

Pennypickle's Workshop is the home of Professor Phineas T. Pennypickle, Ph.D., scientist, time traveler and inventor of wacky and wonderful contraptions that amaze, delight, and educate children and adults alike. Every surface is occupied by pulleys, gears, cables, blueprints and stuff. There are secret passageways and puzzles, machines and gizmos. Professor Pennypickle and his faithful little mouse friend, Beaker, have lots of fun activities planned for you every month (and sometimes they are a surprise...there are WAY too many exciting happenings to list here!). Be sure to call the Professor's hotline at (951) 308-6376, or check his website at pennypickles.org for detailed information or to purchase advance tickets. Children must be accompanied by an adult 18 or older.
