RABBIT RECORD BOOK

Introduction

This Project Record Book has been created specifically for Flagler County Fair exhibitors enrolled in a rabbit project. Keeping a record book is an important part of the project. It will help you set goals for the project year, record your accomplishments, and provide a place to keep important records on your rabbits.

What is a 4H/FFA project? A project is a subject or topic that you learn about in 4H or FFA. In this case, your project is a "rabbit". You learn about your project by attending club meetings and educational workshops and working with adult leaders and other 4H/FFA members. You can also learn from field trips and by participating in shows and competitions.

Why Complete a Record Book? A record book is not meant to be a chore. Instead, it is a way for you to learn about your project, as well as other valuable skills such as setting goals, collecting information, evaluating information, tracking costs and expenses, organization and others.

Completing your Rabbit Project Record Book: At the beginning of the Fair year you should select one/several of your animals to be your 4H/FFA Fair Project animal(s) for the year. Then begin recording all of the relevant information on your animal in your record book on a monthly basis. It is important to keep your record book up to date, so that completing it does not become a chore at the end of the year.

Take a glance through the record book so that you can see how it is organized. As you can see, there are pages that pertain only to health, and there are pages that pertain to show records and/or financial summaries. You only need to complete the pages relevant to your project animal. However, you should complete all of the relevant information for the year.

Record Book Guidelines

Record books must be completed and turned in as instructed. Failure to do so will, will forfeit any sale or prize money.

It is suggested that a copy of the record book be made for use as a work copy. Records can then be transferred into this book for final submission.

1. Your record book starts with the purchase of your animal.
2. Your age must be listed as of September 1st of this year.
3. Your animal record book will contain information related to only your current rabbit project animal. If you have more than one animal, you must use the animal specific record book.
4. Have someone check your project story for accuracy and spelling and grammar errors before you write it on the final record book.
5. Juniors may use pencils and Intermediates must use black ink.

6. Record books have a maximum of 3 pages of pictures (front only). All pictures must have captions. Pictures of club meetings, community services, fundraisers and educational field trips should be included. No scrap booking.
7. All pages of this record book must be printed front only on white paper.
8. All sections of the record book must be completed and accurate. If an area does not apply to your project, write "N/A".
