We don't offer Pride daughters for sale very often but we wanted to celebrate 2020 with this gorgeous offering. If you like them sweet and personable, Snow Crystal is for you. Not only is she beautiful to look at, she is very curious and calm by nature and very willing to go on nature walks. Snow Crystal comes by her exotic looks naturally....she carries the unmistakable stamp of her sire Pride, throw in a touch of Argentine genetics from her dam for added coverage and bone. Side note: CVL Pride's Marquis Dymond also carries Argentine genetics and we saw how she grew up! Snow Crystal's sire Pride and her dam Akiah are large in stature (47" & 46") and we fully expect Crystal to turn out the same.
