

ISLAMIZING EDUCATION - K-12 AND CAMPUS KIDS IN GRAVE DANGER!

In October 2012, a public education elementary school teacher in Chesapeake, VA was arrested on charges of assault for bloodying the hand of a student for not performing Islamic hand signs correctly. In 2011 another public school in Mansfield Texas got caught by parents attempting to force all students to learn Arabic language. In Murfreesboro, TN parents recently discovered a plot by the local Muslim population to intimidate the school board with threats of lawsuits if they did not grant special privileges to Muslim students.

Right now, today, all across America, Muslim prayer rooms are being forced into elementary, middle and even Catholic schools. All across America, students in elementary and high schools are being indoctrinated with textbooks that have been re-written to Islamize students by altering the history of Islam and paint Christianity and Judaism in a negative light. And, on nearly every college campus, the Muslim Students Association (MSA), which is the recruiting arm of the Muslim Brotherhood, is receiving protections and platforms to spew their hate against America while they covertly train the next batch of terrorist leaders. <http://www.cbn.com/cbnnews/us/2011/march/muslim-student-group-a-gateway-to-jihad/> .

You might ask, “How can this be happening without parents knowing about it?”

The answer to that question has several parts. They are as follows:

- 1) Parents are not asking questions of their children about what is going on or checking their study materials
- 2) The liberal bias of the educational system that is sympathetic to the Islamization of schools
- 3) The atmosphere of political correctness that is crippling the country

The future generations of America are quickly being lost as the Islamic Supremacist work their long term plan to Islamize the youth just as Hitler did by forming the Brownshirt youth army in the 1940's. While Americans sleepwalk, their children are being wooed away as the infiltrators systematically lay the groundwork for the future Islamic States of America. While you are focused on next week, Islam is focused on your kids and what they will be able to do 15-20 years from now.

The resources that you will need to educate your community on these issues are listed below. Distribute them freely and encourage all parents to immediately get actively involved in their children's activities and studies.
