End LEGALIZED GOVERNMENT THEFT Now

Franklin - Oct 21, 2015, Wisconsin GrandSons of Liberty and the ACLU-Wisconsin chapter team up to fight Legalized Government Theft. The government can take your property without ever charging you with a crime. It's called Civil Asset Forfeiture and it is where government agencies can seize your cash, your car, your home, or any other personal property that they can sell to pad their budget. Abuses of Civil Asset Forfeiture statues are notorious both within Wisconsin and around the USA.

To help educate the general public, the Wisconsin GrandSons of Liberty and the ACLU-Wisconsin chapter are hosting educational town hall meetings. They have already held four successful events in Hales Corners, Oak Creek, and De Pere.

The next event is on Wednesday, October 21, 2015 from 6pm to 7:30pm at Carthage College in the Todd Wehr Center in Jockey Room B. Carthage College is in Kenosha, WI.

Nearly everyone agrees that when the police seize your vehicle or cash by means of civil asset forfeiture they violate your rights and pervert the criminal justice system. These educational town hall meetings cover the intended use of Civil Asset Forfeiture, the abuses that have arisen and earned it the nickname LEGALIZED GOVERNMENT THEFT; plus how we can urge and encourage our legislators to make meaningful reforms like those accomplished in New Mexico earlier this year.
