I think that everything in our lives happens for a reason. We might not know why something that is happening to us really has to happen. In that moment we could be happy or we could feel sad, everything is possible, but I believe that sooner or later, at the right time, we find out why we needed these experiences – no matter if they are good or bad. They are meant to be there for us.

When I first met Zvonko, I knew from the very first beginning that he is a good person. He really wants to help as many people as possible to improve their life. I had some problems with my health. As a massage therapist, he offered me a massage and the massage helped me incredibly, but at the same time he explained to me that I am the one who is responsible for my body and for my life. So almost everything depends on me. Sometimes the truth is very difficult to accept, but I am thankful to him for showing me that I have to take care of myself better.

No matter how hard we try, sometimes we fall in the situation that we cannot help ourselves.

Mirjana's story is like this.

The story about a nice lady who was helping others all her life but now she needs help. When I heard her story, I knew immediately that I want and need to help her.

I offered a donation for two massages for her. I know I am a healthy person and I can help someone who really needs my help.

I will not miss the money I shared with her to have her massage. She deserves this and this will make her happy in a way.

This is the whole point. To help people, when we can and when they need us. Someday maybe I will need help.

I don't expect I will get it, but I believe if we share good we will get back the same one day.

Thank you both, Zvonko and Mirjana, in helping me to become a better person ...

LOVE IS GIVING

I read a long time ago, and I have experienced it in my own life, that Love is giving. I have helped many people in my path, always with an open-hearted smile, because I truly believe that Love is the selfless act we do for others. Sometimes we have to go through hard and difficult episodes, but also there are small miracles that make our lives easier and beautiful.

Zvonko is my masseur, and I go to his practice every time that I can afford it because his treatments have amazing results for my health.

A while ago he called me to check how I was doing. I confessed that I would need at least one treatment, but at this moment I could not afford it. Before we finished the conversation, he told me very kindly that everything was going to be all right and was sure that we would see each other soon.

In spite of his words of encouragement, I was still worried about my future and health, even though I always try to stay calm and work on myself through meditation, reading inspiring books, helping others, surrounding myself by positive people and reminding myself that after the storm comes the calm.

That same afternoon Zvonko called me back, and explain to me that he had been talking to Petra, from Slovenia.

They discuss how some people need certain treatments to get better but they cannot pay them, as in my case.

She donated for 2 therapeutic massages for me.

I was really surprised by the kindness towards me from a person that I never met, but I know by experience that there are no coincidences and everything happens for a reason.

I am thankful to the Universe, that always takes good care of us one way or another, and to Petra that showed her generosity and positive attitude with her touching gift to me. I think that only being this way one can be really loved and fulfilled.

Thanks also to Zvonko for his great heart, for this project and his incredible work, so we can have a better quality of life and be happy.

Thank you and God bless you all,

Mirjana

Dear Stefania,

My heart is thankful for the donation that you have put aside for me.

It came at the right time and at the right place.

I am receiving handicap pension for many years now and my health is fragile.

I have problems with joints; bones, spine and I had heart surgery.

With my small income it is difficult to keep up with all this.

I participate in some donations that are within my possibilities.

Thank you once again.

Greetings,

Marija
