BLACK ANGUS YEARLING BULLS

Private Treaty Sale - Equal Opportunity to Bid On Every Bull
BASE PRICE (Volume Discounts)

FEBRUARY 11, 2017

*All bulls in this sale have been **ZOETIS HD 50K** tested!*

BULLS CAN BE SEEN AT THE FARM

Directions from DeSmet:

8 miles west • 3 miles south on 425th Ave.

1/4 miles west on 211th St.

2017 YEARLING ANGUS BULL SALE

Term Explanation (All EPD information is from the American Angus Association)

CED - Calving Ease Direct - Expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

BW - Birth Weight EPD predicts the difference in average birth weight of a bull's calves compared to calves of another bull. Reported in pounds, a lower number is desirable.

WW - Weaning Weight EPD predicts the difference in average 205-day weight of a bull's progeny compared to calves of another bull. Reported in pounds, a higher number is desirable.

YW - Yearling Weight EPD predicts the difference in average 365-day weight of a bull's progeny compared to progeny of another bull. Reported in pounds, a higher number is generally desirable.

SC - Scrotal Circumference - The SC EPD predicts the difference in yearling scrotal circumference of a bull's male progeny compared to progeny of another bull. Reported in centimeters, a larger number is desirable.

HD 50K - ALL BULLS IN THIS SALE HAVE BEEN ZOETIS HD 50K TESTED! This new HD 50K for Angus provides MVPs on 16 traits using more than 50,000 DNA markers, providing the most reliable genomic predictions today.

IMF - Percent Intramuscular Fat EPD reflects differences in transmitting ability between animals for intramuscular fat.

REA (Rib Eye Area) - The adjusted Rib Eye Area of a bull's progeny. The EPD is expressed in square inches.*

RADG - Residual Average Daily Gain - Expressed in pounds per day; is a predictor of a sire's genetic ability for post weaning gain in future progeny compared to that of other sires, given a constant amount of feed consumed.

\$W - Weaned Calf Value - An index value expressed in dollars per head; is the expected average difference in future progeny performances for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk and mature cow size.

\$F - Feedlot Value - An index value expressed in dollars per head; is the expected average difference in future progeny performance for post weaning merit compared to progeny of other sires.

\$G - Grid Value - An index value expressed in dollars per head; is the expected average difference in future progeny performance for carcass grid merit. Compared to progeny of other sires.

\$B - Beef Value - An index value expressed in dollars per head; is the expected average difference in future progeny performance for post weaning and carcass value compared to progeny of other sires.

The Bulls we are offering are free of all known genetic defects as monitored by the American Angus Association.

SALE FORMAT

- Registration starts at 12:00 PM Saturday, February 11, 2017.
- Registration is the Redstone Feeders shop: 3.25 miles south of Manchester of 425th Ave
- No need to stand in line to register first
- The first person gets to pick 3 bulls, then anyone interested is one of these 3 bulls has a chance to bid on that bull with a private auction between these men.
- Bulls can be kept free at the ranch until May 1st
- Pay when you pick up your bulls.
- Registration papers available upon request.
- All bulls will be semen tested and guaranteed for one breeding season.
- Lunch will be served at 12:00 PM.

 = heifer bull

- WELCOME -

Welcome to Wilkinson Ranch's Annual Private Treaty Sale. Wilkinson Ranch is a family-owned and operated ranch. We know it is important to the costumers that the bulls you are selecting are born and raised here on our ranch.

The ranch consists of the Father and Mother, Bill and Mary, Sons Dan and Mark and families, Tim Gruis, and our Nephew Nick. Our daughter, Vicki, helps with the bull books, A.I.ing and is the bookkeeper for Redstone Feeders. We are partners in Redstone Feeders, a feedlot operation, the complex where the bull sale is held. Family is an important part of our operation, and has been a big part of our success. We have a strong work ethic, which motivates us to set goals for our operation and industry for the next generation.

We select our bulls from over 900 dams. We have 50+ Pathfinder cows every year. Our cattle are bred for quality and genetic makeup, which results in the mother's having great longevity in the herd and can function in a real world of grazing grass and cornstalks. Their offspring will add real value in what the market demands. We take great pride in the maternal values we have developed on our cow herd.

We A.I. about 200 heifers and 360 cows every year selecting A.I. sires with our costumers in mind. With the wide use of Artificial Inseminations, DNA and 50K Testing, we are in the information age of the cattle business. You have more tools than ever to help you in making your genetic selection. Combining these tools with the cowman's eye can take you to the future.

We think by continually adding more values to our bulls, the cattle industry, as a whole will be better by making people's eating experience a great one each and every time they consume our products

Thank you for your interest and please feel free to call with any questions.
