, unit exams, quizzes creative activities and class participation. Prerequisite: French 1a	Required materials are the same as the French 1a course: McDougal Littell Discovering French Nouveau Bleu 1 (2007 ed., ISBN-13: 978-0618656516) and McDougal Littell Discovering French Nouveau Bleu 1 Workbook (Paperback, ISBN-13: 978-0618661787) Recommended: a 2" three ring binder for class hand outs	\$485.00	Reinhart, April	madamereinhart@gmail.com	813-765-6177
French 2a	French 2a is the start of high school, level 2 French language learning. Students need to have completed French 1a and 1b at TEACH or the equivalent of high school French level 1. Students will build on the fundamentals of French grammar, pronunciation and vocabulary previously learned along with expanding their skill in expressing themselves both orally and in writing. During class time we will continue to explore French culture along with exercises to improve listening comprehension. We will also be reading the children's book "Flat Stanley" in French along with completing a travel diary for our paper "Stanley's". Grades will be assigned based on homework, unit exams, quizzes, and creative activities and class participation. Course Topics: Nationalities Professions Extended Family Foods Table Settings Weekend Activities Irregular Adjectives Inversion Questions Future Proche Expressing the recent past The Past Tense Negatives	Required Materials: McDougal Littell Discovering French Nouveau Blanc 2 (2007 ed. ISBN-13: 978-0618656516) McDougal Littell Discovering French Nouveau Blanc 2 Workbook (Paperback) ISBN-13: 978-0618661787 Recommended: a 2" three ring binder for class hand outs	\$485.00	Reinhart, April	madamereinhart@gmail.com	813-765-6177
GARDENING [7]	Class Description A school garden is an innovative teaching tool and strategy that incorporates hands-on activities in a diversity of interdisciplinary lessons. Growing a garden engages students by providing a dynamic environment in which to observe, discover, experiment, nurture, and learn. Students will gain an understanding of ecosystems, food origins and nutrition, plant life cycles, and practical horticulture skills. Students will learn about many different types of gardens. They will determine the type of garden to plant at Trinity. Some types of gardens we will learn about are: vegetable/fruit gardens, butterfly gardens, herb gardens, flower gardens, and colonial gardens. *Field trips will be planned if most of the class is interested to Old McMickey's Farm, Raprager's Family Farm, Sweetwater Organic Farm, and USF Botanical Gardens, and Abby's Organic Community Farm. At least one parent/guardian will be required to attend. Communication I may send emails, when necessary, but most of our communication will be done through the Remind.com app via text messages. **More information about this will be given at the beginning of the school year. Grades/Homework Generally, no homework will be assigned. Students may be asked to complete a class assignment/experiment at home. A certificate of completion will be given at the end of the year. Resources Exploring Creation with Botany by Apologia Florida Agriculture in the Classroom https://faic.org Square Foot Gardening 3rd edition by Mel Bartholomew Life Lab https://www.lifelab.org Kids Gardening https://kidsgardening.org/lesson-plans/	Materials Pocket Folder **If you are able to donate seeds, soil, fertilizer, etc. our class would definitely appreciate it! Bug spray Shovel Gloves Closed Toe Shoes Water Bottle 12" ruler ing gloves	\$515.00	DANCIGER, WENDY	danciger700@gmail.com	813-789-4979
General Science	Comprehensive course. Class time is focused on hands-on laboratory experiments & concept discussions. Topics to include: simple machines, geology, fossil record, and systems of human body. Students will learn to write Lab Reports and will be required to spend approximately 30 minutes per day completing homework assigned by the instructor which will be graded every 2 weeks.	Apologia's Exploring Creation with General Science-SECOND 2nd edition (textbook) AND Solutions and Tests for Exploring Creation with General Science ISBN#978-1-932012-86-6 AND ISBN#978-1-932012-87-3. Also: 3 ring binder with 16 dividers. NOTE: Trinity has textbooks available for loan - NO NEED TO PURCHASE.	\$585.00	Laccabue, Michele	michelelaccabue@gmail.com	8136637125
Geometry	Welcome to Geometry with Mrs. Wilson. We will be using Mr. D's Geometry Curriculum. Students will have a log in to Mr. D's website with the purchase of their curriculum. Classes are taught live, with video lessons and homework help available for at-home use via the website. All of the grading is completed by the student and entered into Mr. D's grade book. Parents will have access via their student's log-in to view their student's progress.	REQUIRED CURRICULUM: Purchase curriculum for \$97 using coupon code TRINITY100 at https://mrdmath.edu20.org/visitor_class_catalog/category/309270 . Please be sure to select the MONDAY GEOMETRY class with Mrs. Wilson. When registering, be sure to select LIVE CLASS, and please select NCAA track if your student is (or might become) an athlete. ALL STUDENTS WILL RECEIVE A PRINTED COPY OF THE CURRICULUM AS PART OF THE TUITION FEE REQUIRED SUPPLY ITEM: A TI30X IIS Calculator (good for Algebra I and Geometry only) OR TI-84 Plus Graphing Calculator (good for Geometry and Algebra II) is Required	\$545.00	WILSON, MICHELE	hatutoring@icloud.com	813-482-8099
Graphic Design	Computer graphic design combines skills in technology, business and art, using computer-generated images and words to create unique concepts and messages for publishing and advertising. Computer graphic design is everywhere in the modern world. You see it on street signs and in restaurants, television programs and magazines. You're seeing it right now as you read this. Computer graphic designers use technology to manipulate and combine words, images, color, typography and sound in order to elicit emotions and deliver messages to viewers. In this class the students will learn how to use Adobe Photoshop software to create picture images; how to design the signs, Ads, Flyers, Post cards, Greeting cards, Book covers, Billboards, Brochures, Banners, Logos, etc. You can use professional photography tools to turn your snapshots into works of art. Adjust, crop, remove objects, retouch, and repair old photos. Play with color, effects, and more to turn the ordinary into something extraordinary. And use the tools to do illustrations, paintings, and 3D artworks, animation art.....even the beginners can make something amazing.	1. Students need to bring a laptop computer. 2. Before come to the class need to download Adobe Photoshop CC software. The students need to go to adobe.com to choose the software payment plan, first week can try free trial, then need to do \$9.99 month plan.	\$545.00	CHEN, PING	pingcatbaby1@gmail.com	813-220-1194
HEALTH & NUTRITION	Course Description: Health and Nutrition Basic Set Let's talk everything health and wellness for youth. What does it look like to implement healthy lifestyle habits? Your student will learn extensive tips and tricks for how to navigate a healthy lifestyle. Exploring Creation with Health and Nutrition, 2nd edition covers what maturing students need to know to help them make the best choices they can for themselves as they become young adults. This basic set includes the Exploring Creation with Health and Nutrition, 2nd edition textbook and student notebook. There are 2 ways to give credit for this course. • Elective – Students who are taking Health and Nutrition as an elective course need only the textbook which is specifically written to expand a student's knowledge of topics typically not taught in high school. As such, its easily read, conversational style can enhance a student's high school studies without additional burden. As an elective, students would be expected to read the text and complete the On Your Own questions to ensure they have comprehended the materials. The answers to the On Your Own questions are found at the end of each module. A student could easily finish the course in one semester, reading one module per week. This would be a 14-week course plan. However, it is also acceptable that a student would plan to read through a module every two weeks at his or her leisure. This would make a full-year, 28-week course. • State Requirement – Students who are taking Health and Nutrition as a state requirement should also purchase the Student Notebook. The notebook contains projects, Study Guides, and exams for the student to complete for State credit. The answers to the On Your Own questions are found at the end of each module. The answers to the Study Guides and exams are found online at the Book Extra site for this title. A student could easily finish the course in one semester, reading one module per week. This would be a 14-week course plan. However, it is also acceptable that a student would plan to read through a module every two weeks at his or her leisure. This would make a full-year, 28-week course. The Answer Key is included on the Apologia Book Extras site. This course is for high school credit (1 or 2 semesters tailored to your needs). Parental Note: This is a full health textbook. Some students may not be mature enough to discuss some of the topics. The reproductive systems are covered in detail, including accurate, yet respectful, illustrations and descriptions. We respectfully discuss the act of marriage, sexual misconduct, pregnancy, and sexually transmitted diseases. We discuss alcohol and drug abuse, depression, pornography and other topics that also require maturity. Please use your knowledge of your students to decide if this course is appropriate for their maturity levels.	Health and Nutrition: Materials needed in class each week: o Thin binder OR folder and notebook paper o Basic art materials should be brought each week (glue stick, scissors, colored pencils, pencils, erasers, highlighters, Post-it notes) o Student text: 2nd Edition, Apologia, Health and Nutrition Basic Set, (Student Text and Student Journal) Author: Dr. Laura Chase ISBN: 978-1-940110-34-9-90000 https://www.apologia.com/product/apologia-basic-set-health-and-nutrition/	\$565.00	Nastelli, Andrea	amnastelli@zocho.com	7033002014

Improv	<p>Improvisation is everywhere! Every conversation in life is an act of improvisation; no one gives us a script for the day when we wake up. Improv is NOT about being a natural, funny performer. It's about bringing out the best in you!</p> <p>This Improv class will help students pay attention and will teach them to react and respond to unexpected situations. Improv will also allow students to feel calm in stressful situations; they will feel better equipped to think on their feet, so to speak!</p> <p>Improv skills are learned by playing games, so students are 'at ease' and don't feel they are being 'put on the spot.'</p> <p>No curriculum or supplies needed. Just actively participating students!</p>	N/a	\$385.00	Sandefur, Thia	thiateach@gmail.com	7274180242
Introduction to Technology & Touch Typing	We have seen the many benefits of Technology help students to succeed. Learning when students are young increases their confidence and prepares academic success. Students will learn how computers work and are fun to learn, - fundamentals of programming, - flow charts - basic algorithms We will introduce students to the syntax of computer languages through JavaScript, and begin some of the basics of coding. Also we will learn "Touch Typing". Students need to bring a Notebook computer (PC or MAC) for each class.	N/A	\$430.00	Alton, Arthur	arthur@safecs.com	18137278007
KNIT WITS 12PM	Fiber arts class focusing on knitting and crochet. Beginners class. More advanced are welcome, however those would need different supplies.	Medium (size 4) smooth yarn and Medium (size 4) all cotton yarn (examples: Simply Soft and Sugar 'n Cream) US size 8 (5mm) knitting needles **16" or longer circular knitting needles will be needed later in the year if you want to get those now instead of sticks. H8 (5mm) crochet hook This is for the first two projects, more supplies will be needed throughout the year.	\$450.00	Ohlman, Amanda	amanda@ybsquare.com	9312493896
KNIT WITS 1PM	Fiber arts class focusing on knitting and crochet. Beginners class. More advanced are welcome, however those would need different supplies.	Bulky (size 5) or Super Bulky (size 6) smooth yarn (example: Bernat Softee Chunky) in two colors US size 11 (8mm) knitting needles (sticks) L11 (8mm) crochet hook This is for the first two projects, more supplies will be needed throughout the year.	\$450.00	Ohlman, Amanda	amanda@ybsquare.com	9312493896
Language Arts 3rd & 4th	Foundational ELA skills are strengthened through reading, listening, summarizing, narration grammar, writing, and note taking. Novels will be studied throughout the year. Class time will focus on games, skills, and group activities to enhance and practice the skill targeted each week. Parents will follow along in the daily plans at home. No grades are given for this class.	Backpacks should always include class binder (1-1 1/2") with notebook paper, student work book, novel being studied presently	\$565.00	Rydell, Candace	on2college@gmail.com	813-992-0047
Language Arts 5th & 6th	<p>This course is an active setting encouraging meaningful participation enabling deeper connections and growth. Preparation of home study assignments will provide skill building practice and will assist in gleaming the maximum Co-op experience while sharing together in class. Feedback will be offered as students participate and grow at their individual level in lieu of letter grades.</p> <p>Mellow Yellow Education is the online platform for this course. This syllabus is posted in the Welcome tab. Occasionally there may be announcements and updates, but nothing will need to be submitted for grading.</p> <p>Parents are responsible for grades in this course. Instructor feedback and group activities are provided.</p>	<p>Materials to be brought each week: binder with tab dividers, Post-it notes, hi-lighters, pens, pencils, erasers</p> <p>Texts: Learning Language Arts through Literature 3rd Edition, Grade 6 Tan Student and Teacher Book Carry On, Mr. Bowditch by Jean Latham The Bronze Bow by Elizabeth George Speare The Chronicles of Narnia: The Horse and His Boy by CS Lewis</p>	\$595.00	Rydell, Candace	on2college@gmail.com	8139920047
Language Arts 7th & 8th	<p>Middle school students are hungry for deeper examination of literature selections to compare and contrast the elements that build story complexity. Discussions in class encourage students to summarize, debate, predict logically and think critically while also examine Biblical truths either glaringly absent or found in characters or story lines. This course will explore literary elements, writing composition, grammar, reading strategies, spelling, and study skills. Deeper understanding of simile, metaphor, hyperbole, and alliteration among other literary devices further the student's reading comprehension. Students will gain experience verbalizing perceived strengths and weaknesses in literature, thereby building confidence in reading, thinking, speaking, and listening skills.</p> <p>Preparation of home study assignments will provide skill building practice and will assist in gleaming the maximum Co-op experience while sharing together in class. Feedback will be offered as students participate and grow at their individual level in lieu of letter grades.</p> <p>Many families use this class to fulfill a core requirement for English Composition. Feedback will be given on essays but grades will be determined by parent as teaching daily will require parental input and observation. The answer key is located within this curriculum so it will also be parent responsibility to monitor student access. Essays and book reviews will be assigned, as well as novel and poem analysis. Students are expected to participate in class and complete assignments in order to ensure a rich classroom environment and maximum engagement through games, live interaction, and discussion.</p>	<p>Materials needed: Student AND instructor texts: Learning Language Arts through Literature Gray, 3rd edition. Please be sure to buy 3rd edition, as well as each novel listed below.</p> <p>ISBN-10 : 1929683480 ISBN-13 : 978-1929683482 Amazon, Christian Book Distributors, Rainbow Resource, and Common Sense Press are a few options.</p> <p>Readers: Daddy Long Legs by Jean Webster A Lantern in Her Hand by Bess Streeter Aldrich Eric Liddell by Catherine Swift God's Smuggler by Brother Andrew (Amazon and Rainbow Resource each have a complete homeschool package you may purchase.)</p> <p>Materials: texts, Folder or 1" binder, notebook paper, tab dividers, index cards, Post-it notes, highlighters, colored pencils, markers, pens, pencils and erasers. Word processing access at home is helpful.</p>	\$635.00	Rydell, Candace	on2college@gmail.com	813-992-0047
Language Arts High School	<p>Welcome to World Literature: Legit Lit (9-12)! High school learners will annotate reading selections and record important questions, thoughts, literary devices, and plot advancement. Especially in today's culture, students need an opportunity to be heard and ask legitimate questions to gain text understanding and a deeper understanding of humanity. Discussions of these points helps students gain rich insight into historical and personal conflict, allowing for critical thinking and seeking out Biblical truths to bring order and make sense of the modern world. We will discover literary elements and devices, motives, mood, theme, nuances, character studies, and all the deeper insights that make understanding literature such a joyful journey. We will compare and contrast details and share insights. Poetry, literature, vocabulary, comprehension, grammar, and the writing process will also be taught.</p> <p>Preparation of home study assignments will provide skill building practice and will assist in gleaming the maximum Co-op experience while sharing together in class. The goal here is to think independently, confidently verbalize, and respectfully hear others in a roundtable or Socratic setting. The goal is less about making a grade or getting an "A" but mastering and critically thinking and writing about material while confidently expressing thoughts.</p> <p>Students are expected to be prepared for class each week by completing at home assignments. Grades will be kept in online platform Mellow Yellow Education. Parents are ultimately responsible for final grades and transcript.</p>	<p>This course requires the following books: Learning Language Arts through Literature, Gold-World Literature, 3rd edition by Diane Welch, Susan Simpson; Vendor: Common Sense Press; Publication Date: 2014; ISBN: 1929683340 or ISBN-13: 9781929683345 A World Literature Anthology, Common Sense Press. 978-1-929683-34-5 The Odyssey - Homer. Barnes & Noble Classics. 978-1-59308-009-9 No Fear Shakespeare, Romeo and Juliet - Shakespeare, William, Spark Publishing. 978-1-58663-845-0 The Little Prince - de Saint-Exupéry, Antoine. Mariner Books. 978-0-15-601219-5 Cry, the Beloved Country - Paton, Alan. Scribner. 978-0-7432-6217-0</p> <p>Materials to be brought to class each week: texts currently studying, binder or folder with tab dividers, paper, highlighters, Post-it notes, pencils, erasers, pens</p>	\$635.00	Rydell, Candace	on2college@gmail.com	813-992-0047
Language Arts K - 2nd	<p>Adventure with us as we jump into literature with both feet-literally and figuratively! The beauty of Co-op is the time we have with each other to safely learn and collaborate. Deanna Jump's curriculum will provide the framework for this fresh approach to literature for your littles using engaging and thought-provoking titles. Classical selections will be brought into the classroom to supplement this hands-on approach to learning fiction and non-fiction text features and reading strategies to cultivate a love for literature. Vocabulary, reading, listening, sentence structure, and writing will be a focus each week. We will explore all aspects of texts: pictures, headings, title, setting, story elements, visualizing, etc., and learn how to ask as well as answer questions to help understand text. Biblical integration will be part of each unit to develop a passionate search for truth in all we do, see, hear, and read in our journey to grow in the Lord. Activities for home study will be offered to strengthen language arts skills, including phonics, writing, and thinking skills. Feedback will be offered as students participate and grow at their individual level. Phonics will be strengthened but this course is designed to create a love of literature and expose to understanding text. Read aloud selections may be purchased separately or checked out from the library. (There are also many You Tube videos with selections read by the author.)</p> <p>Schoolology has weekly at-home lessons for you to print and complete at your discretion. Each week lesson plans, phonics activities, and language arts skills will be available to print and add to notebook as student completes. You can print as many or few activities as you would like.</p>	<p>Materials: Binder with tab dividers or folder and notebook paper or composition books (2), AND</p> <p>Basic art materials should be brought in backpack each week: glue stick, scissors, crayons or markers or colored pencils, pencils, erasers</p>	\$565.00	Rydell, Candace	on2college@gmail.com	8139920047
Latin for Middles (Elementary Latin 2)	We're going to have a great time this year learning the fundamentals of Latin through songs and games in a relaxed setting. Class time will focus on the vocabulary and Latin structure. No grades will be assigned, so no stress! We will use the SONG SCHOOL LATIN 2 text and videos. Practice is recommended to be done at home along with the review activity for extra reinforcement outside of class, but is not required. This is the second step in the SONG SCHOOL LATIN curriculum, but beginners may start here. All elementary readers and writers may enroll (grades 2-5). Students must be able to read and write.	<p>SONG SCHOOL LATIN, BOOK 2 by Amy Rehn with Dr. Christopher A. Perrin (CD with songs is included in back of workbook) by Classical Academic Press</p> <p>Optional: Teacher Edition</p> <p>Bring to class each week: folder, notebook paper, pencils, erasers, pens, scissors, glue stick, colored pencils or markers or crayons, hi-lighters, Post-it notes, backpack</p>	\$565.00	Rydell, Candace	on2college@gmail.com	813-992-9947
Lego Engineering [8]	<p>Class Description</p> <p>Lego offers so many learning opportunities. Playing with building blocks helps kids with math concepts, engineering, communication, as well as simpler things such as colors and shapes. Lego challenges will be presented for small groups to complete. This is a great way to encourage learning and build friendships. This class is designed to be full of fun, engaging, student led activities that promote interactive play and social skills as well as team building and engineering concepts. Students will be able eat their snack/lunch during this class.</p> <p>*An in-class field trip with Bricks 4 Kidz will be planned before the end of the year. Cost is \$5/student.</p> <p>*A field trip to Lego Land will be planned if most of the class is interested.</p> <p>Communication</p> <p>I will send emails, when necessary, but most of the time we will communicate via the Remind app **More info on this will be sent home at the beginning of the school year.</p> <p>Homework/Grades</p> <p>This is a homework and grade free zone.</p>	<p>Materials</p> <p>All materials will be provided; however, Lego donations are always appreciated.</p>	\$465.00	DANCIGER, WENDY	danciger700@gmail.com	813-789-4979

Letter of the Week	This class will be using The Alphabet Curriculum by Tara West. Students will be introduced to the letters of the alphabet as they EXPLORE and LEARN through hands-on and engaging activities that utilize all modes of learning. Each class will have a phonemic awareness listening activity, letter introduction, rhythm and movement, a whole group lesson and then individual practice to apply what they have learned with different activities each week. All supplies and curriculum will be provided by the teacher. Your child will only need to come to class ready to learn with a smile! There will be no grades or homework for this course. To learn more about this curriculum go to: https://www.teacherspayteachers.com/Product/The-Alphabet-Curriculum-4618926 [9]	N/A	\$545.00	Borders, Anne	stborders@msn.com	813-690-7930
Marine Science 3/4	Welcome to Swimming Creatures with Mrs. Wilson! This year, we will be using Apologia's Exploring Creation with Zoology 2: Swimming Creatures of the Fifth Day. We will meet together each week to cover, on average, half of a lesson per week. We will almost always have a hands-on activity or experiment to reinforce the lesson. Description from Apologia.com: "From the rivers and streams to the mighty ocean, God filled the Earth's waters with animals great and small. Apologia's second zoology book will take you and your family on an exploration into the wonders of the swimming creatures made on the fifth day of creation. You'll begin with a big splash from the whales and dolphins, then spy on seals and meet manatees before swimming with the sea turtles, snakes, and salamanders. You'll even peek in on the primeval plesiosaurus and its pals."	"Families can have children share the textbook." BOOK: https://www.apologia.com/product/zoology-2-swimming-creatures-textbook/ OPTIONAL NOTEBOOKING JOURNAL: https://www.apologia.com/product/zoology-2-junior-notebooking-journal/	\$465.00	WILSON, MICHELE	hatutoring@icloud.com	813-482-8099
Marine Science 5/6	Welcome to Swimming Creatures with Mrs. Wilson! This year, we will be using Apologia's Exploring Creation with Zoology 2: Swimming Creatures of the Fifth Day. We will meet together each week to cover, on average, half of a lesson per week. We will almost always have a hands-on activity or experiment to reinforce the lesson. Description from Apologia.com: "From the rivers and streams to the mighty ocean, God filled the Earth's waters with animals great and small. Math & Me (Mondays @ 12:00) [10]	Class Description Math is all around us. It is a universal language around the globe. Math can explain God's perfect hand in creation. Then why do so many people young and old groan when the topic of math is discussed? Math really can be fun to learn if it is presented in a natural way just as any spoken language is. My goal for this class is to present math concepts in a fun and meaningful way that will ignite a love and understanding of math, as well as an increased confidence in math performance. Math should be hands on, relevant, and fun. In Math & Me, children will experience math in a natural way through games, stories, cooking, art, songs, nature, experiments, role play, and much more. Communication I will send emails when necessary. Most communication will be done through the Remind app. **More information about this will be given at the beginning of the school year.	Materials All materials will be provided. Donations are always appreciated.	\$415.00	DANCIGER, WENDY	danciger700@gmail.com	813-789-4979 [11]

Mini Desserts	Welcome to Trinity's Willy Wonka kitchen! This completely hands-on, fun class will provide students with an opportunity to be creative and to learn tips and tricks to make their own easy treats and desserts each week. Our yummy creations will use a variety of different foods including rice krispie treats, cupcakes, cookies, popcorn, pretzels, chocolate, marshmallows, fondant and candy. We will dip, mold, sculpt, sprinkle, frost and decorate! The class fee includes ALL needed tools and supplies. The students will be bringing home their delicious treats each week to share with their families. Please inform instructor of food allergies. Most ingredients can be made gluten free but note this class includes recipes made with peanut butter. Example Lesson Plans Include: Meringue Cookies Potato Candy Disney's "The Gray Stuff" (It's Delicious!) Chocolate Apple Cauldrons Gummy Candy Edible Rocks Candy Sushi Homemade Candy Bars Edible Terrariums	An apron is recommended.	\$505.00	Reinhart, April	madamereinhardt@gmail.com	813-765-6177
Music Mania 3rd - 5th	Are you ready to make some music? We are going to have so much fun experiencing music in a variety of ways. Upper elementary classes will take the fundamentals of music to the next level. We will expand on the concepts of pitch, dynamics, and tempo while singing, dancing, listening, and playing percussion instruments. We will practice sight-singing and music notation a Kodaly-based curriculum.	N/A- All curriculum, instruments, and supplies will be provided for student use during class.	\$565.00	Temperley, Sarah	sa4grace@gmail.com	5155058964
Music Mania K - 2nd	Are you ready to make some music? We are going to have so much fun experiencing music in a variety of ways. K-2 classes will focus on the fundamentals of music, including fast/slow, high/low, and beat/no beat. We will explore these concepts while singing, dancing, listening, and playing percussion instruments.	N/A- All curriculum, instruments, and supplies will be provided for student use during class.	\$565.00	Temperley, Sarah	sa4grace@gmail.com	5155058964
PE	This physical education class will foster skills that will be developed through various sports. Students will play a variety of sports that will build hand-eye coordination, strength training, strategy and teamwork. In class, they will learn the basics of volleyball, soccer, flag football, running, archery, tennis and capture the flag, running and cross-fit. In this class, students will learn the importance of working together as a team and building each other up through their words and actions. See you on the field, Coach Z.	N/A.	\$415.00	Zentmeyer, Martha	reeszentmeyer@gmail.com	813-299-6600
Photoshop Tutorials	Everyone can Photoshop. Complete step by step tutorials every class. Each tutorial will start with beginner concepts and layer in more difficult components for the advanced users. Students doing the same tutorial will not always produce the same results! See how your inner creative voice shines through each project. Swap out backgrounds. Make unwanted objects disappear. Colorize photos. Brush. Blur. Type. Layer. Combine. Create the unexpected. Each semester will end with students showcasing their work as a gallery event on campus. Adobe Photoshop is the most popular graphics and photo editing software today. From photo editing and compositing to digital painting, animation, and graphic design — you can do it all in Photoshop. Required: Laptop running Adobe Photoshop Adobe Photography plan (20g) \$9.99/month or All the Creative Cloud apps starting at \$19.99/mo https://www.adobe.com/creativecloud/plans.html	Laptop running Adobe Photoshop	\$545.00	Carey, Liz	lizcarey@gmail.com	727-455-4515
Physical Science	Comprehensive course. Class time is focused on hands-on laboratory experiments & concept discussions. Topics to include: weather/atmosphere, Laws of motion, forces, sound waves & light. Students will learn to write Lab Reports and will need to spend approximately 30 minutes per day completing homework assigned by the instructor which will be graded every 2 weeks.	Apologia's Exploring Creation with Physical Science-SECOND 2nd edition (textbook) AND Solutions and Tests for Exploring Creation with Physical Science ISBN#978-1-932012-77-4 AND ISBN#978-1-932012-78-1. Also: 3 ringed binder with 16 dividers. NOTE: Trinity has textbooks available for loan - NO NEED TO PURCHASE.	\$585.00	Laccabue, Michele	michelelaccabue@gmail.com	8136637125

PHYSICS	<p>Course Description: Exploring Creation with Physics, 2nd Edition</p> <p>The science of physics is an attempt to explain everything that is observed in nature, this text is an overview of the advances made over the last three thousand years! And while that may seem like a monumental task, we've designed it to be not only homeschool-friendly but also college-prep. This college-prep physics course is designed for the student who has completed algebra 1 and geometry and has had an introduction to the definitions of sine, cosine, and tangent.</p> <p>In this homeschool high school physics course, we go into detail but use a conversational style of writing so that students feel as if they are participating in the learning process. When they are finished with the course, students will be able to do things such as:</p> <ul style="list-style-type: none"> • Relate velocity, acceleration, time, and displacement • Use mathematical equations for one-dimensional motion • Understand and apply Newton's Laws • Be able to see the strong connection between math and science <p>Some important concepts covered in Apologia's high school physics include, but aren't limited to:</p> <ul style="list-style-type: none"> • One and two-dimensional motion • Newton's laws and their applications in nature <ul style="list-style-type: none"> • Work and energy • Electricity • Magnetism • Momentum • Periodic motion • Waves • Optics <p>Solutions & Tests Manual</p> <p>The Solutions and Tests Manual only for Exploring Creation with Physics, 2nd Edition, contains answers to Study Guide questions, module summaries, tests, and test solutions.</p>	<p>Exploring Creation with Physics:</p> <p>Materials needed in class each week:</p> <ul style="list-style-type: none"> o Thin 3-ring binder OR folder and notebook paper o Basic art materials should be brought each week (glue stick, scissors, colored pencils, pencils, erasers, highlighters, post-it notes) o Scientific calculator o Student text: 2nd Edition, Apologia, Physics Basic Set <p>Author: Jay Wile</p> <p>https://www.apologia.com/product/apologia-basic-set-physics-2nd-edition/</p>	\$640.00	Nastelli, Andrea	amnastelli@zoho.com	7033002014
Portfolio Development	<p>This is a four hour workshop for digital art and technology portfolio development and a path to improve your photography skills and work toward Adobe Photoshop Certification. Students will set goals and use classroom resources to motivate and refine their skills and ultimately publish their work. We will be using the books "Steal Like an Artist" and "Show your Work" both by Austin Kleon to broaden student mindset on art and publishing.</p> <p>Everyone can Photoshop but when you want to stand out from the crowd you will need to develop a portfolio of your best work. If you've never had a digital art or technology portfolio before, don't worry, you can get started anytime. Students will set individual portfolio goals and work to create and reinvent projects that are personal to them and showcase their software skills.</p> <p>The first hour will be about exploring various artist's portfolios of work and practical topics in the digital design and technology industry. We will look at beautiful photography and graphic design and all kinds of mixed media in between. Learn stories that provoke and inform! Get inspired.</p> <p>The second hour will cover Photoshop tutorials with a focus on the certification exam. We will cover all the toolbar basics as well as advanced topics. This is not necessarily a creative time but of course there will be opportunities to be creative and make any tutorial your own! Take it to the next level.</p> <p>The last two hours students can work independently or in groups. Students can ask questions and collaborate, eat lunch and socialize during this time. Lunch included.</p> <p>Required: Laptop running Adobe Photoshop Adobe Photography plan (20GB) \$9.99/month or Student Creative Cloud All Apps starting at \$19.99/mo https://www.adobe.com/creativecloud/plans.html</p>	Laptop running Adobe Photoshop	\$1,800.00	Carey, Liz	lizcarey@gmail.com	727-455-4515
Pre Algebra	<p>Welcome to Pre Algebra with Mrs. Wilson. We will be using Mr. D's Pre Algebra Curriculum. Students will have a log in to Mr. D's website with the purchase of their curriculum. Classes are taught live, with video lessons and homework help available for at-home use via the website. All of the grading is completed by the student and entered into Mr. D's grade book. Parents will have access via their student's log-in to view their student's progress.</p>	<p>REQUIRED CURRICULUM FEE: Purchase curriculum for \$97 using coupon code TRINITY100 at https://mrdmath.edu20.org/visitor_class_catalog/category/309270. Please be sure to select the MONDAY PRE ALGEBRA class with Mrs. Wilson. When registering, be sure to select LIVE CLASS, and please select NCAA track if your student is (or might become) an athlete.</p> <p>ALL STUDENTS WILL RECEIVE A PRINTED COPY OF THE CURRICULUM AS PART OF THE TUITION FEE</p> <p>REQUIRED SUPPLY ITEM: A TI30X IIS Calculator</p>	\$545.00	WILSON, MICHELE	hatutoring@icloud.com	813-482-8099
Pre-Writing	<p>This class will be using the Writer's Workshop Bundle by Samantha Kelly from Teachers Pay Teachers. The Pre-Writing class is for students who know how to write the letters of the alphabet and the sound that each letter makes. We will be using the Beginning Writing and Narrative Writing units for this course. Writers Workshop is FUN and lets your child choose the topic that they want to write about. Class consists of a group skill lesson, independent writing where students are encouraged to use the new skill taught and sharing writing with classmates. As students are writing independently, I will circulate and help each child individually. We will make and use a writing folder for this class. Your child will be able to take it home at the end of the year. All supplies and curriculum will be provided by the teacher. Your child will only need to come to class ready to learn with a smile! There will be no grades or homework for this course. To learn more about this curriculum go to... https://www.teacherspayteachers.com/Product/Writers-Workshop-Bundle-1681509</p>	N/A	\$545.00	Borders, Anne	stborders@msn.com	813-690-7930

Private Guitar	Classical guitar finger picking style.	Classical guitar finger picking style. Book needed is COMPLETE METHOD FOR CLASSIC GUITAR by Mel Bay. ISBN 978-087-166-961-2. Need Acoustic or classical guitar. (Nylon string).	\$865.00	Martindale, Stan	stanmartindale@yahoo.com	813-503-7787
Private Piano	Piano lessons are offered for beginners and intermediate students. The Piano Adventures curriculum is used as the basis of instruction, with supplemental materials added as needed or desired. Lessons are tailored for each individual's needs, strengths, and interests. Lessons are 30 minutes. At-home practice is expected in order to progress.	A piano or full-sized (88 keys) digital piano with weighted keys and foot pedals is needed (NO keyboards). The piano books needed vary based on age, level, and interests. Students with prior piano experience should bring current books to pick up where they left off. New students will be instructed which specific books to purchase once registered.	\$865.00	Temperley, Sarah	sa4grace@gmail.com	5155058964
Private Voice	Voice lessons are designed to create a well-rounded musician. Emphasis is placed on a variety of skills including matching pitch, tone quality, solfège (sight-singing system), and general musicianship. Music reading elements are taught using the Full Voice curriculum and songs are specifically chosen for individuals based on interests and goals in order to stretch the student and build confidence.	Most music will be provided. New students will be required to purchase a Full Voice workbook or other sight-reading book, based on prior music knowledge.	\$865.00	Temperley, Sarah	sa4grace@gmail.com	5155058964
Robotics Engineering & Electronics	Robotics 1 - introduces students to the wonderful world of Robotics. What are today's robots and how do they effect the world! Students will learn - Safety - Robotic Components - Mechanics - importance of 3-D printers - Motors - Design - Electronics - Building series and parallel circuits - Motor Controller vs Computer Module, - Programming, Build your own robot, and have fun. Every class is hands on, where learning is fun.	385	\$450.00	Alton, Arthur	arthur@safecs.com	18137278007
Sculpture/ Mixed Media Art Class (grades 6-12)	Sculpture/ Mixed Media Art Class is an intermediate hands on instructional course teaching aspiring artists in several different art mediums such as clay, glass and resin. We will explore clay building. All vessels or projects will be kiln fired and glazed. Polymer clay will be introduced in jewelry making and small sculptures. Glass fusing gives students the opportunity to create glass pieces which are also fused by kiln heat. Resin art has become a hot new trend! Students will use silicone molds and other unique items to create one of a kind works of art. Our grand finale would be a gallery night for the students to showcase their work and understand the business of being a full time artist.	YoleShy 6 Pcs 8" x 8" Unfinished Wood Cradled Painting Panel Boards for Arts & Craft - Wooden Canvas Panels Clay Tools Pottery Sculpting Tools: 15Pcs Air Dry Polymer Clay Carving Tools Set for Kids Adults - Stainless Steel Wooden Ceramic Clay Sculpting Kit - Soft Molding Sculptey Clay Molds Supplies Portable Clay Wedging Board Clay Board with Built in Handle Wooden Mat Mud Board for Clay Crafts Arts Making, 12 x 18 Inch (1 Piece)	\$1,130.00	Brock, Ann	annbrock1979@gmail.com	7138948513
Sewing	This beginner course will provide an introduction on how to use and care for a sewing machine while having lots of fun. The hands on course will include grammar, history, techniques, and many basic projects. Learning to sew helps develop fine motor skills, helps build self-confidence, teaches how to be patient, teaches good communication and following instructions, and helps promote imagination and creativity.	Sewing Machine and all materials needed for projects - TBD throughout class	\$1,050.00	Martin, Jamee	jameemartin@gmail.com	813-785-4469
Sing & Sign	Humans learn 10% of what they read, 20% of what they hear, 30% of what they see, 50% of what they see and hear! In this interactive class, students will learn as they LISTEN and DO basic sign language and music skills. They will be introduced to musical instruments and learn to LOVE making music, while also learning to communicate without words.	N/A	\$415.00	Sandefur, Kelli	kellisandefurteach@gmail.com	7274817990

Social Studies Outside of the Box	This class will be using The KinderSocialStudies curriculum by Tara West. KinderSocialStudies is an engaging social studies curriculum with young learners in mind. It encourages young learners to think "outside the box" and prove their thinking through hands-on and engaging learning experiences. We will be focusing on Rules, United States/Community Helpers and Maps this year. Each class consists of a quick lesson opener, whole-group skill lesson and students will complete a follow up task in a social studies composition book. These notebooks will go home at the end of the year. All supplies and curriculum will be provided by the teacher. Your child will only need to come to class ready to learn with a smile! There will be no grades or homework for this course. To learn more about this curriculum go to... https://www.teacherspayteachers.com/Product/KinderSocialStudies-Kindergarten-Social-Studies-Curriculum-Bundle-3191708	N/A	\$545.00	Borders, Anne	stborders@msn.com	813-690-7930
Spanish 1	Students will be introduced to basic and practical concepts of grammar, pronunciation, and sentence structure that will develop a strong foundation for future study of the target language.	No textbook is required for the teacher will provide all handouts and forms. Students must come prepared to class with the following items... - Paper and writing utensils - Internet connection at home to access HW and complete online assignments	\$595.00	Sotolongo, Tito (Pastor)	pastorito@tdtdampa.org	813-531-5821
Spanish 2	Students will continue to build on the basics of Spanish 1 and further learn practical concepts of grammar, pronunciation, and sentence structure that will develop a strong foundation for future study of the target language.	No textbook is required for the teacher will provide all handouts and forms. Students must come prepared to class with the following items... - Paper and writing utensils - Internet connection at home to access HW and complete online assignments	\$595.00	Sotolongo, Tito (Pastor)	pastorito@tdtdampa.org	813-531-5821
Spanish Cultures	This class will allow students to learn about the various Spanish countries. They will learn about the important information about each country, their music, native dances, food, and Spanish words and phrases associated with the specific country. We will have food tastings, videos, pictures and native guest speakers for some of the countries. Homework will be assigned on some occasions throughout the year.	No other supplies are required for this class. (Food will be eaten on this class)	\$450.00	Sotolongo, Alisha	aishasotolongo@gmail.com	352-206-1592
Spanish Fun	This class is designed to get the students introduced to the Spanish language. By playing games, learning songs and attractive visual aids your child will be able to speak simple phrases like greetings and will also learn numbers, 1-20, basic colors as well as classroom, family and food words and much more.	Students must bring a backpack or folder for their work. No other supplies are needed for this class.	\$450.00	Sotolongo, Alisha	aishasotolongo@gmail.com	352-206-1592
Story Time	Mrs. Kelli loves story time and so will your kids! Each week we will read a new book and enjoy fun games/activities related to the story. After reading Llama Llama Loves Camping, we will go camping complete with a tent and campfire! After reading Give a Pig a Pancake, we will make pigs and pancakes! Students love this time together with their friends and learn to share and care. All supplies provided.	N/A	\$415.00	Sandefur, Kelli	kellisandefurteach@gmail.com	727-481-7990
Study Skills & Executive Functioning HIGH SCHOOL	High school students will practice utilizing executive functioning skills to further their understanding of how to succeed and prepare for present and future courses. Executive functioning skills practiced include: Planning, Perseverance, Focus, Organization, Flexible Thinking, Time Management, Task Initiation, Working Memory, Metacognition, Self-Control, Attention. Advanced mentor texts will be utilized to further student's critical reading and thinking skills. Success is the goal. No grades will be given.	Bring to class weekly: folder, notebook paper, pens, pencils, erasers, glue stick, Post-Its. Text: TBD	\$615.00	Rydell, Candace	on2college@gmail.com	8139920047
Study Skills & Executive Functioning MIDDLE SCHOOL	Students will learn how to read and think critically, how to write specifically and answer questions posed. Answering questions fully begins by answering in complete sentences, but there is more to it! Learning how to annotate reading material, ask relevant questions, organize time, and plan to succeed. Many elements of executive functioning will be included. Areas targeted: Planning, Perseverance, Focus, Organization, Flexible Thinking, Time Management, Task Initiation, Working Memory, Metacognition, Self-Control, Attention Student success is the goal. No grades will be given.	Folder, notebook paper, Post-Its, pens, pencils, erasers, glue stick to be brought to class weekly Text: TBD	\$590.00	Rydell, Candace	on2college@gmail.com	8139920047
The Office	Developing practical software skills in word processing, page layout, spreadsheets, document management and file sharing are essential in today's workplace. Not only are these software skills important, creating proper emails and Googling to solve problems, are equally important. This knowledge will not only help you in the office, it will help you in college and professional life. The first ten minutes of class will be a typing challenge. Get to the office on time, and get to it because there will be prizes! Next we will create fictitious companies and solve problems. For example we will: hire and interview a new employee, budget and plan a party, create travel and expense reports, manage inventory, payroll, budgets, look at financial reports and create a written summary or presentation for a client or manager. Students will have data entry jobs, emails, Google research and documents to send to their manager before the day is over or it will reflect poorly on their annual review and ultimately their raise. Students will need a laptop running office software. All students will need a Gmail account and Google Docs/Sheets/Slides and you can use your laptop software as well for Windows Word/Excel/Powerpoint or Apple Pages/Numbers/Keynote. A link to the typing program and typing games will be provided.	Student will need a laptop.	\$465.00	Carey, Liz	lizcarey@gmail.com	727-455-4515
THEATRE	My theater class is a comfortable environment where students learn the art of performing confidently on stage. In class, they will play games that teach the basics of drama: pantomime, vocal expression, gestures, character development, stage awareness, monologue and much more. Students will develop friendships while working together as a team to put on performances. Each student will be given a part in a performance in the fall as well as a performance in the spring. It is a joy to see their God given talents blossom throughout the year. CLOSER TO PRODUCTION THERE WILL BE EXTRA REHEARSALS SCHEDULED.	Students will be responsible for the purchase of any costumes needed for production.	\$465.00	Zentmeyer, Martha	reaveszentmeyer@gmail.com	813-299-6600
THINK (STEM) 1/2	Let your student THINK outside the box! Let them create with boxes! We all learn when we Try something new; Help a friend; Investigate; Navigate and Keep a positive attitude! THINK! Students will learn to use their THINK skills as they tackle projects alone or in groups. Class fee INCLUDES all necessary supplies to accomplish each task. Students will learn that sometimes what they THINK will work, might not turn out as planned. That's part of learning! We will celebrate the Ups and Downs of THINKing!	N/A	\$440.00	Sandefur, Kelli	kellisandefurteach@gmail.com	7274817990

Touch & See ABCs for Tots	Through hands-on sensory play, your child will build nerve connections in the brain's pathways which will support their learning and growth as they begin to achieve more complex learning tasks. Our class will have a gentle letter of the week focus, as toddlers participate in a variety of hands-on, sensory, and at times messy play. This type of learning supports language development, cognitive growth, fine and gross motor skills, social interaction and problem solving skills. The class is designed for toddlers in a way that invites them to play in a fun and engaging way, while also allowing them the opportunity to choose the task they are interested in. As parents, we can learn so much about our children through watching them play. Children ages 1-2 will participate in the class with the support of their parent(s) - PARENTS REQUIRED FOR AGE 1 AND 2. This will allow for greater supervision and organizational support, as some activities will include small parts and/or non-taste safe materials.	Smock or t-shirt for messy play, 1 box of washable paint (10 count, 2 oz), 1 bottle of shaving cream, 4-pack of play dough, 1 2lb bag of kinetic sand.	\$515.00	Coffey, Lianna	liannacoffey@gmail.com	201-739-8992

U.S. History (High School) Wednesdays 12:00	<p>Class Description: (1 high school credit)</p> <p>If you want to become an independent thinker and an effective communicator, this is the course for you. Students will learn how to distinguish between fact and opinion, make good historical judgment, analyze primary or secondary sources, and use quotes effectively in argumentation. They will learn the true history of America from a Christian perspective and how to spot inconsistencies in revisionist history. Students will paraphrase historical text, analyze, and answer interpretive questions in history, conduct research, participate in a Socratic discussion, and write analytical essays.</p> <p>Two group projects and one American hero biography presentation will be assigned.</p> <p>United States History: Heritage of Freedom-Revised Edition is written in narrative format, provides updated maps, reorganized chapters, and new charts to help students arrange information. Additionally, quotations with footnotes are included throughout the text and are extensively cited in the appendix.</p> <p>Thought Provokers—critical thinking questions designed for discussion—are scattered throughout the book to encourage class participation and material retention. Students will quickly develop an appreciation for our American heritage with the factual accounts presented in this student textbook.</p> <p>Communication</p> <p>I will send emails, when necessary, but most of the time we will communicate via the Remind.com app. **More information about this will be given at the beginning of the school year.</p> <p>Grades/Homework</p> <p>Homework and quizzes will be given weekly, and projects will be assigned in lieu of tests. To access assignments/gradebook join my website by going to https://www.mellowyelloweducation.com click on "Student Portal." Watch the video to learn how to create an account and join my class.</p> <p>***Parents you are in charge! If you deem it necessary to alter, enrich, or omit assignments to meet your student's needs, it is your prerogative to do so.</p> <p>Resources</p> <p>I recommend reading at least 2 of the books listed below.</p> <p>Johnny Tremain by Esther Forbes</p> <p>Uncle Tom's Cabin by Harriet Beecher Stowe</p> <p>Narrative of the Life of David Crockett by David Crockett</p> <p>Co. Volleyball	<p>In this volleyball class your student will learn all the fundamentals of Volleyball. We will begin our class with warm up drills that are needed to exercise muscles used in Volleyball. All aspects of volleyball will be taught through drills that focus on passing, setting, hitting and serving. This program is designed to take the beginner player to the intermediate level. We will also be focusing on teamwork and sportsmanship through scrimmaging as a class</p> <p>As the coach, I look forward to sparking a love for the sport and a desire to work as a team.</p>	Please come to class with a water bottle, gym clothes and sneakers	\$365.00	Zentmeyer, Martha	reaveszentmeyer@gmail.com	813-299-6600
Website Design	ALTON Students will learn about the technology behind the world wide web. This class will spark their creativity to design and develop web pages. Fundamentals are building blocks for further success. From HTML to images, and from styles to videos students will learn from examples and weekly downloads. Students will learn skills that will help them throughout high school and college, and even into their full time career. Every class is hands on with downloads, exercises, and fun! The final project will be publishing their own website. . Requirements: Students will need their own Notebook PC (Windows or MAC) - for each class.	N/A	\$450.00	Alton, Arthur	arthur@safecs.com	18137278007
Wild World Exp	Let science come alive in this class as we explore many facets of the life, physical and earth/space sciences through experimentation, games, and hands-on discovery. We will investigate topics such as nature and ecology, electricity, sound, leverage, extreme weather, geology, and more. Students will learn about important figures in science and discoveries/inventions that changed the world as we know it. Class may include games, craft, outdoor exploration, and animal encounters. This is not your typical science class!	N/A	\$420.00	Chepren, Damon	damon@wildworldexp.com	7276235570
Woodworking and Crafting I	<p>Welcome to Mrs. Wilson's Woodworking and Crafting I class! This is the first year of a two-year course where students will learn frontier/homestead skills in the areas of woodworking and crafting. We will also incorporate some recipes throughout the year!</p> <p>This class is for 3rd-6th grade. Lower grades will not be allowed due to the heavy use of knives, sharp tools, and heating elements. Students will receive a pocket knife to keep. The rest of the materials and tools will be provided for them to use during class.</p> <p>Please note we scheduled this course for the end of the day so that students can take certain projects straight home for possibly baking or storing.</p>	N/A	\$515.00	WILSON, MICHELE	hatutoring@icloud.com	813-482-8099
Write More	This class will be using the Writer's Workshop Bundle by Samantha Kelly from Teachers Pay Teachers. The Write More class is for students who are proficient in the formation of both capital and lowercase letters. Your child should be able to spell words the way they sound and write a simple sentence. We will be using the Informative Writing and Opinion Writing Units this year. Writers Workshop is FUN and lets your child choose the topics that they want to write about. Class consists of a group skill lesson, independent writing where students are encouraged to use the new skill taught and sharing writing with classmates. As students are writing independently, I will circulate and help each child individually. We will make and use a writing folder for this class. Your child will be able to take it home at the end of the year. All supplies and curriculum will be provided by the teacher. Your child will only need to come to class ready to learn with a smile! There will be no grades or homework for this course. To learn more about this curriculum go to... https://www.teacherspayteachers.com/Product/Writers-Workshop-Bundle-1681509	N/A	\$545.00	Borders, Anne	stborders@msn.com	813-690-7930

Class Title	Class Description	Curriculum/Supply Needs	TEACH TUITION	Instructor Name	Instructor EMAIL	Instructor TELEPHONE
Writing With Skill I	<p>This class focuses on fundamentals of writing composition. Writing with Skill Level 1 utilizes a classical approach to writing composition. Coursework begins with narrative summaries and moves to outlining and utilizing research resources, and then progresses to various combinations of learned forms. Students gain confidence and clarity in their writing skills by exploring various types of chronological narratives across the curriculum. Learners become adept at critically assessing and writing on topics including history, science, and literature. Students will be provided feedback via instructor, writing rubrics, and peer interaction in lieu of letter grades, unless parents request grades in advance. **Although students at this age prefer independence, this course requires parent interaction and support for maximum success.</p> <p>Rubrics are provided for essays to be submitted. Parent assistance is necessary. Some essays will be graded by parent.</p> <p>*This is NOT a creative writing class. Students will learn how to write</p> <p>Materials: Text, Binder & tab dividers, word processing capabilities on home study days</p>	<p>Text: Writing with Skill student workbook Level 1 Author: Susan Wise Bauer ISBN: 10:1933339535 or 13-978-193333953-5 Recommended: Instructor Text ISBN: 10:1933339527 or ISBN 13-978-1933339528</p>	\$615.00	Rydell, Candace	on2college@gmail.com	8139920047
Writing with Skill II	<p>Writing with Skill Level 2 walks students through a comprehensive and systematic approach to writing composition. Skills necessary for academic success include summarizing, outlining, and note taking. Students also practice writing patterns targeted to history, science and literature, which prepares learners to write across the curriculum. Detailed instruction in narration and sequences, comparisons, introductions and conclusions, and finding topics helps further the students' writing aptitude.</p> <p>Learners progress to critically assess prose and poetry, research, and draft a final project.</p> <p>Training in independent learning, effective writing and critical thinking are objectives for WWS Level 2. Co-op time together will focus on the weekly lesson targets, with heavy emphasis on student interaction sharing ideas and constructive feedback. Rubrics will be provided for feedback on student compositions. Grades will be responsibility of the parent and parent interaction is necessary. Useful prerequisite: Writing with Skill Level 1</p>	<p>Materials needed: 1" Binder with 6 dividers (first section is Narrations completed during WWS L1), paper, Roget's Thesaurus (most recent edition)</p> <p>Text: Writing with Skill: Student Workbook Level 2 Author: Susan Wise Bauer Student Edition: ISBN 978-1-933339-61-3 Recommended: Writing with Skill: Instructor Text Level 2 Author: Susan Wise Bauer Teacher Edition: ISBN: 978-1-933339-60-3</p>	\$645.00	Rydell, Candace	on2college@gmail.com	8139920047
Writing with Skill III	<p>Writing with Skill III is the final level in the groundbreaking writing series that prepares students for high-level rhetoric and composition. This final step combines time-tested classical techniques with innovative contemporary insights. Mentor texts from great literature provide inspiration, while step-by-step instructions explicitly teach the skills that other writing programs merely assign without explanation. Original writing assignments in history, science, biography and literature expand the student's intellectual horizons.</p> <p>Students will gain the necessary tools to write with clarity and confidence, how to brainstorm, organize, and construct original compositions. Writing instruction further focuses on how to write narrations, explanations, comparisons and contrasts, biographical sketches, and much more. Extensive practice provided in planning and carrying out independent projects, direction in note-taking, documentation, and avoiding plagiarism.</p> <p>Rubrics will be provided for essays to be submitted. Student participation is necessary for grading. Parent interaction is necessary. Some essays will be graded by parent. Grades will be kept via online platform Mellow Yellow.</p> <p>*This is NOT a creative writing class</p> <p>Useful prerequisites: Writing with Skill, Levels 1 and 2</p>	<p>Writing with Skill, Level 3 Student Workbook ISBN: 978-1-933339-74-0</p> <p>Writing With Skill, Level Three: Instructor Text ISBN: 978-1-933339-74-0</p> <p>Students will need internet and word processing access on home school days, 3-ring binder, pens, pencils, notebook paper, and Post-its. These should be brought to class each week.</p>	\$645.00	Rydell, Candace	on2college@gmail.com	813-992-0047
Yearbook & Photography	<p>Smile! We love photography. It's really that simple. Whether you are just beginning to take pictures or you have some experience, take this class if you love photography too. Maybe you have an eye for what looks good visually or a sense for composing a picture that tells a story. Are you someone who feels good in front of the camera or would you rather be behind the scenes taking the picture and editing photos? Wherever you are at, this class will sharpen your photography skills by capturing the smiles and activities of our students on campus.</p> <p>We will design and produce the T.E.A.C.H. yearbook in this class. We will add stock photography and layout the Trinity Times newspaper quarterly using Adobe InDesign. Students will gather, capture, and enhance photos using mobile phone cameras as well as various DSLR camera lenses and techniques. We will use studio lighting to create self portraits and take yearbook portraits of students and families on campus. Along the way the class will review the craft of photography and discuss lighting, exposure, shutter speed, framing and more. We will discuss photography masters and photography editors and we will sort, color correct and publish photos for sale using Adobe software and more.</p> <p>Although not required, students would benefit by having a laptop and an Adobe software package. However, in this class we will be working in groups and making creative content decisions, taking pictures, finding stock photography, editing, and organizing photos, names, and written content for the newspapers and the yearbook. The classroom will have a couple computers with Adobe software installed for students to use. No prior experience with software required.</p> <p>Not required: Adobe Photography plan (20GB) \$9.99/month or Student Creative Cloud All Apps starting at \$19.99/mo https://www.adobe.com/creativecloud/plans.html</p>	NO	\$515.00	Carey, Liz	lizcarey@gmail.co,	727-455-4515
Yoga	<p>Join Moon Drop Yoga each week to flow, rest, play, center, and redirect through movement, games and activities, breathwork, and stillness. We aren't offering an adult class, this 1 hour session is specifically designed for kids and preteens seeking a foundation in yoga poses, redirecting big feelings, deepening flexibility and balance, and learning to respond to stress and chaos instead of reacting to them.</p>	Need to bring yoga mat weekly	\$375.00	MoonDrop	kaywithtinab@gmail.com	813-484-4673
Young Entrepreneurs (Mondays @ 2:00)	<p>Class Description</p> <p>Students will acquire foundational business concepts, learn economic and mathematic concepts, and apply those concepts to a new business idea. Real life examples are important to use when educating students. This course will take them through an entrepreneurial journey of creating their own business, producing a product, or offering a service, and marketing and selling to their peers. This course encompasses a variety of basic life skills such as money management, business development, marketing campaigns, and friendly competition. Entrepreneurs in the Tampa Bay area will be invited to speak to students in class and will be asked to have students to visit their business. This program helps students build educational, creative, and technical skills in the STEW related and social entrepreneurship field. A field trip to JA Finance Park in April can be planned if most of the class is interested. Cost is approximately \$15 per person. One parent volunteer is needed for the field trip. If you are interested, please let me know.</p> <p>Communication</p> <p>I will send emails, when necessary, but most of the time we will communicate via the Remind.com app. **More information about this will be given at the beginning of the school year.</p> <p>Grades/Homework</p> <p>Generally, homework will not be assigned, unless students need to complete a class assignment or prepare for an upcoming class. A certificate of completion will be given at the end of the year.</p> <p>Recommended Resources</p> <ol style="list-style-type: none"> 1. Better Than a Lemonade Stand!
