September 2, 2020

Dear Parents and Families:

Although the local schools are re-opening, Family Health Network will be unable to open the School Based Dental Program in the schools. Our state guidance for offering school dental services during the COVID-19 pandemic has not changed and due to safety concerns for our patients and staff we will not be able to perform dental services during normal school hours.

If you have a child currently **enrolled** in School Based Dental Program with a dental **emergency**, you can contact the FHN Dental Office:

Moravia Dental Office: 607-344-0052

During this time, any requests for dental records or inquiries about services can be directed to:

Family Health Network Administration: 607-753-3797

We will be in contact with school officials to communicate information about resuming services, and we will continue to keep you informed of any changes or updates to our School Based Dental Program.

Thank you for your understanding,

Family Health Network
School Based Dental Program Staff
