Securing the building.

It's important to make sure the building is secure when we leave. We of course want to lock the doors but that in itself doesn't secure the door if it doesn't shut all the way. Please make sure the locks are locked and the doors are shut completely and then pull on it make sure it is secure, especially the door at the back of the building at the top of the stairs where the elevator is. It doesn't always close all the way. We need everyone's help in this matter.
