To Whom It May Concern:

**Re: Letter of Reference – Mike Paul & Edge Manufacturing Corporation**

Lower Similkameen Community Services Society is pleased to recommend the products and services of Edge Manufacturing Corporation.

Edge Manufacturing Corporation provided and installed beautiful custom stainless steel cabinetry – uppers, lowers, and backsplash, as part of a kitchen upgrade at our Assisted Living community in Keremeos.

It was important for our residents and Food Services team that the kitchen upgrade project was completed in a timely fashion, with good coordination and communication amongst the other service providers, including construction, electrical, and plumbing.

Mike Paul and Edge Manufacturing were prompt, courteous, friendly, independently liaised with the other team members and service providers, and provided a great product for us right on schedule. Mike and his team ensured that our Food Services staff were satisfied, and well informed regarding the care and maintenance of the installed product.

The quotation from Edge Manufacturing was competitive, and as with any retrofit, required some creativity. Lower Similkameen Community Services Society is very satisfied with the results. We appreciate that Mike checked in on us in the months following the installation to ensure ongoing satisfaction.

We have no hesitation in recommending Edge Manufacturing Corporation. We are grateful to have this high caliber company available to us here in the South Okanagan/Similkameen, and hope to have the opportunity to work with Mike and Edge Manufacturing again in the future.

Please contact me if you have any questions about our experience.

Sincerely,

Sarah Martin  
Housing Coordinator & Administrative Support
