

Miller™

ADVANCE CATHETER

The Patient-Friendly Catheter

Soft tip

The soft tip of the catheter allows for smooth insertion into the cervical canal, minimizing tearing of cervical tissue.

Thinner diameter

Unlike other systems, the thinner diameter of the outer sheath can be placed into the endocervix to the level of the internal os with no additional dilation required, allowing the catheter to pass easily through the cervix and into the uterine cavity.

Memory sheath

The sheath is made of a flexible memory material that allows the catheter to comfortably conform to the shape of the cervix, the cervicouterine junction, and the uterus.

Designed with comfort in mind

Soft Tip

Thinner Diameter

Memory Sheath

“Unlike standard catheters, it has features that make HSG and SIS procedures easier, thus faster to perform. In addition, the catheter is more comfortable for my patients and that means there’s a better chance of procedure completion.”

—Charles E. Miller, MD

MILLER ADVANCE HS CATHETER

• THIS PRODUCT DOES NOT CONTAIN LATEX

UTERINE MANIPULATORS

K-UMI MANIPULATOR/INJECTOR

- Sterile. Disposable. Ready to use.
- Pinch-Grip Handle allows for quick and effective repositioning during procedures
- Unique pear-shaped balloon conforms to anatomy and allows for a secure seal of the cervical opening to prevent injection leaks
- Only manipulator with a short, smooth, tapered distal tip, reducing the chance for uterine perforations and providing increased patient comfort during placement
- Only manipulator with a flexible (strain-relief), proximal connector to prevent breaks
- THIS PRODUCT DOES NOT CONTAIN LATEX

TMI6003 Box of 12

UTERINE MANIPULATOR/INJECTOR

- Sterile. Disposable. Ready to use.
- Unique pear-shaped balloon conforms to anatomy and allows for a secure seal of the cervical opening to prevent injection leaks
- Reduced catheter shaft (4.5mm) allows for easy insertion
- Flexible extension prevents cracking of luer fitting
- THIS PRODUCT DOES NOT CONTAIN LATEX

TMI1151 Box of 12

EZ GLIDE MANIPULATOR/INJECTOR

- Sterile. Disposable. Ready to use.
- New sliding handle adjusts after insertion and then locks into place to maintain a secure trauma free hold on the uterus
- Handle has larger grip for better leverage during manipulation
- Unique pear-shaped balloon conforms to anatomy and allows for a secure seal of the cervical opening to prevent injection leaks
- Flexible extension prevents cracking of luer fitting
- Longer shaft to better accommodate plus-size patients
- Central lumen provides for easy injection
- Atraumatic beveled catheter tip protects uterine wall
- THIS PRODUCT DOES NOT CONTAIN LATEX

TMI1171 Box of 12

ENDOMETRIAL SAMPLERS

PIPELLE DE CORNIER®

- THIS PRODUCT DOES NOT CONTAIN LATEX
- Sterile. Disposable. Ready to use.
- Blunt tip
- Centimeter markings on the curette
- Used for systematic screening programs in women at risk
- Requires no local anesthesia or cervical dilation, allowing for sampling procedures to be painless
- Devices are fitted with traceability sticker for the patient's file

TMI-1103000 **Box of 25**

PIPELLE DE CORNIER® MARK II

- THIS PRODUCT DOES NOT CONTAIN LATEX
- Sterile. Disposable. Ready to use.
- Blunt tip
- Centimeter markings on the curette
- The only device that provides samples for both histology and cytology analysis in one single procedure
- The body and the plunger of the device, identical to the original Pipelle de Cornier are used for the histology specimen
- Improves the outcome of histopathological investigations

TMI-1111200 **Box of 25**

ENDOMETRIAL SAMPLER - SUCTION CURETTE

- Sterile. Disposable. Ready to use.
- Blunt tip
- Centimeter markings on the curette
- Solid tapered tip and minimum outer diameter combine for simple and comfortable introduction
- Super suction and sharp curette opening ensures a reliable sample collection
- Optimal sample retrieval
- Firm, flexible cannula prevents kinking on insertion
- THIS PRODUCT DOES NOT CONTAIN LATEX

TMI1175 **Box of 25**
