

You must **create a product** that demonstrates your understanding of the following big idea. After I review your product, you will **explain** these ideas in an interview.)

Assessment categories:

Content:

1. **Provide evidence** that matter is made of tiny pieces (atoms and molecules) that, by themselves, are too small to be seen with the unaided eye.

POP:

1. Product quality reflects proper thought and time spent on it. (3-point scale)
