CHAIR'S CORNER

by David McGan

We had a good kick-off to our 2016-2017 Dinner Meeting schedule, as we met at the Miller House in Owensboro on September 13th. Willy Zech presented an overview of Monte Carlo techniques as a tool for hypothesis testing and DOE.

Meeting at Tin Fish -- our October 11th meeting will be at the Tin Fish Restaurant in Newburgh. It's been a few years since we last met at the Tin Fish. And the food is always delicious!

Technical Presentation - this month's topic will be an **overview of the Key Changes of the ISO 9001:2015 QMS Standard**, which I am scheduled to present. We'll be comparing requirements of the earlier 2008 revision of ISO 9001 with the changes included in the now-current 2015 revision. If your company is currently ISO 9001 certified, you are impacted by this new revision. Some companies have already transitioned, some are in the process of transition, while others may be contemplating first-time registration or an upgrade to their ISO Quality Management system. This presentation will highlight some of the key changes that are included in the new Standard. I'll also briefly cover how the revision impacts the ISO/TS 16949 Automotive Standard. If your company falls into one of these categories, you'll no doubt be able to benefit from the information in this presentation. **Feel free to bring with you anyone in your company who may be involved in an upgrade to your company's QMS. It will be an informative evening.**

Election of Officers -- the October meeting is also when we have the annual election of Officers for 2017. We are seeing some new faces on our Leadership Committee, but there is still a place for you to serve, too. Feel free to speak to a current Section Leadership Committee member to discuss your potential area of interest. **Remember, this is a great way to get more involved in our Section, and earn additional RU's.**

We're looking forward to seeing you on October 11th.
