

Fiscal Management Goals (philosophical)

The quantity and quality of learning programs are directly dependent on the funding provided and the effective, efficient management of these funds. It will be the responsibility of the Business Manager under the direction of the Administrative Director to see that NWBOCES fiscal management methods are up-to-date and modeled after the best accepted business practices in order to serve the goal of modern educational programs for the students of NWBOCES.

The Board recognizes the important trust it has been given with the responsibility of managing a large amount of public resources. As trustee of local, state, and federal funds allocated for use in public education, the Board gives the Administrative Director the responsibility to oversee the expenditure of these funds.
