

LIFETIME STEEL POST™

by Adjust-A-Gate™

Patented!

- Less digging than wood posts allowing quicker, more efficient installations.
- Less concrete for smaller post holes.
- No brackets needed.
- Aesthetically pleasing black posts compliment your wood fence - no need to hide.
- Easily replace rotted wood posts.

POST FOR WOOD OR COMPOSITE FENCING

NEVER REPLACE ANOTHER ROTTED POST EVER AGAIN!
Withstands sustained WIND SPEEDS UP TO 84 MPH

- **NEW IMPROVED PATENTED DESIGN**
- **Continuous Top Rail** - Protects fence from sagging and creates vertical strength for the rest of the fence.
- Works with **Adjust-A-Gate™** Steel Gate Frame kits.
- Post can be concealed if desired

- **Wider Flange**- larger grip area for added fence strength
- **Hurricane Clips**- attach to backer rail for high-wind and hurricane-prone areas. Sold separately.
- Galvanized or Black Powder-coated finish
- Custom color available with minimum quantity

GALVANIZED POST W/ TOP PLATE

Model #: LTP 76120
Size: 7'6" H x 4" W

Model #: LTP 80120
Size: 8' H x 4" W

BLACK POWDER-COATED POST W/ TOP PLATE

Model #: LTP 76220
Size: 7'6" H x 4" W

Model #: LTP 80220
Size: 8' H x 4" W

Lifetime Steel Post™ top flange allows a continuous top rail and larger surface to secure railings

Other posts need to terminate at each section, creating a weak spot

Hurricane Clips (sold separately) when properly installed will withstand sustained winds up to 84 mph

Works with **ADJUST-A-GATE™** Steel Gate Frame Systems
