

Green Power

Organic Superfood Blend

Drink your greens

Green Power wanted an easy, simple way to make sure that you can consume essential green foods on a daily basis. They tried several green powders, all tasty and beneficial, but could not find one that was just straight-up green ingredients. They all had fillers, additives, sweeteners and/or artificial flavors. Since they couldn't find what they were looking for, they decided...

“Let's Make Our Own.”

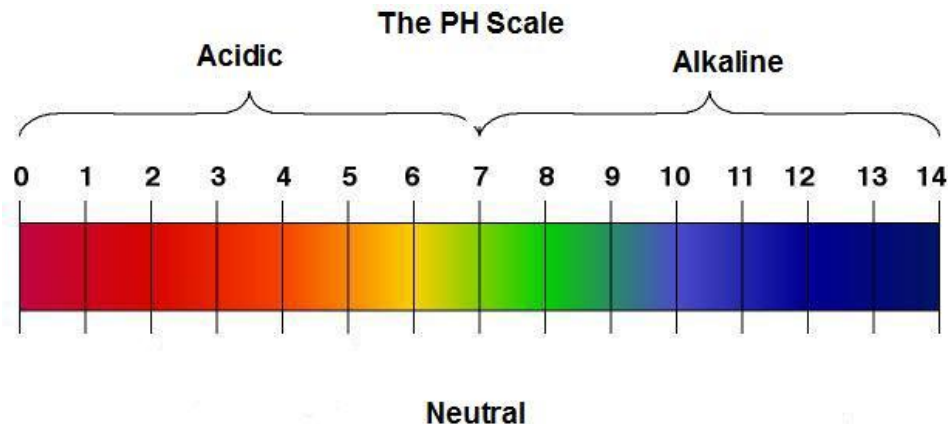

Why Green Power?

Green Power Organic Antioxidant Blend was created to bring you a convenient and delicious way to enjoy the earth's greens. It's straight-up green with no added flavors or preservatives.

The Power of Green

Green foods supply essential fatty acids, amino acids and trace minerals that are critical for life and optimal function. They are also alkaline foods which help restore your system to the ideal pH level which results in a stronger immune system and increased stamina to help you live a balanced and energetic life.

Made from 9 SUPERfoods

Flax Seed

Wheat Grass

Spinach

Oat Grass

Broccoli

Kale

Nothing but goodness
