

HAVURAT YISRAEL

September 2019

Elul 5779

Dear Friends:

Throughout the year you have demonstrated your loyalty and support for Havurat and we cherish your friendship through a challenging year. Together, we have continued our classes, our innovative programming and our inspiring services. However, the most beautiful achievement has been--as always--keeping a community of friends and people who care about one another in a very special way.

We write to you now to continue your support of Havurat by making a pledge to our Kol Nidre campaign. Through this simple choice you will be affecting positively many lives and, as members of this community, your lives as well. Please think generously. Our needs are great.

A good way to think of an amount is by thinking how much you could give each week and multiply that by the weeks of the year (x52) Pledging an amount does not mean that you must pay it all at once. In fact, you may choose to pay in several installments throughout the year or make a monthly payment on your credit card. Please call the office or mail us with your pledge card before Yom Kippur.

Wishing you a happy, healthy, prosperous New Year.

Sincerely,

Jack Goldhaber
President

David Algaze
Rabbi
