

Eastern Oregon Manufacturing Partnership

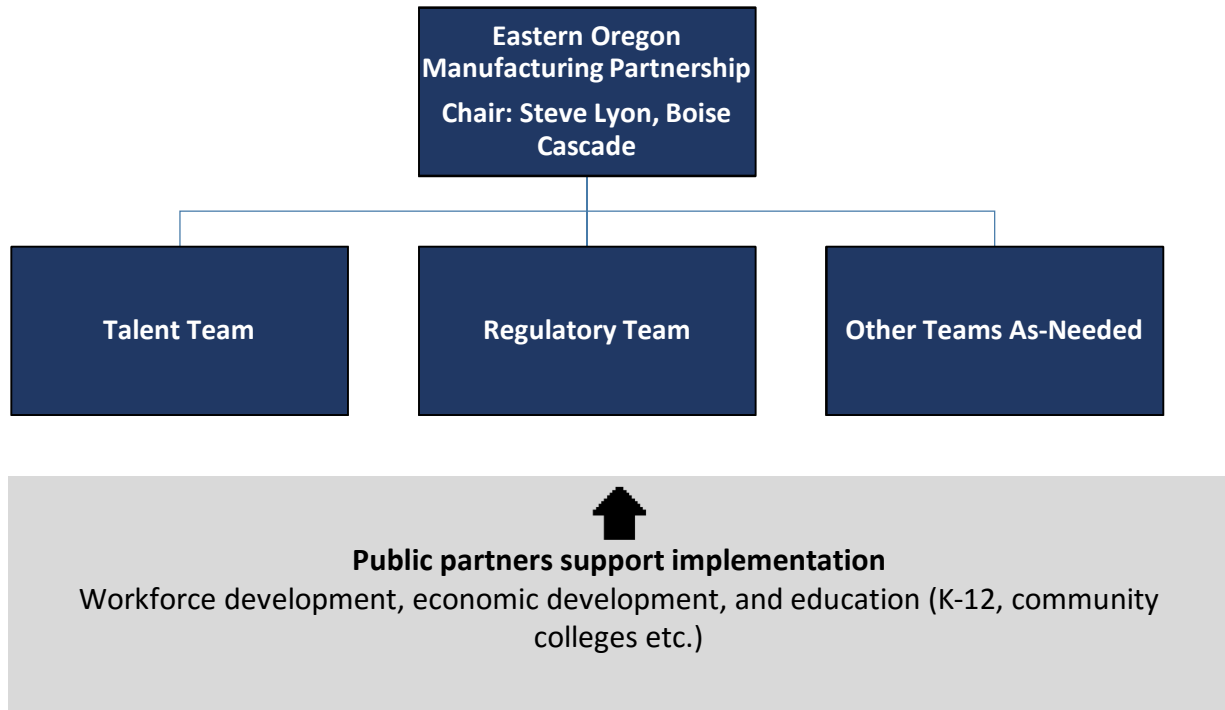

Mission Statement

The Eastern Oregon Manufacturing Partnership is an industry-led collaboration dedicated to strengthening the manufacturing sector in Eastern Oregon. The Partnership is directed by business leaders from manufacturing companies across the area and supported by public sector partners in workforce development, education, and economic development.

Objectives

- Improve the talent pipeline into manufacturing;
- Support regulatory changes that will enable sector growth.

Structure

Meeting Rhythm

The full manufacturing partnership meets on a quarterly basis. Each team meets every two months or as-needed based on their Action Plans. During the first quarter of every year, the partnership will re-assess the mission statement and Action Plan to ensure they are working and that partnership activities are aligned with the needs of manufacturers.
