

YOUR DONATIONS TO THE 2<sup>ND</sup> ANNUAL SCOUT ALL-OUT 5K TO REWARD  
THE POLITICALLY CORRECT FACTOTUM OF LFHS

September 10,2021

It has come to our attention that donations to the [LFHS 5-K run](#), set for September 18, 2021, which are supposed to go toward student class accounts for student use, will be diverted to the leftist “Champion of Change” Scholarship.

This diversion of funds is the only known diversion of student-raised funds from student class accounts to any of the [many private scholarships offered to LFHS students](#).

The [“Champion of Change” Scholarship](#) was apparently originally started and funded by some unknown, unnamed number of D115 parents who wanted to honor the controversial, highly polarizing out-going LFHS principal, Chala Holland. Dr. Holland’s [hiring and tenure at LFHS](#) were marked by several controversies, among them: her secretive, rushed hiring by disgraced outgoing Superintendent Mike Simeck, what many viewed as racist remarks on her subsequently scrubbed Facebook page which she never disavowed, and her subsequent advocacy for and implementation of leftist staff and student indoctrination in the highly controversial “critical race theory”, to name only a few.

The “Champion of Change” Scholarship award is meant for the LFHS junior or senior who best advocates for equity and inclusion in health care, education, civil and human rights and advocates “inclusion”, “diversity”, and “justice.” [See the YouTube video at 23:50.](#)

In other words, the student who thinks for himself or herself and rejects critical race theory, rejects radical feminism, rejects the wholesale acceptance of gender dysphoria as normative, favors liberty over equity, equality of opportunity over equality of outcome, and has discerned that “human rights” apply, in even some small degree, to an unborn human, need not apply. How’s that for inclusion and diversity?

Maybe the “Champion of Change” founders, like the founders of every other private scholarship at LFHS, could donate their own “change” instead of wresting it from the freshmen, sophomores, juniors and seniors who work so hard to raise money for their own class projects.

Is the irony of their clearly inequitable and unjust money grab totally lost on them?
