

The following items must be completed before Greater Wenatchee Irrigation District will sign off for approval. Please remember all costs associated with individual items are your responsibility.

1. Pipelines must be marked on the map.
2. Each lot must have its own shut off valve, inspected by GWID personnel.
3. USBR Easement must be marked on the map as USBR Easement, dedicated USBR easement, no other utilities within 10' laterally, or as required by USBR.
4. Must pay subdivision fee in full, prior to work beginning. (Billing included)
5. Must follow all procedures in the Greater Wenatchee Irrigation District Rules and Regulations Relating to Property divisions, Adjustments, etc. (Copy provided)
6. When installing your delivery system, all lots must be re-connected to the existing (upgraded, see item 8) meter.
7. You will be required to move turn-outs and other infrastructure outside sidewalks/roads if applicable.
8. Upgrade to our new style meter and vault.
9. Upgrade any line under new impervious surfaces.
10. Additional costs associated with subdividing (may not be all inclusive):
 - a. Pay all costs for onsite inspector from GWID.
 - b. Pay all costs associated with changes in mapping
11. You must request a Right of Entry with the Bureau of Reclamation PRIOR to any work, with a copy submitted to our office.
12. Provide As-Builts to GWID in an acceptable format by GWID in a timely manner.
13. Provide Certificate of Insurance, naming Greater Wenatchee Irrigation District as an insured and deliver a copy to the office prior to commencing work.
14. All requirements, if any, set by the Bureau.

Thank you

Greater Wenatchee Irrigation District
