ALCOHOL and CRIME in  
WYOMING

**Wyoming Association of Sheriffs  
and Chiefs of Police**

# WYOMING DEPARTMENT OF TRANSPORTATION – Highway Safety Program

## ALCOHOL AND CRIME IN WYOMING: 2021

April 2022

The analysis of the data collected by the Wyoming Association of Sheriffs and Chiefs of Police and the printing of this report was made possible through the assistance of grant funds received from the Wyoming Department of Transportation – Highway Safety Program. The Project was managed by Johnson and Associates of Douglas, Wyoming. The report was authored by Ernest L. Johnson, Director of Services.

## PREFACE

This is the second year in a row that a Preface has been included in this report. It was necessary to do so because of the extraordinary changes to everyday life brought about by the COVID-19 pandemic in 2020 and the subsequent Delta and Omicron variants in 2021. These changes must be considered when comparing arrest statistics with previous years.

Disagreement exists among the health experts on whether the virus in our country, and in our state, has transitioned into the endemic stage – meaning that COVID-19 may never disappear and that it may be with us forever. However, there is little disagreement in the fact that this virus has altered how we live our lives and that it will continue to do so in the future. The “new normal” requires the creation of a new baseline for comparing and analyzing arrest data in Wyoming.

Nationally, it was estimated that alcohol consumption during the early months of the pandemic increased by 14%<sup>1</sup>. In Wyoming, alcohol consumption has also shown an increase even though state and local health orders closed or restricted occupancy and hours of operation for liquor establishments for much of the first year of the pandemic. The Liquor Division of the Wyoming Department of Revenue reported an increase in liquor sales of \$11,728,940 in 2020 from the previous year and an additional increase of \$9,187,873 in 2021 from 2020 sales. Liquor sales in Wyoming in 2021 totaled \$146,847,867.

The Wyoming Association of Sheriffs and Chiefs of Police has been collecting substance-involved arrest data in Wyoming and publishing the results each year since 2005. This collected crime data has been useful for identifying trends for substance abuse in Wyoming communities. However, the years 2020 and 2021 were unlike any other in the previous sixteen years. They were “trend busters” in many respects. Whether it was a result of the COVID-19 pandemic or just a continuation of the increase that was experienced in 2019 - the percentage of alcohol-involved arrests in Wyoming increased in 2020 and again in 2021.

## INTRODUCTION

The Wyoming Association of Sheriffs and Chiefs of Police has been collecting substance-related data from persons booked into county detention facilities in Wyoming since 2005. The data-collection process has been refined since that initial effort and has now been institutionalized as a part of the book-in process year-round for all custodial arrests.

The Association instituted a process in 2019 that allows agencies to submit reports electronically and

<sup>1</sup> As reported in a study published in the Journal of American Medical Association Network Open.

## Alcohol and Crime in Wyoming - 2021

online. This data-collection method replaced the hand-filled paper forms that were submitted weekly by postal mail. Although this electronic method of data-collection provides for real-time reporting, adds additional data fields to the reporting form and promotes more complete reporting, one agency did not submit reporting forms – and a few failed to do so for a significant number of custodial arrests.

This report analyzes the arrests that were reported as a part of this project and this analysis may not represent the actual total number of arrests made in some counties or jurisdictions. Please contact your Sheriff or Police Chief if you have questions about the data reported for your community.

This report contains an analysis of substance-related data for “FIELD” arrests in twenty-three counties in Wyoming from January 1 through December 31, 2021. “Field” arrests are arrests that are made on-scene during a citizen encounter with law enforcement and more likely to have substance involvement. It does not include arrests made by warrant. There were an additional 3,981 reported arrests that were made by warrant. These are mostly re-arrest situations ordered by the court and comprised approximately 36% of all reported book-ins in county detention facilities in Wyoming in 2021.

Information was collected from a total of 7,153 persons who were arrested and subsequently detained in a county detention facility as a result of a field encounter with law enforcement. Information has now been collected from a total of 240,940 persons who were arrested and subsequently detained in a detention facility in Wyoming during the last seventeen years.

The Wyoming Association of Sheriffs and Chiefs of Police publish the results and analysis of the data-collection efforts each year in three separate reports: the main report which provides statewide statistics and averages and comparison of county statistics in specific categories; a supplemental report which provides county, community and local law enforcement agency specific statistics; and an Executive Summary which provides selected statistics, information and highlights from the main report.

These reports can be accessed online on the following websites: <http://wascop.com> and <http://jandaconsulting.com>

## EXECUTIVE SUMMARY

This Executive Summary highlights a few of the significant findings contained in this report. It focuses on issues that are of obvious concern or which may be of greater public interest; however, a careful review of other relevant findings and statistics contained in the main body of this report is essential to gain a more complete perspective of the impact of alcohol on crime in Wyoming.

The profile of the average person taken to jail in Wyoming continues to be relatively consistent with previous years. About three out of four times it was a male (females have increased incrementally in recent years), the average age is 37. 18% of the time it was an out-of-state visitor and 7% of the time it was an in-state visitor. Juvenile arrests resulting in detention in a detention facility accounted for less than 1% of the total reported custodial arrests (93 out of 7,153).

A review of the data collected from persons arrested and subsequently taken to jail indicates that Wyoming continues to be relatively safe from what is generally considered to be “serious” crime. The number of persons who are arrested for felonies is relatively low when compared to the number of persons arrested for minor crimes (misdemeanors). However, felony arrests have increased incrementally in recent years and now account for 16% of the reported arrests statewide.

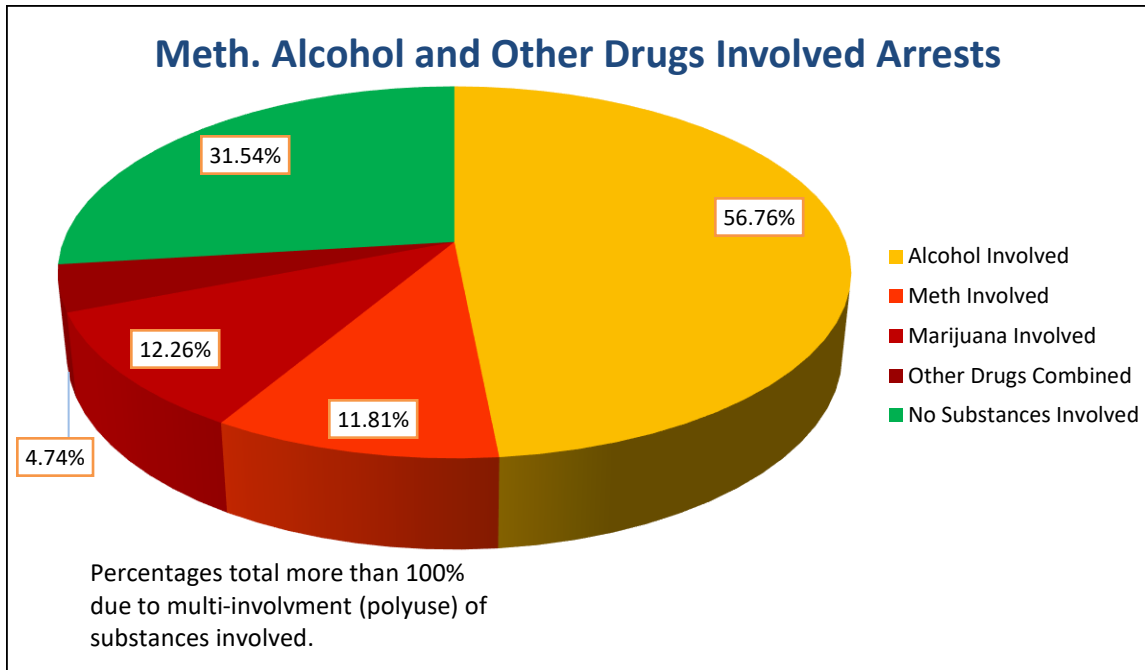

enforcement officers who patrol the streets and highways and who respond to calls for service in Wyoming already know from experience – alcohol is the contributing factor most often present in situations that result in someone going to jail.

*Although Wyoming is relatively “safe” from what is generally considered to be serious crime (felonies), the high percentage of alcohol-involved arrests, the inordinate number of arrests for public intoxication and driving under the influence, and the high levels of blood alcohol content for drivers arrested for being impaired represent real and significant threats to public safety.*

The information collected from a total of 7,153 persons who were arrested and subsequently detained in a county detention facility in Wyoming during 2021 confirms what law

**SUMMARY OF REPORTED SUBSTANCE-INVOLVED ARREST STATISTICS FOR 2021:**

- Alcohol was involved in 56.76% of all reported custodial arrests.
- Methamphetamine was involved in 11.81% of the 7,153 reported arrests.
- Marijuana was involved in 12.26% of all reported custodial arrests.
- Drugs were involved in 25.53% of all reported arrests.
- Arrests reported for public intoxication accounted for 15.88% of all arrests.
- The average blood alcohol content for persons arrested for public intoxication was 0.2374.
- Driving under the influence arrests accounted for 32.36% of all reported arrests.
- The average reported blood alcohol content for DUI arrests statewide was 0.1639<sup>2</sup>
- 51% of persons arrested for DUI had a reported BAC level above 0.16 and 14% had a BAC of 0.24 or greater.

<sup>2</sup> In Wyoming, a person driving with a blood alcohol content of 0.08 is legally presumed to be impaired.

## Alcohol and Crime in Wyoming - 2021

- The average reported BAC for 314 persons who were arrested for DUI after being involved in a traffic crash was 0.1749.
- The age group with the highest percentage of DUI arrests was age 31-35 (15%), followed by age 21-25 (14%) and 26-30 (14%).

***To grasp the significance of the blood alcohol content statistics, it should be noted that a physically fit male who weighs 180 pounds would have to consume at least seven drinks in one hour to achieve a BAC of 0.15 – a female weighing 120 pounds would have to consume four drinks in one hour.***

Please refer to the Alcohol Impairment Educational Guides for males and females in the Attachments Section of this report for information about the level of impairment for other body weights and drinks consumed.

### TRENDS ANALYSIS

Even though the number of alcohol-involved arrests has decreased significantly during the last seventeen years, alcohol is still the drug with the greatest impact on crime in Wyoming. Incidents of assaults, disturbances, child abuse, and domestic violence all are heavily influenced by alcohol. And for the third consecutive year, the percentage of alcohol-involved arrests increased from each previous year (from 40.52% in 2018, to 48.41% in 2019, to 52.22% in 2020, to 56.76% in 2021).

***The statistics in Wyoming collected during the last ten years clearly indicate that the two crimes that account for the greatest number of custodial arrests in Wyoming are driving under the influence (DUI) and public intoxication.*** Together these two crimes alone have accounted for an average of 45% of all custodial arrests in Wyoming for the last ten years.

## Alcohol and Crime in Wyoming - 2021

**Driving Under the Influence:** Driving Under the Influence is, unquestionably, the crime that has the greatest impact and consequence in Wyoming. It accounts for the greatest number of custodial arrests and is the cause of more deaths and serious injuries than any other crime. DUI arrests account for an approximate average of 28% of all custodial arrests in Wyoming each year and a third of all traffic fatalities are the result of impaired driving.

In addition, 34.25% percent of persons arrested for DUI in 2021 had been arrested for DUI previously.

The number and percentage of DUI arrests have decreased statewide during the previous ten years; however, the average blood alcohol content (BAC) has remained at twice the presumptive level of impairment while the involvement of drugs has increased. DUI arrests in several counties have consistently been above the statewide average.

**Public Intoxication:** Public intoxication is viewed by some as just a public nuisance crime; however, incidents of public intoxication present real and significant threats to public safety. The average Blood Alcohol Content (BAC) for Public Intoxication arrests reported in Wyoming in 2021 was 0.2374 – nearly three times the presumptive level for impairment. In some counties, the average BAC for public intoxication arrests in 2021 was even higher.

Alcohol Intoxication at these levels often “fuels” behavior that result in more serious crimes than just disturbances and nuisances.

## Alcohol and Crime in Wyoming - 2021

**EMERGING TRENDS IN THE TYPE OF SUBSTANCE INVOLVED IN CRIME:** Alcohol and/or other drugs were involved in 68.46% of the 7,135 custodial arrests in 2021. Although alcohol continues to be the drug most often present in situations which result in someone going to jail, drug-involved arrests in Wyoming have increased significantly in recent years.

During the last eleven years in which data is available for a calendar-year period (2011-2021), *the number and percentage of alcohol-involved arrests have continued to decrease - while the number and percentage of other drug-involved arrests have increased.*

Alcohol-involved arrests in 2021 were 9,269 fewer in number than in 2011 (a 69% decrease).

*The number of meth-involved arrests has increased each year since 2011 and has more than doubled since then.* There were 845 meth-involved arrests in 2021 (there were 420 in 2011).

The four counties with the highest number of reported arrests involving meth in 2021 were: 1) Fremont – 147; 2) Natrona – 135; 3) Laramie – 93; and 4) Sweetwater – 92.

The Association began collecting marijuana-involved arrest data in March of 2014 to assess the impact on public safety in Wyoming from Colorado's legalization of marijuana. The number of marijuana-involved arrests increased the first three years, then began to decrease.

Marijuana-involved arrests have decreased in number and percentage of arrests since 2017. In 2018, 2019, 2020 and 2021, the number and percentage of arrests were less than in 2017: 14% (1,957) in 2017; 12.47% (1,542) in 2018; 12.09% (1,425) in 2019; 12.98% (1,092) in 2020; and 12.26% (877) in 2021.

The four counties with the highest number of arrests involving marijuana in 2021 were: 1) Sweetwater – 107; 2) Fremont – 106; 3) Laramie – 92; and 4) Carbon – 91.

# Alcohol and Crime in Wyoming - 2021

## Substance-Involved Arrests: Number of Total Arrests

Alcohol Involved	Meth Involved	Marijuana Involved	Drug Involved	Public Intoxication	DUI
2017 6,660	2017 1,351	2017 1,957	2017 3,223	2017 1,858	2017 3,628
2018 5,011	2018 1,404	2018 1,542	2018 2,776	2018 1,597	2018 3,355
2019 5,707	2019 1,250	2019 1,425	2019 2,475	2019 1,517	2019 3,275
2020 4,175	2020 826	2020 1,092	2020 2,034	2020 828	2020 2,666
2021 4,060	2021 845	2021 877	2021 1,826	2021 1,136	2021 2,315

## Alcohol and Crime in Wyoming - 2021

**TRENDS IN ARRESTS FOR IMPAIRED DRIVING:** The statistics for persons arrested for driving while impaired mirrors the recent trends for all substance-involved arrests. The percentage and number of persons arrested for driving impaired has decreased during the last ten years - while the percentage for other drug-involvement for impaired driving arrests has increased.

The average blood alcohol content for persons arrested for impaired driving during the last ten years remains at double the presumptive level for impairment – while the average blood alcohol content for persons arrested for public intoxication remains at almost three times the presumptive level.

### Driving Under the Influence Arrests: 2017 - 2021

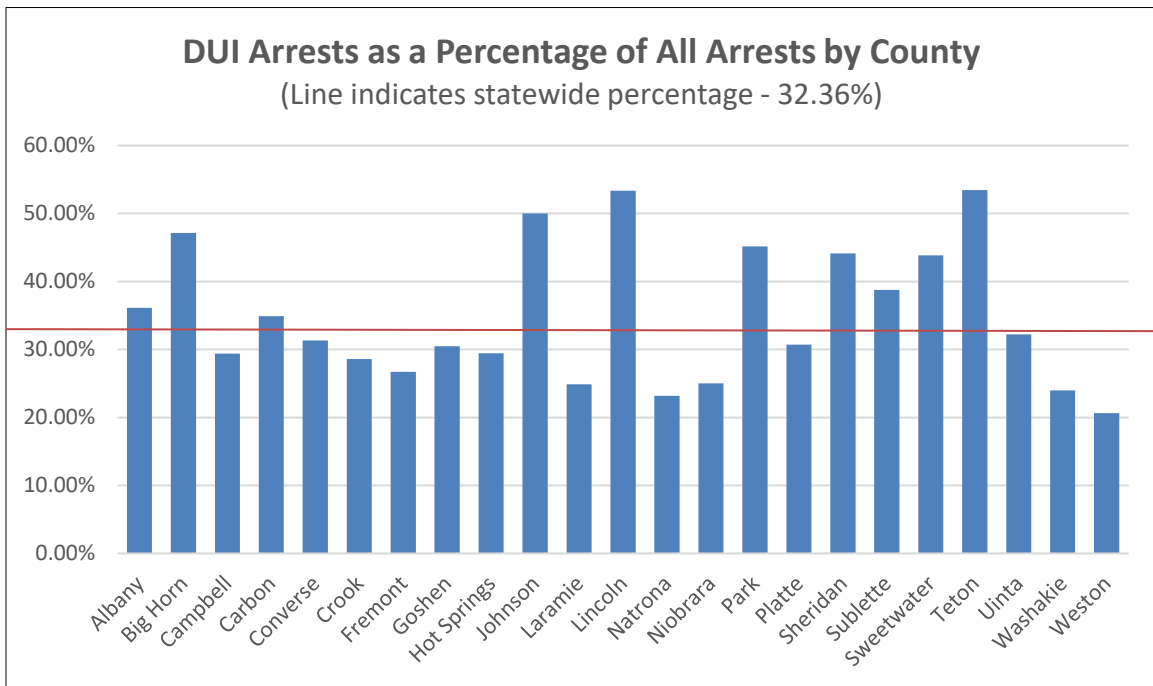

### DUI Arrests with Reported BAC in Each Range

(1,240 reported BAC's)

## Alcohol and Crime in Wyoming - 2021

Although the number of DUI arrests have decreased statewide during the last ten years, the percentage of DUI arrests in several counties in the state have been consistently above the statewide average.

**PUBLIC CONCERNS**

*The statistics contained in this report identify significant public safety issues which merit further discussion, analysis and action by local law enforcement, citizens, and state/community leaders.*

The high percentage of alcohol involved arrests (57%), the inordinate number of arrests for public intoxication (1,136) and DUI (2,315) and the high levels of BAC recorded for these individuals (average BAC: 0.2374 for public intoxication and 0.1639 for DUI) appear to validate the concerns about alcohol abuse expressed by Wyoming residents in the most recent statewide public opinion survey<sup>3</sup>.

Some excerpts from the survey that involved 4,798 Wyoming residents:

- 79.7% view alcohol abuse by Wyoming adults as a serious or somewhat serious problem
- When Wyoming residents were asked whether they would support a state law that would prohibit selling or serving alcohol to someone who is obviously intoxicated:
  - 64.3% strongly supported such a law.
  - 17.9% somewhat supported such a law.
- 84.5% of Wyoming residents believe that drinking and driving in their community is a serious or somewhat serious problem.

<sup>3</sup> Wyoming Alcohol Use Issues Survey, Wyoming Survey & Analysis Center, November 2012

## SIGNIFICANT STATISTICS AND FINDINGS

This report provides statewide statistics and averages, along with comparisons of county statistics in specific categories. In addition, there are approximately one hundred pages of data in a supplemental report that provides county, community, and local law enforcement agency specific statistics.

Detailed charts and graphs included in the Data/Statistics section of this report are helpful in identifying trends involving alcohol-related arrest activity and provide a statistical picture of the circumstances which result in someone being arrested and subsequently taken to jail in Wyoming. The impact of substance abuse on crime statistics varies by county across the state. This report also includes a detailed analysis by county for comparison purposes.

Listed below are a few of the noteworthy statewide averages and county specific alcohol-related statistics and findings from the Data/Statistics section of this report.

\*\*\*\*\*

- **Alcohol was a factor in 57% of the custodial arrests in Wyoming.**
  - Counties with significantly higher statistics:
    - Teton – 83.62%
    - Fremont – 77.57%
    - Sheridan – 68.39%
  
- **Methamphetamine was involved in 11.81% of the arrests statewide.**
  - Counties with significantly higher number of meth-involved arrests:
    - Fremont - 147
    - Natrona – 135
    - Laramie – 93
  
- **Drugs (other than alcohol) were involved in 25.53% of the reported arrests statewide.**
  - Counties with significantly higher drug-involved arrests:
    - Fremont – 285
    - Laramie – 212
    - Natrona – 194
  
- **Marijuana was involved in 12.26% of the arrests statewide.**
  - Counties with significantly higher marijuana-involved arrests:
    - Sweetwater – 107
    - Fremont – 106
    - Laramie – 92
  
- **Arrests for Public Intoxication accounted for 15.88% of all arrests statewide.**
  - Counties with significantly higher statistics:
    - Fremont – 609 (38.17%)
    - Laramie – 108 (11.44%)
    - Sweetwater – 82 (16.05%)

## Alcohol and Crime in Wyoming - 2021

- **The average blood alcohol content for all persons arrested for public intoxication was 0.2374.**
  - Counties with significantly higher statistics:
    - Johnson – 0.3020
    - Weston – 0.2800
    - Laramie – 0.2700
- **Driving under the influence (DUI) arrests accounted for 32.36% of all arrests statewide.**
  - Counties with significantly higher statistics:
    - Teton – 53.45%
    - Lincoln – 53.37%
    - Johnson – 50.00%
- **18.32% of the arrests for DUI involved drugs.**
  - Counties with significantly higher statistics:
    - Platte – 42.86%
    - Niobrara – 33.33%
    - Carbon – 29.17%
- **The average blood alcohol content (BAC) reported for 2,315 persons arrested for driving under the influence statewide was 0.1639.**
  - Counties with significantly higher statistics:
    - Goshen – 0.1867
    - Sublette - 0.1807
    - Platte - 0.1792
- **22.61% of traffic crashes resulting in custodial arrests involved drugs.**
  - Counties with significantly higher number of drug-involved traffic crashes:
    - Sweetwater – 9
    - Sheridan – 8
    - Uinta – 8
- **The average BAC reported for 314 arrests involving traffic crashes that involved alcohol was 0.1749.**
- **51% of the persons arrested for driving under the influence had average blood alcohol content above 0.16.**
- **347 persons were arrested for DUI with a BAC of 0.20 or higher.**
- **178 persons were arrested for DUI with a BAC of 0.24 or higher.**
- **34.24% of persons arrested for DUI had been arrested for DUI previously.**

## JUVENILE/ UNDERAGE DATA

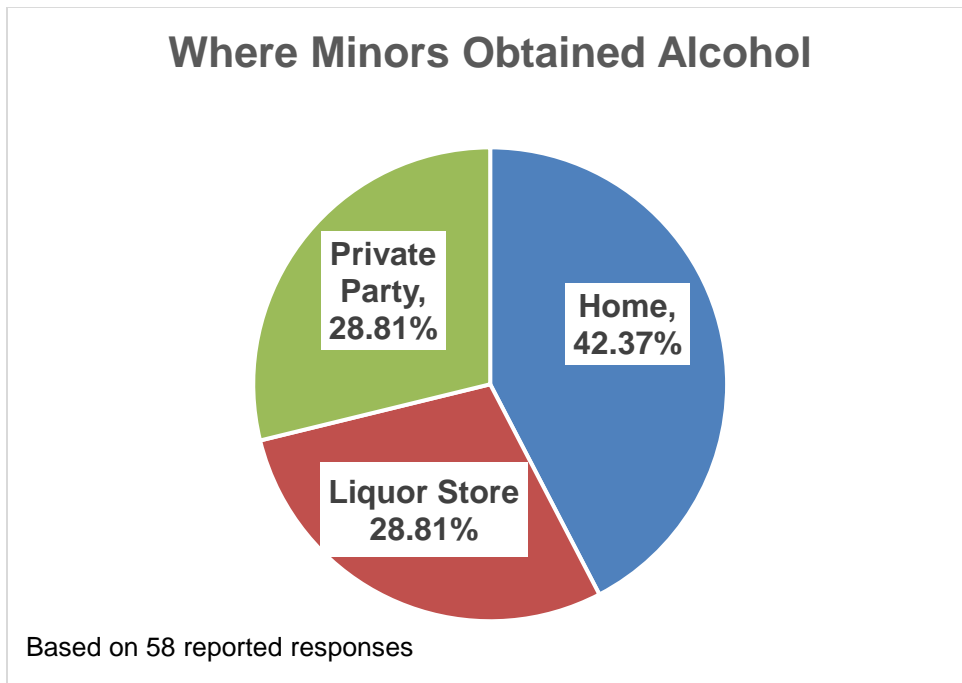

The data in this report does not represent a complete accounting of juvenile arrests as these arrests often do not result in detention in a county facility.

124 underage youth were taken into custody and placed in a detention center this year for being a minor in possession of alcohol. The average BAC was .1380.

130 underage youth were arrested for driving under the influence – 31 of these arrests involved drugs. The average BAC was .1331. Eight of the underage youth arrested for DUI were juveniles.

- 4% of all persons arrested for driving under the influence (DUI) were under the age of 21.
- Juveniles accounted for 1% of the arrests statewide (93 total).
- 62.37% of the juvenile arrests involved alcohol (58 total).
- Three of the juvenile arrests involved methamphetamine.
- Eleven of the juvenile arrests involved marijuana.
- 12.90% of the juvenile arrests involved drugs (12 total).
- 58 minors arrested for alcohol-related offenses reported obtaining alcohol at:

## PROJECT DESIGN AND IMPLEMENTATION

The Wyoming Association of Sheriffs and Chiefs of Police contracted with Johnson and Associates, a Wyoming based management consulting firm, to manage and staff this project – to create the master database, to analyze the data and to author the three reports. The Association has contracted with Johnson and Associates to manage and staff this project since its inception.

A task force comprised of administrators and detention facility personnel from each of the county law enforcement agencies involved in the initial data collection efforts in 2005 determined the scope and intent of the project and provided specific direction for its implementation. In the following years, Association members were involved in deciding the appropriate fields for collection of data, selecting the subject areas that would be targeted for analysis and refining the process and procedures for collecting the information.

The master database for this project was created in a manner that will allow “harvesting” of additional information in the future should a need arise. The data in this report is presented by “county” and by “department,” by actual numbers and percentages, and by various categories of interest. The information was assembled in this manner to assist law enforcement administrators, as well as community leaders, to better analyze the information and to facilitate follow-up inquiries of notable concerns.

## DATA COLLECTION

A one-page reporting form consisting of fill-in or checked boxes was constructed for this project and refined over the years. It is estimated that the form requires the booking and/or arresting officer two-to-three minutes to fill out during the book-in process. Specific information that is collected during the book-in process include: type of offense, whether alcohol was involved, whether drugs were involved, location of last consumption and point of sale, known blood alcohol content levels for arrests involving public intoxication, driving under the influence, minors in possession, and demographic information. (A sample of the reporting form is included in this report)

## Alcohol and Crime in Wyoming - 2021

In 2019, the Association transitioned from a hand-filled paper form submitted weekly by postal mail to an electronic form submitted online. The reporting form contains instructions for completing and processing the completed reporting forms. In addition, all agency staff who were assigned the responsibility to oversee their agencies' data collection were provided individual orientations.

A total of 7,153 reporting forms for "field" arrests were submitted by the twenty-three counties during the twelve-month data collection period January 1 through December 31, 2021. An additional 3,981 reporting forms were submitted for warrant arrests. These are mostly re-arrest situations ordered by the court and comprised approximately 36% of all reported book-ins in county detention facilities in Wyoming in 2021.

However, as mentioned previously in the INTRODUCTION section of this report, there was one agency that did not submit reports for this project – and several agencies that failed to do so for a significant number of custodial arrests. Park County Sheriff's Department decided in 2019 to not participate in this project and no longer submits reports.

This report analyzes the arrests that were reported as a part of this project and this analysis may not represent the actual total number of arrests made in some counties or jurisdictions. Please contact your Sheriff or Police Chief if you have questions about the data reported for your community.

### DATA /STATISTICS

All information contained in the reporting forms that were submitted by the participating counties was entered into a master data base by day and by month. This information was subsequently assembled by category, by county, and by department to facilitate appropriate comparisons and further analysis.

A detailed breakdown of information for each county is available in a separate Supplemental Report.<sup>4</sup> A sample of the county statistics is included in this report. Campbell County was selected as the sample to be included as this county generated the greatest number of arrest statistics.

The substance-related arrest data in this report is presented in a series of tables and graphs:

- ❖ Tables – Number of Arrests and Percentages
- ❖ Pie Chart – Methamphetamine, Alcohol and Other Drugs
- ❖ Tables – Felony/Misdemeanor Arrests Involving Alcohol
- ❖ Bar Graphs – Alcohol Arrests Percentages, BAC
- ❖ Pie Graphs – DUI, BAC, Traffic Crash Statistics
- ❖ Tables and Bar Graphs – Juvenile Statistics
- ❖ Pie Graph – Juvenile Demographics, Where Minors Obtain Alcohol
- ❖ Table – Campbell County Statistics (Sample County Statistics)

**PLEASE NOTE:** Cheyenne Police Department policy allows misdemeanor DWUI offenders to be cited and released if the arrestee’s vehicle has been impounded or turned over to a responsible adult and if the driver is released to a sober adult. These additional arrests statistics have not been included in the DUI statistics in this report (as they were not booked into a detention facility).

---

No public events named in alcohol collection reports.

### ACKNOWLEDGEMENTS

The Association instituted a data-collection process in 2019 whereby the arresting officer or book-in officer was able to submit an electronic reporting form to the Association at the time of the arrest. This replaced the use of hand-filled paper forms that were submitted by postal mail by each detention facility supervisor once a week.

This project was initiated in 2005 and continues to be accomplished due to the committed support of the law enforcement administrators in Wyoming and their generous commitment of agency resources. The day-to-day supervision and submittal of the project reporting forms and the individual efforts of every officer who filled out the reporting forms should be acknowledged as well. Their collective efforts were essential to the overall success of this project.

The following information is being collected in an effort to evaluate alcohol factors in custodial and DUI arrests in Wyoming. The data is used for statistical analysis purposes only. Please complete a separate submission for each person booked into your facility.

Complete the entries based on your knowledge of the case, personal observations, and/or questioning of the arrested person. The person should be advised no case sensitive information is being recorded.

Each agency is provided a final copy of the information available and may request statistical information at any time by contacting WASCOP. Thank you for your assistance in this vital project.

## PROJECT MANAGER VITA

### CONTACT INFORMATION:

Ernest L. Johnson, Director of Services  
Johnson & Associates  
1036 Durango  
Douglas, WY 82633  
Phone: (307) 351-8614  
E-mail: [eljohns1@gmail.com](mailto:eljohns1@gmail.com)

### RELATED EDUCATION & EXPERIENCE:

- Twenty-four years of experience as an administrator of a state agency with direct responsibility for budget development and administration, planning, organizing, directing, staffing, and program services delivery.
- Master's degree in Public Administration; over thirty-five years of experience training and working with executives to achieve excellence in government, manage and implement change, increase organizational effectiveness, and maximize program efficiency.
- Conducted in-depth management studies for criminal justice agencies for the states of Massachusetts and New Hampshire. These studies assessed the delivery of program services by agencies with statewide responsibilities and provided recommendations for increasing organizational efficiency and agency credibility.
- Over thirty-five years of experience in researching, writing, and administering a variety of federal and state grants. Grants involved more than several million dollars for a wide variety of purposes: personnel, equipment, training, research and providing services with targeted priorities.
- Extensive experience in researching, evaluating, and implementing a wide variety of projects. These projects varied in scope and duration, and many required the involvement and partnership of multiple agencies and personnel throughout the state, as well as the enactment of state legislation.
  - Evaluation performed for the Substance Abuse Division - WDH – “Responsible Server Training Program” – October 2002
  - Managed the Wyoming First Lady's Initiative to Reduce Underage Drinking – November 2004 to September 2006
  - Managed project and authored report: A Comprehensive Review of Alcohol State Statutes: Findings and Recommendations for Reducing Underage and Binge Drinking in Wyoming – 2008
  - Management Review of the Wyoming Seat Belt Coalition: Mission, Goals and Work Scope – September 2011
- Inducted into the Wyoming Association of Sheriffs and Chiefs of Police Law Enforcement Hall of Fame - 2011

## Alcohol and Crime in Wyoming - 2021

---

- Thirty years of experience in conducting a variety of feasibility studies.
  - Conducted numerous feasibility studies for the Wyoming Legislature.
  - Most recent feasibility study conducted for the Town of Wright: “Should the Town of Wright create its own Police Department?” May 2004
- Conducted executive level training for the US Department of Justice/ State Department:
  - Instructed a 40-hour training course entitled “The Office of Professional Responsibility” for the Lithuania National Police command staff - 2001.
  - Instructed an 80-hour training course entitled “Sex Crimes Investigations” for Investigators and Prosecutors in Lithuania - 2001
- Faculty - Criminal Justice Department - University of Wyoming (September 2000 to September 2012)
  - Criminal Justice Management, Concepts of Modern Policing, Ethics in the Administration of Justice, Criminal Justice Civil Liability, Politics and the Judicial Process, Criminal Courts and Processes, and Police Deviance.
- Management consultant for the Wyoming Association of Sheriffs and Chiefs of Police - Projects completed or currently in progress:
  - Evaluation of Alcohol Factors in Custodial Arrest in Wyoming – May 2005
  - Statewide Public Opinion Survey: Alcohol Issues and Policies (phone survey of 4,600 residents of Wyoming – Report released November 2006
  - Evaluation of Alcohol Factors in Custodial Arrests in Wyoming - 2006: Phase I (data collection), Phase II (Analysis, Findings and Strategies)
  - Evaluation of Alcohol Factors in Custodial Arrests in Wyoming – 2007, 2008, 2009
  - Alcohol and Crime in Wyoming: 2006 – 2008
  - Alcohol and Crime in Wyoming: 2010 - 2020
  - Wyoming Youth and Alcohol Reports: 2010-2020
  - Project Manager for the Enforcing Underage Drinking Laws Program – September 2007 to May 2009
  - Project Manager for WY-CIA Wyoming Communities in Action – Phase I, Phase II – September 2007 to May 2009
  - Project Manager for Reducing Underage Drinking and Driving – October 2007 to September 2009
  - Project Coordinator for Project Safe Neighborhoods in Wyoming: A national initiative directed by the US Department of Justice aimed at reducing gun crimes and violence in this country - 2006 through 2012.
- Facilitator/Coordinator for the Wyoming Seat Belt Coalition – December 2006 to 2014
- Administration and coordination of WYDOT-Highway Safety’s Selective Traffic Enforcement Program Grants for Wyoming law enforcement agencies– December 2008 to October 2020
- Facilitator for the Wyoming Safe Communities Project – FY 2012
- Facilitator/Coordinator for the Governor’s Council on Impaired Driving – December 2011 to October 2020
