Scheffer Andrew Ltd.
Planners & Engineers

Junior Engineer/Technologist - Edmonton

Scheffer Andrew Ltd. is currently seeking a Junior Engineer with transportation and land development experience to join our team. The successful candidate should have 1-4 years' experience in land development engineering design.

Scheffer Andrew Ltd. is a medium sized engineering and planning consulting firm, which has operated in Western Canada, primarily Alberta, for over 40 years. Our work focuses on municipal, land development and transportation engineering.

Duties of this position will include, and are not limited to:

- Delivering projects within established timeframes and budgets.
- Surveying, inspection and contract administration for construction projects in the Edmonton region, including close liaison with City Inspection staff.
- Assistance with design of land development projects that are assigned, including coordination with sub-consultants and City approval authorities as required.
- Water resources engineering for storm water management projects and water distribution systems.
- Assistance with Traffic Impact Assessments.
- Planning, organizing, designing to best serve the needs of our clients.
- Computer Assisted Design and Drafting duties, using AutoCad.
- Coordination with the Clients as it falls within your scope of work, to ensure the Client's needs are fulfilled.

The ideal candidate will have:

- A degree or Diploma in Engineering from a recognized school with a minimum of 1 year of civil engineering experience.
- Be immediately qualified to be registered with APEGA or ASET as an EIT, TT or CET.
- Knowledge in municipal, transportation, traffic and/or land development engineering design, including design of municipal and related infrastructure including sewage, water, roads, storm water, and drainage.
- Some experience in construction and contract administration.
- Ability to build relationships with new and existing clients.
- Exceptional leadership and communication abilities.
