

Millivolt GAS Systems

October 11, 2018

An entry to mid-level course designed for plumbers, oil technicians, gas apprentices and others looking for more knowledge on residential millivolt gas controls.

An 8 hour course focuses on millivolt gas valves using thermocouples and thermopiles and ignition systems and how to diagnose and correct typical service problems. Includes lab work on wiring live-fire gas trainers*.

Includes our textbook "The MilliVoltage Handbook", a thermocouple gas adapter and lunch!

TOPICS:

Millivoltage Systems (30 mVdc to 750 mVdc)
Using Test Equipment
Gas Controls and Gas Valves
Gas Pilot Burners
Troubleshooting Gas Burner Components

**Class will be held at the
Beckett Training Center
660 Main St., Fiskdale (Sturbridge), MA
from 8:00 am to 4:30pm**

ALL students must bring a millivoltmeter* with them to participate in "hands-on" portions.

Please copy and make out one form per student. Full tuition of \$315.00 is required with registration. Tuition includes an \$190.00 education fee, a \$125.00 books and supplies fee and a \$100.00 non-refundable registration fee.

**Make check payable to:
Firedragon Enterprises and mail to:
Firedragon Academy
608 Moose Hill Rd., Leicester, MA 01524**
