

INSPIRE

Be Involved!

Complete an employer profile on the Inspire Business-Education online platform and connect with middle school and high school students throughout the state!

What is Inspire?

- A place where employers can help shape the future talent pipeline and highlight local opportunities.
- A secure platform for employers to share information with students and schools about the work they do and the skills they need.
- An opportunity for students to engage with employer profiles and career coaches to see how their pathways connect with businesses and organizations in their community.

Why Build a Profile?

- Connect industry with education through the ability to target student profiles that match your needs.
- Engage with students in a safe space where they can ask questions of real working people in their community.
- Promote apprenticeship opportunities, networking connections, and upcoming events.

Statewide Connections

The Regional Leadership Council (RLC) of the Regional Economic Development Organizations (REDOs) will develop and manage operating infrastructure and stakeholder collaboration for engaging and onboarding employers and businesses into Inspire. Once established, all employer databases in each region will be connected statewide.

To build a profile, contact:
