

Trailer Measurements

6' Wide Measurements

Interior Measurements:

Subtract 3" from size = interior length

Example: 6x12 = 11'9" interior length

Plus add a 20" V nose

68" interior width

75" interior height

Rear Door Entry Measurements:

62" wide rear door opening

60" between the cables

69" high rear door opening

Exterior Measurements:

Add 3'6" to box length for tongue

Example: 6x12 = 15'6" exterior length

7'6" total width (includes fenders)

8'2" total exterior height

(8' without roof vent)

Ground clearance 14" to bottom of frame

7' Wide Measurements

Interior Measurements:

Subtract 3" from size = interior length

Example: 7x16 = 15'9" interior length

Plus add a 20" V-nose
80" interior width
75" interior height

Rear Door Entry Measurements:

75" wide door opening
72" between the cables
69" high rear door opening

Exterior Measurements:

Add 3'6" to box length for tongue
Example: 7x16 = 19'6" total length
8'6" total width (includes fenders)
8'4" total exterior height
(8'2" without roof vent)
Ground clearance 14" to bottom of frame

8.5' Wide Measurements

Interior Measurements:

Subtract 3" from size = interior length
Example: 8.5x20 = 19'9" interior length

Plus add a 24" V-nose

8' interior width from wall to wall
83.5" between wheel wells
Interior wheel wells 6"W x 9"H x 72"L
6'6" interior height

Rear Door Entry Measurements:

90" wide rear door opening
87.5" between the cables
74" high rear door opening

Exterior Measurements:

Add 3'6" to box length for tongue
Example: 8.5x20 = 23'6" total length
8'6" total exterior width
8'7" total exterior height or 8'5" no roof vent
Ground clearance 15" to bottom of frame
