Tackle Football and Cheer are expensive sports. Our sign-up fees alone are not enough to cover the cost of running our program. Insurance, referees, equipment, uniforms, etc. cost approximately \$350 per tackle player and \$150 per cheerleader and we see increases every year. Our tackle equipment is refurbished, repaired and/or replaced each season depending on its condition. It is only through the generosity and support of our surrounding community we are able to fund this valuable youth program for the boys and girls of our community. We believe our football and cheer program has a positive impact on the youth in our community.

The ATFL players and cheerleaders sincerely appreciate your support to help ensure our program continues year to year.
