

Middlewich manpower

Shropshire Union Middlewich Branch Adopters completed its 78th work party on 14th May. Blessed with glorious sunshine, volunteers were out in two locations to complete work as part of their maintenance programme.

At Brickyard Bridge rotten timbers were replaced, the steps were topped up with grit and broken sections of cement

were repaired to make the area safer for visitors.

In addition, the annual repaint of Minshull Lock was completed and the lock beams, paddle gear and mooring bollards now look beautifully shiny and new. A gritted surface was also laid under the Top Lock beam and there was even time to patch up a broken wash wall below the lock.

Resurfacing at Minshull Lock.

Repairing Brickyard Bridge.
