

Millcreek Education Foundation Full STEAM Ahead Sponsorship Application

Name (Business or Individual) _____

Address: _____

Contact Name & Telephone Number _____

Email _____

Program Sponsor: \$10,000.00

Please keep our sponsorship anonymous.

Program Sponsorship provides for essential equipment and materials used during the program and available to all students in each school. All presenters have donated their time and many have provided many of their own supplies. Sponsorship may also provide for student attendance at Edinboro University/AAUW's Tech Savvy Camp in May. Sponsorship Includes: Logo on Website & Social Media; Media Release note as Program Sponsor; business website link on MEF webpage; check presentation for media; corporate information on participant materials; program sponsor information at all elementary schools and shared through PTA newsletters and social media.

Supply Sponsors: \$250.00

Sponsorship Includes: Listing on Website & Social Media; business website link on MEF webpage

Check should be made payable to the Millcreek Education Foundation.

Please keep our sponsorship anonymous.

Contact: Kristina Huber (814) 860-3364 admin@millcreekeducationfoundation.org MEF, 2614 Colonial Avenue, Erie, PA 16506

Gift-In-Kind Sponsors: Includes listing on website, social media

Please keep our sponsorship anonymous.

Full STEAM Ahead

FREE before school, girls only, STEAM hands-on, interactive program. Students will be introduced to women mentors working in the field and participate in activities. This is a "Make and Take" experience with the idea that each student will make something, take it with them to show their peers, their family, and others. This is an empowering tool to encourage creativity and participation. Research shows that less than 20% of the top paying, job longevity, and career advancement STEAM positions are held by women.

The program is held in the 5 Millcreek Township School District elementary schools (Asbury, Belle Valley, Chestnut Hill, Grandview, Tracy) for 4th and 5th grade girls. The program is designed to engage and immerse girls in STEAM projects to encourage an interest in these fields.

Full STEAM Ahead has a two-fold purpose - to engage young women in the possibilities of STEAM and to get essential equipment and supplies into the schools so that all students will benefit. The PTA's at each school are instrumental in providing the volunteers to make this program a success and have agreed to fund additional supplies as needed.
