have been bred in America and since NASS  
controls breeding, obvious and enormous  
progress has been made. This is thanks to all  
those who have observed strict breeding  
regulations in the USA. But great respect is  
also due to Adele Furby who with much  
perseverance and personal sacrifice has  
pursued the interests of the Shagya-Ara-  
bian horse in the USA.

(AV) and her daughter by \*Oman. Surroor,  
measuring 157 cm (15.2hh) and of astound-  
ing calibre could have held her own in any  
Shagya class. She averaged 7.5 marks.  
At the airport in Montreal the inspection  
group broke up; the Venezuelans flew to  
South America, Adele Furby went back to  
Montana and the Europeans flew to Zurich.  
We agreed that in the short time Shagyas

concluded from page 3

best one was \*Kornelia by Kohelian I (DK)  
out of 56 Shagteh (DK) by Shagya I (DK),  
bred by Ulla Nyegaard.  
Early on Monday morning at Martina
