MESSAGE FROM THE MAYOR

There have been some questions regarding the students returning from France. I talked with the Health Clinic Administrator today to clarify the process for the students arriving home.

Under the direction of the Medical Health Officer the families of the students have been given the following information, the same as all international travellers the students will be screened before being permitted on the flight home. They will then be screened again landing in Canada.

When they arrive in Gold River they are to be self-isolated for 14 days. It is up to the parents to ensure this process is carried out.

You can look up the most up to date information on COVID-19 on the Village of Gold River Website villageofgoldriver.com our Facebook page and on Twitter. You can also get information from Vancouver Island Health at islandhealth.ca

Just a reminder, the Gold River Clinic is open, you will be screened at the door, but if you have a cough please call ahead.

This is a very different and difficult time for everyone, I ask each and every one of you to please take care of yourself, your family and look out for your neighbours.

Thank you

Brad Unger, Mayor
