

PI/CPC is NOT Just a Committee...

- **It is EACH OF US** and every interaction we do or do not have with the members of the public who know loved ones struggling with alcoholism.
- **It is EACH OF US** and every opportunity we do or do not take, to share our experience, strength and hope in A.A. to professionals WE KNOW who work with problem drinkers.
- **It is EACH OF US** and our behaviors when interacting with family and friends who know we are members.

Are EACH OF US providing Public Information helpful to reach still-suffering problem drinkers and their loved ones,
or are we not?
