## Brands of Calaveras County

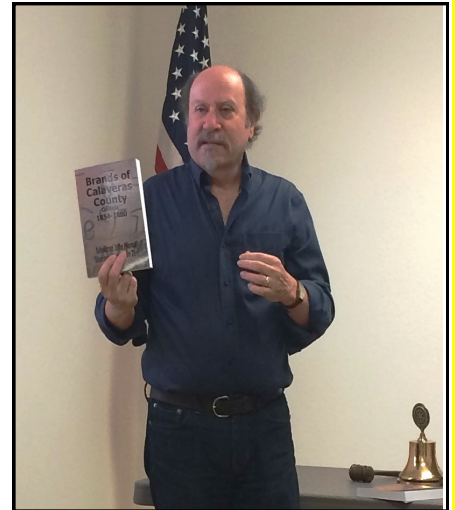

Sal Manna from Calaveras Society for Preservation of West Calaveras History, has recently co-authored a book called Brands of Calaveras County with Shannon Van Zant. Sal spoke to the club about the book and his research into the history.

At one time, all livestock brands were registered with the county, and this book is not only filled with photos of brands that were registered between 1854—14880, it also tells the fascinating history of the families associated with the brands. The book also contains photos of the early Calaveras County families, and there are a lot of familiar names.

Several Rotary members purchased the book, and we look forward to future discussions about the historic families.

The book is available through book stores or, through Calaveras History Publishing, P. O. Box 714 Burson CA 95225.

Thanks for the great information Sal.

*Note: Due to the closure of La Contenta Golf Course, the club will be meeting at the Jenny Lind Veterans Hall in Valley Springs. We anticipate that this will be a temporary location, and we will resume meeting at La Contenta when it re-opens.*
